DaYan Skewb

DAYAN SKEWB V2 M
SKEW TOWARDS VICTORY

Integrating cutting-edge designs from our flagship cubes:
Adjustable Core Positioning, Numerical Dual Adjustment System,
Micron-Precision Ball Core...
Top performance from flagship design!
The Dayan Skewb V2 M, skews the competition in your favor!

Micron-Precision Ball Core

Core Positioning

Numerical Dual Adjustment System

Carved Center Pieces

Fluent Corner Cutting

DaYan

SKEWB V2M

CORE ASSISTANCE ADJUSTABLE CORNER-CORE POSITIONING

5 gears adjustable magnets in corners, pick the one you prefer
Accurate positioning in fast turning, Comfortable feeling from smooth solving.

DaYan

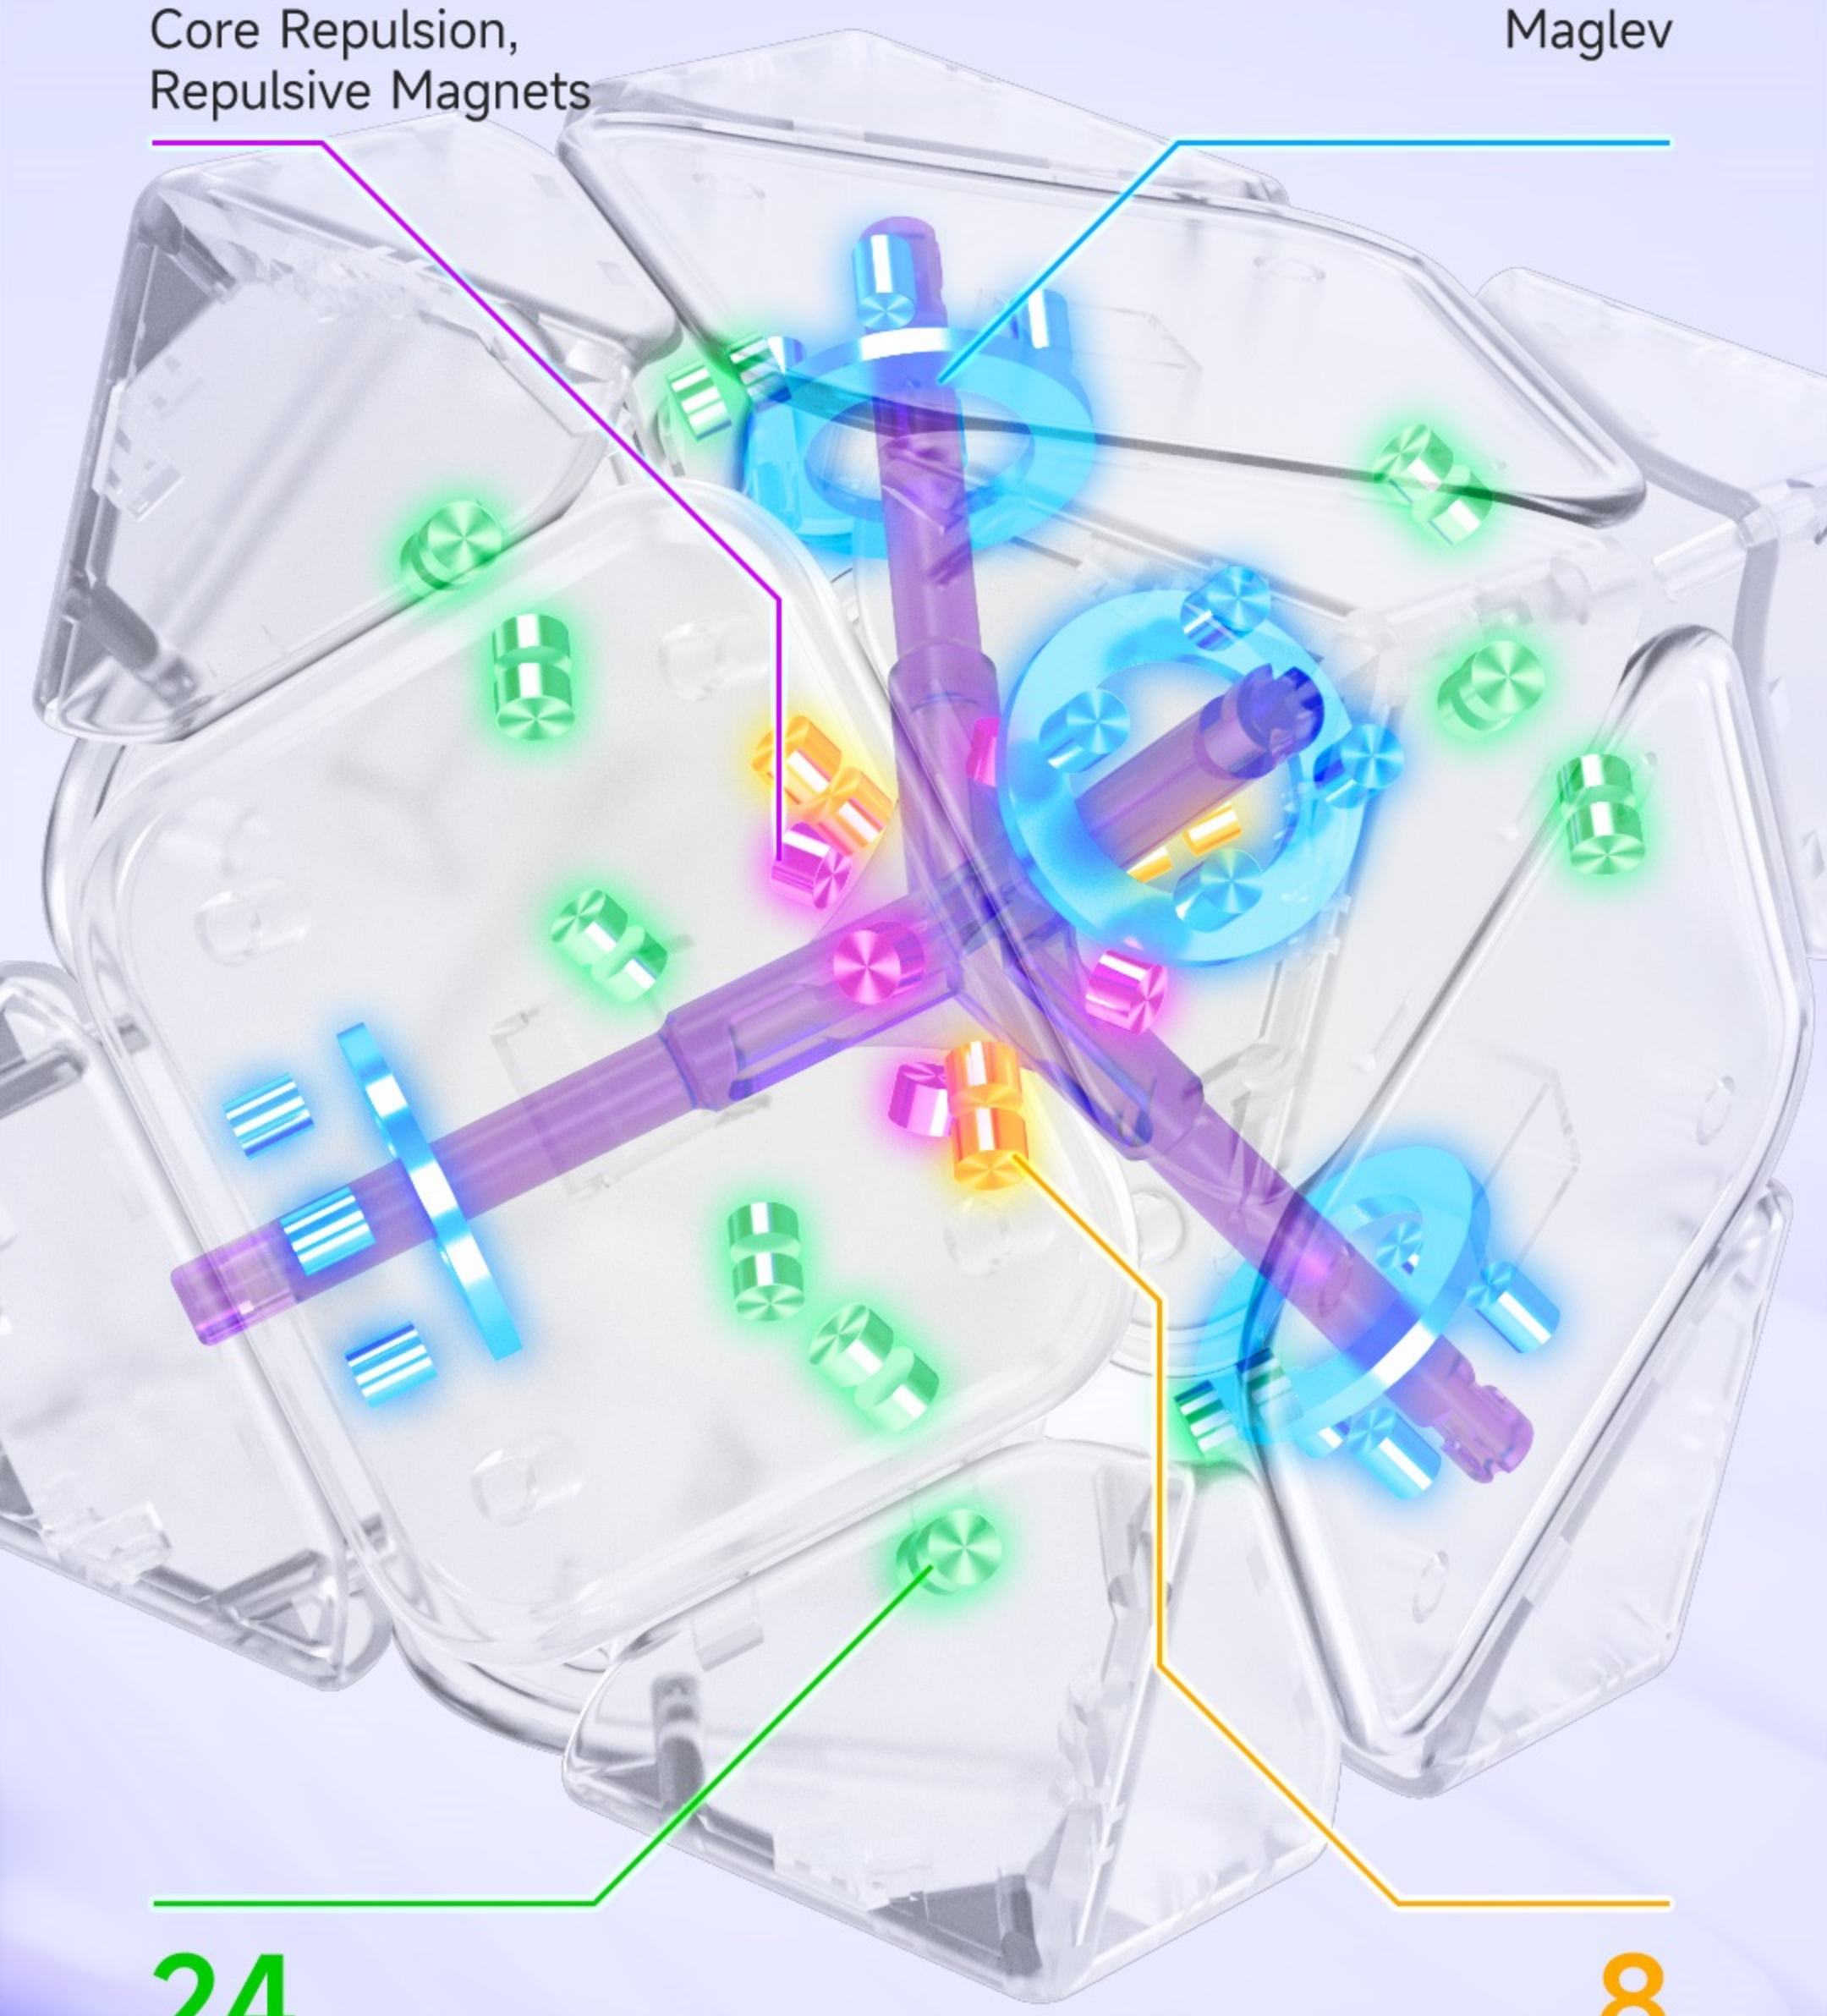

SKEWB V2M

MAGNETIC CORE BETTER FOR SPEED SOLVING

Maglev, corner core and contact surface positioning
52 magnets distributed inside the cube, contribute to a delicate and comfortable feel.

