NUMEROCAL DUAL ADJUSTMENT JUST CLICK IT!

Easy and clear, set everything with a screwdriver,
accurately set 48 different feels within 10 seconds

THE INNER CIRCLE ADJUSTS THE 6 GEARS OF CENTER TRAVEL

where the slot points is current setting, the larger the number, the looser the cube;

THE OUTER CIRCLE ADJUSTS THE 8 GEARS OF TENSION

where the inner number 1 points is current setting, the larger the number, the greater the tension.

DaYan

FOUR PRO+ LEVEL RACING DESIGNS

0.01-second gap can rewrite the outcome.
Master time, and you master victory.

WAVE ANTI-STICK GROOVE

Long-lasting lubrication, stable turning feeling.

PRIMARY INTERNALS, SMOOTH FEELING

No toner interference, maintain the smooth feeling it ought to be.

MICRO-INJECTION MAGNETIC CORE, MAKE PERFECTION MORE PERFECT

Precisely vertical on every side, resistance even symmetrically.

BIG CORNER-CUTTING

45° regular corner-cutting+25° reverse corner-cutting,
Huge corner cutting makes the fluency even better.

Both Excellent

TWO VERSIONS

No matter the top feature of the maglev,
or the light feeling of the scratchless frosty version,
there's always one for you.

MAGLEV VERSION

SCRATCHLESS FROSTY VERSION

Brand

Dayan

Product Name

Dayan Megaminx Pro+ M

Magnets Number

220(Maglev) / 160(scratchless frosty)

Weight (standard/Maglev)

99 / 113g

Size

Side length 30.38mm

Settings

6 center travel settings,
8 tension settings,
5 core magnet settings.

Elasticity

Maglev/Spring

Outer Finish

Scratchless frosty