6
Core Repulsion,
Repulsive Magnets

20
Maglev

24
Piece magnets

8
Corner-Core Magnets

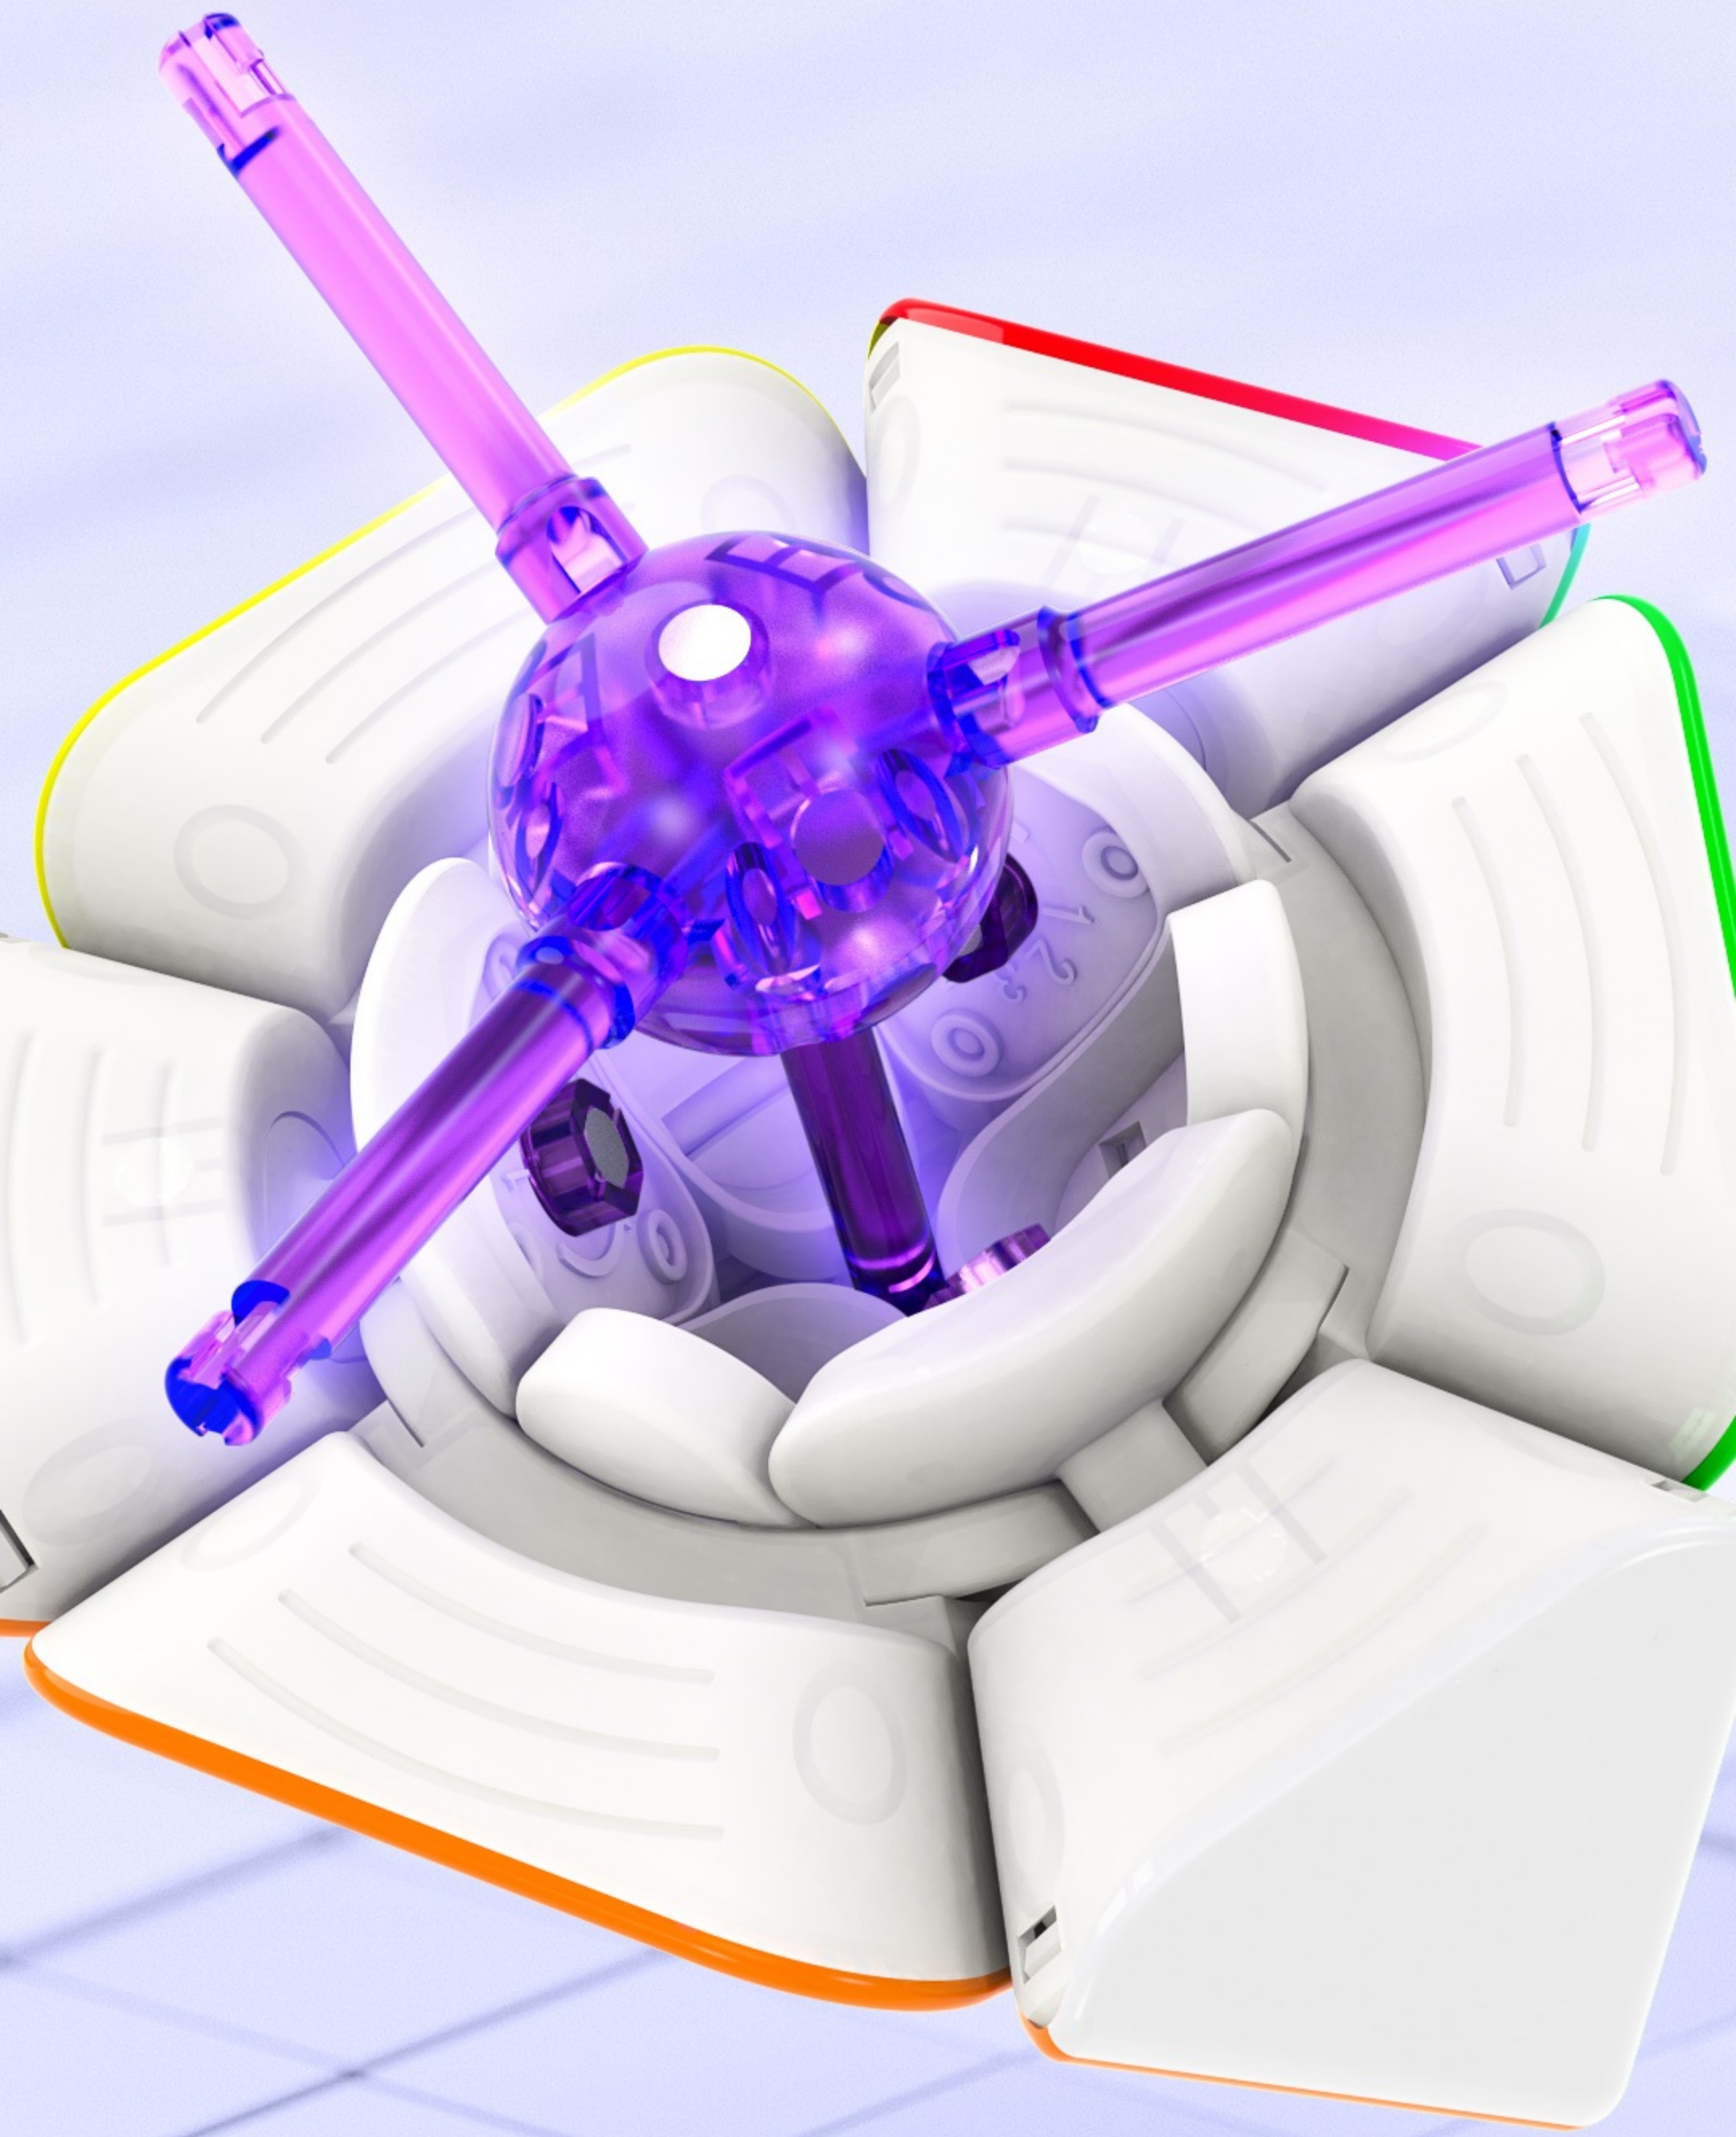

※The above data is for the UV maglev version,
the number of magnets in the matte spring version is different.

DaYan

SKEWB V2M

MICRON PRECISION BALL CORE

Injection-molded core, high precision vertical
Consistent tightness, easy setting

DaYan

SKEWB V2M

TOOL-FREE ADJUSTMENT

Visible numerical dual-adjustment, all gears clearly distinguishable.
Casually twist, precisely set.

INNER RING

turn clockwise, 6 gears of center travel, the number on the inner ring aligned with the central indicator slot represents the current setting, the bigger the number is, the looser the cube will be.

OUTER RING

turn counterclockwise, 8 gears of tension, the number on the outer ring aligned with the 1 on inner ring represents the current setting, the bigger the number is, the stronger the tension will be.

DaYan

SKEWB V2M

CARVED CENTER PIECES

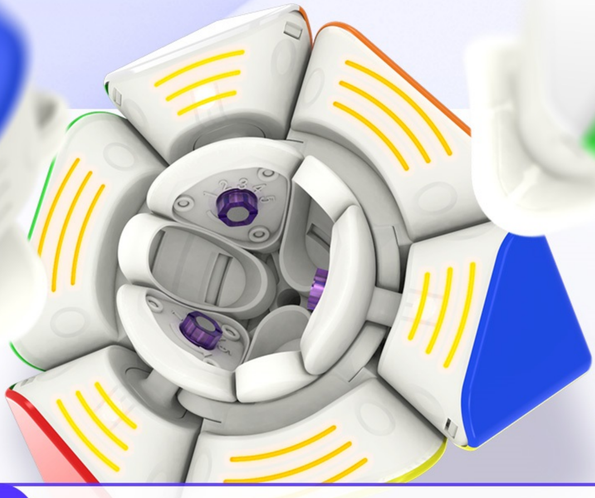

Continuing the legacy of DaYan's innovation, the carved surfaces fit snugly against fingertips, enabling faster turning.

REMAIN SPEEDCUBE GENE
BOOST SPEEDSOLVING PB

01 **Big Corner-Cutting, No Lock-Ups**
Advanced corner-cutting performance,
ensuring seamless solves.

02 **Concentric Arc Anti-Stick Grooves, Smoothen every solves**
Long-lasting lubrication, consistent tactile feedback

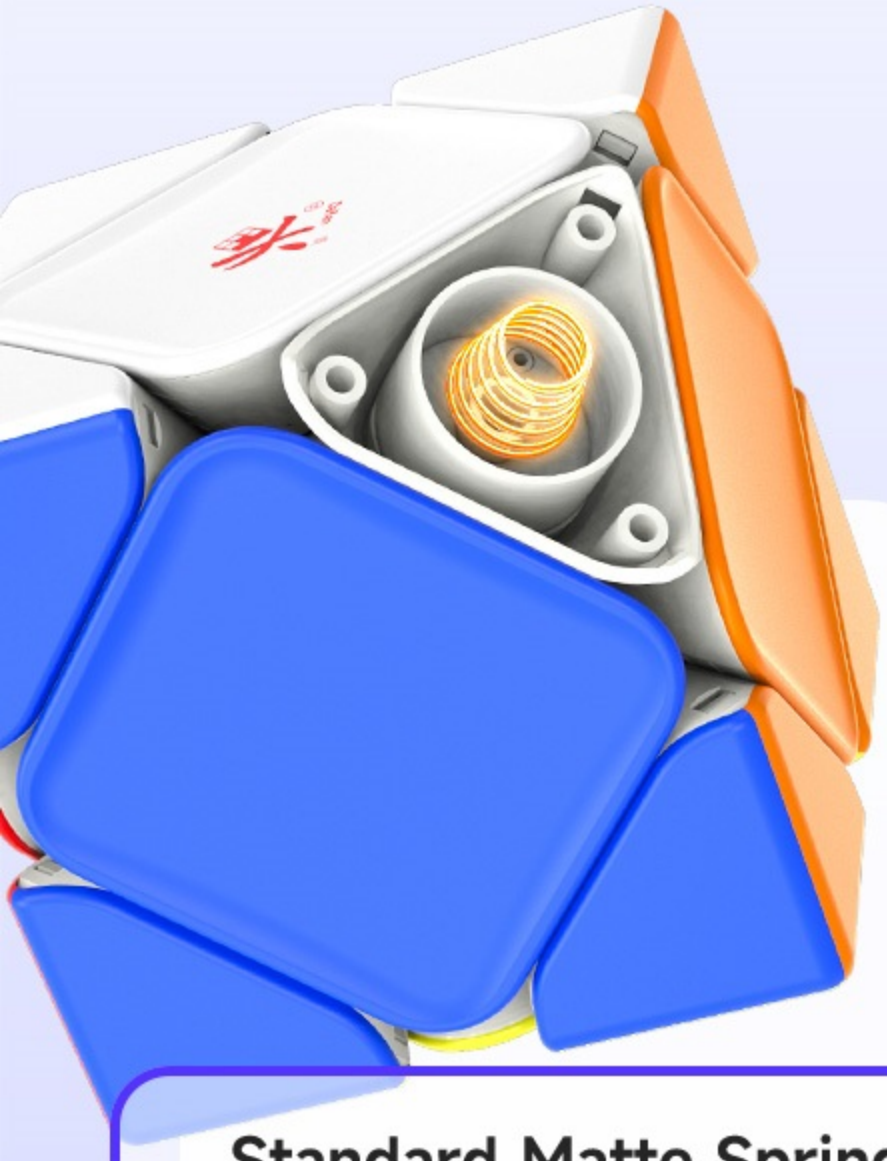

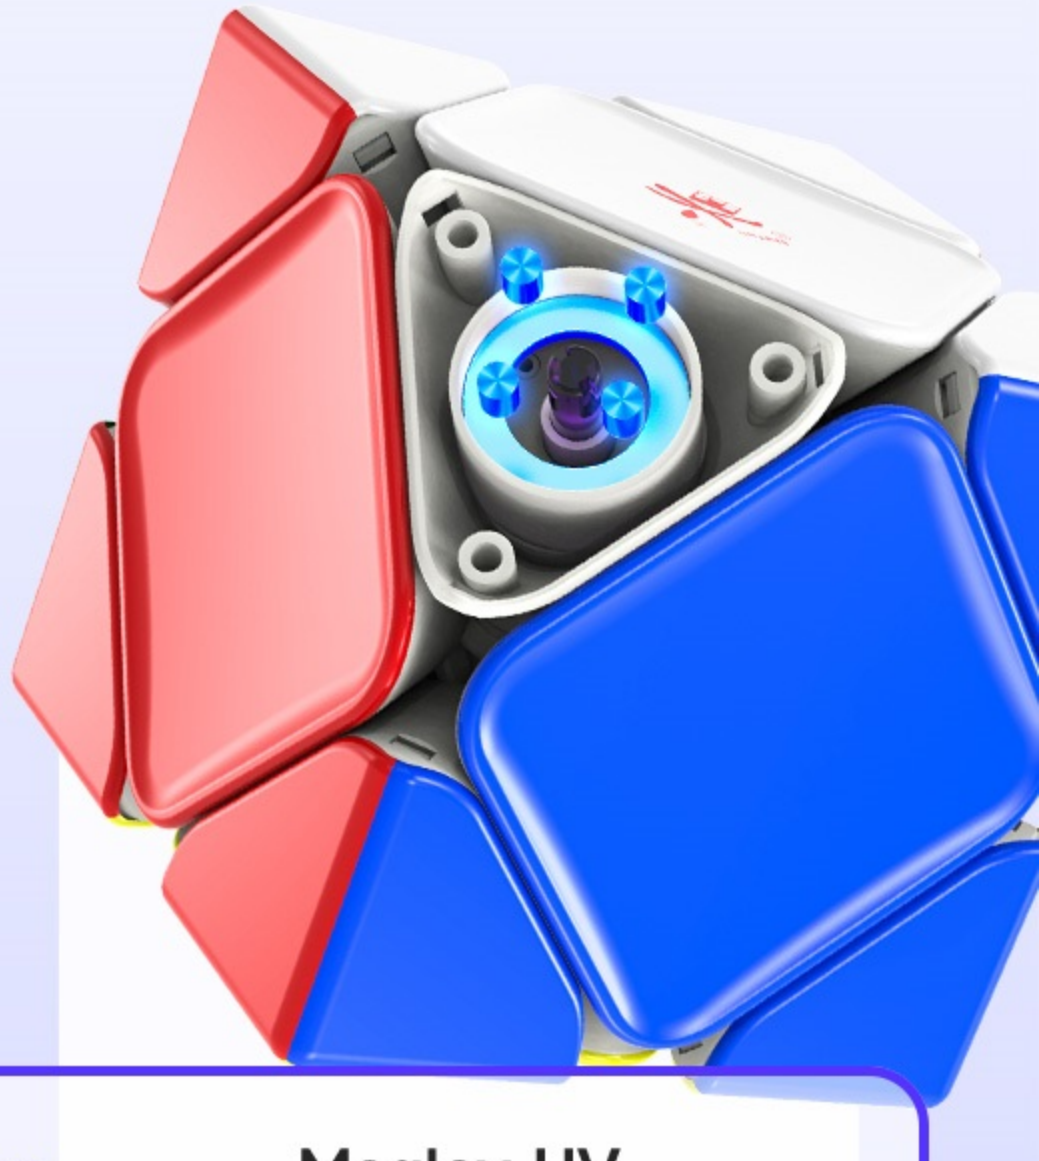

03 **Reinforced Locking Mechanism, Drop-Proof Durability**
Interlocking layers with reinforced clips, drop-proof, stays intact.
