ZHANCHI V5 M

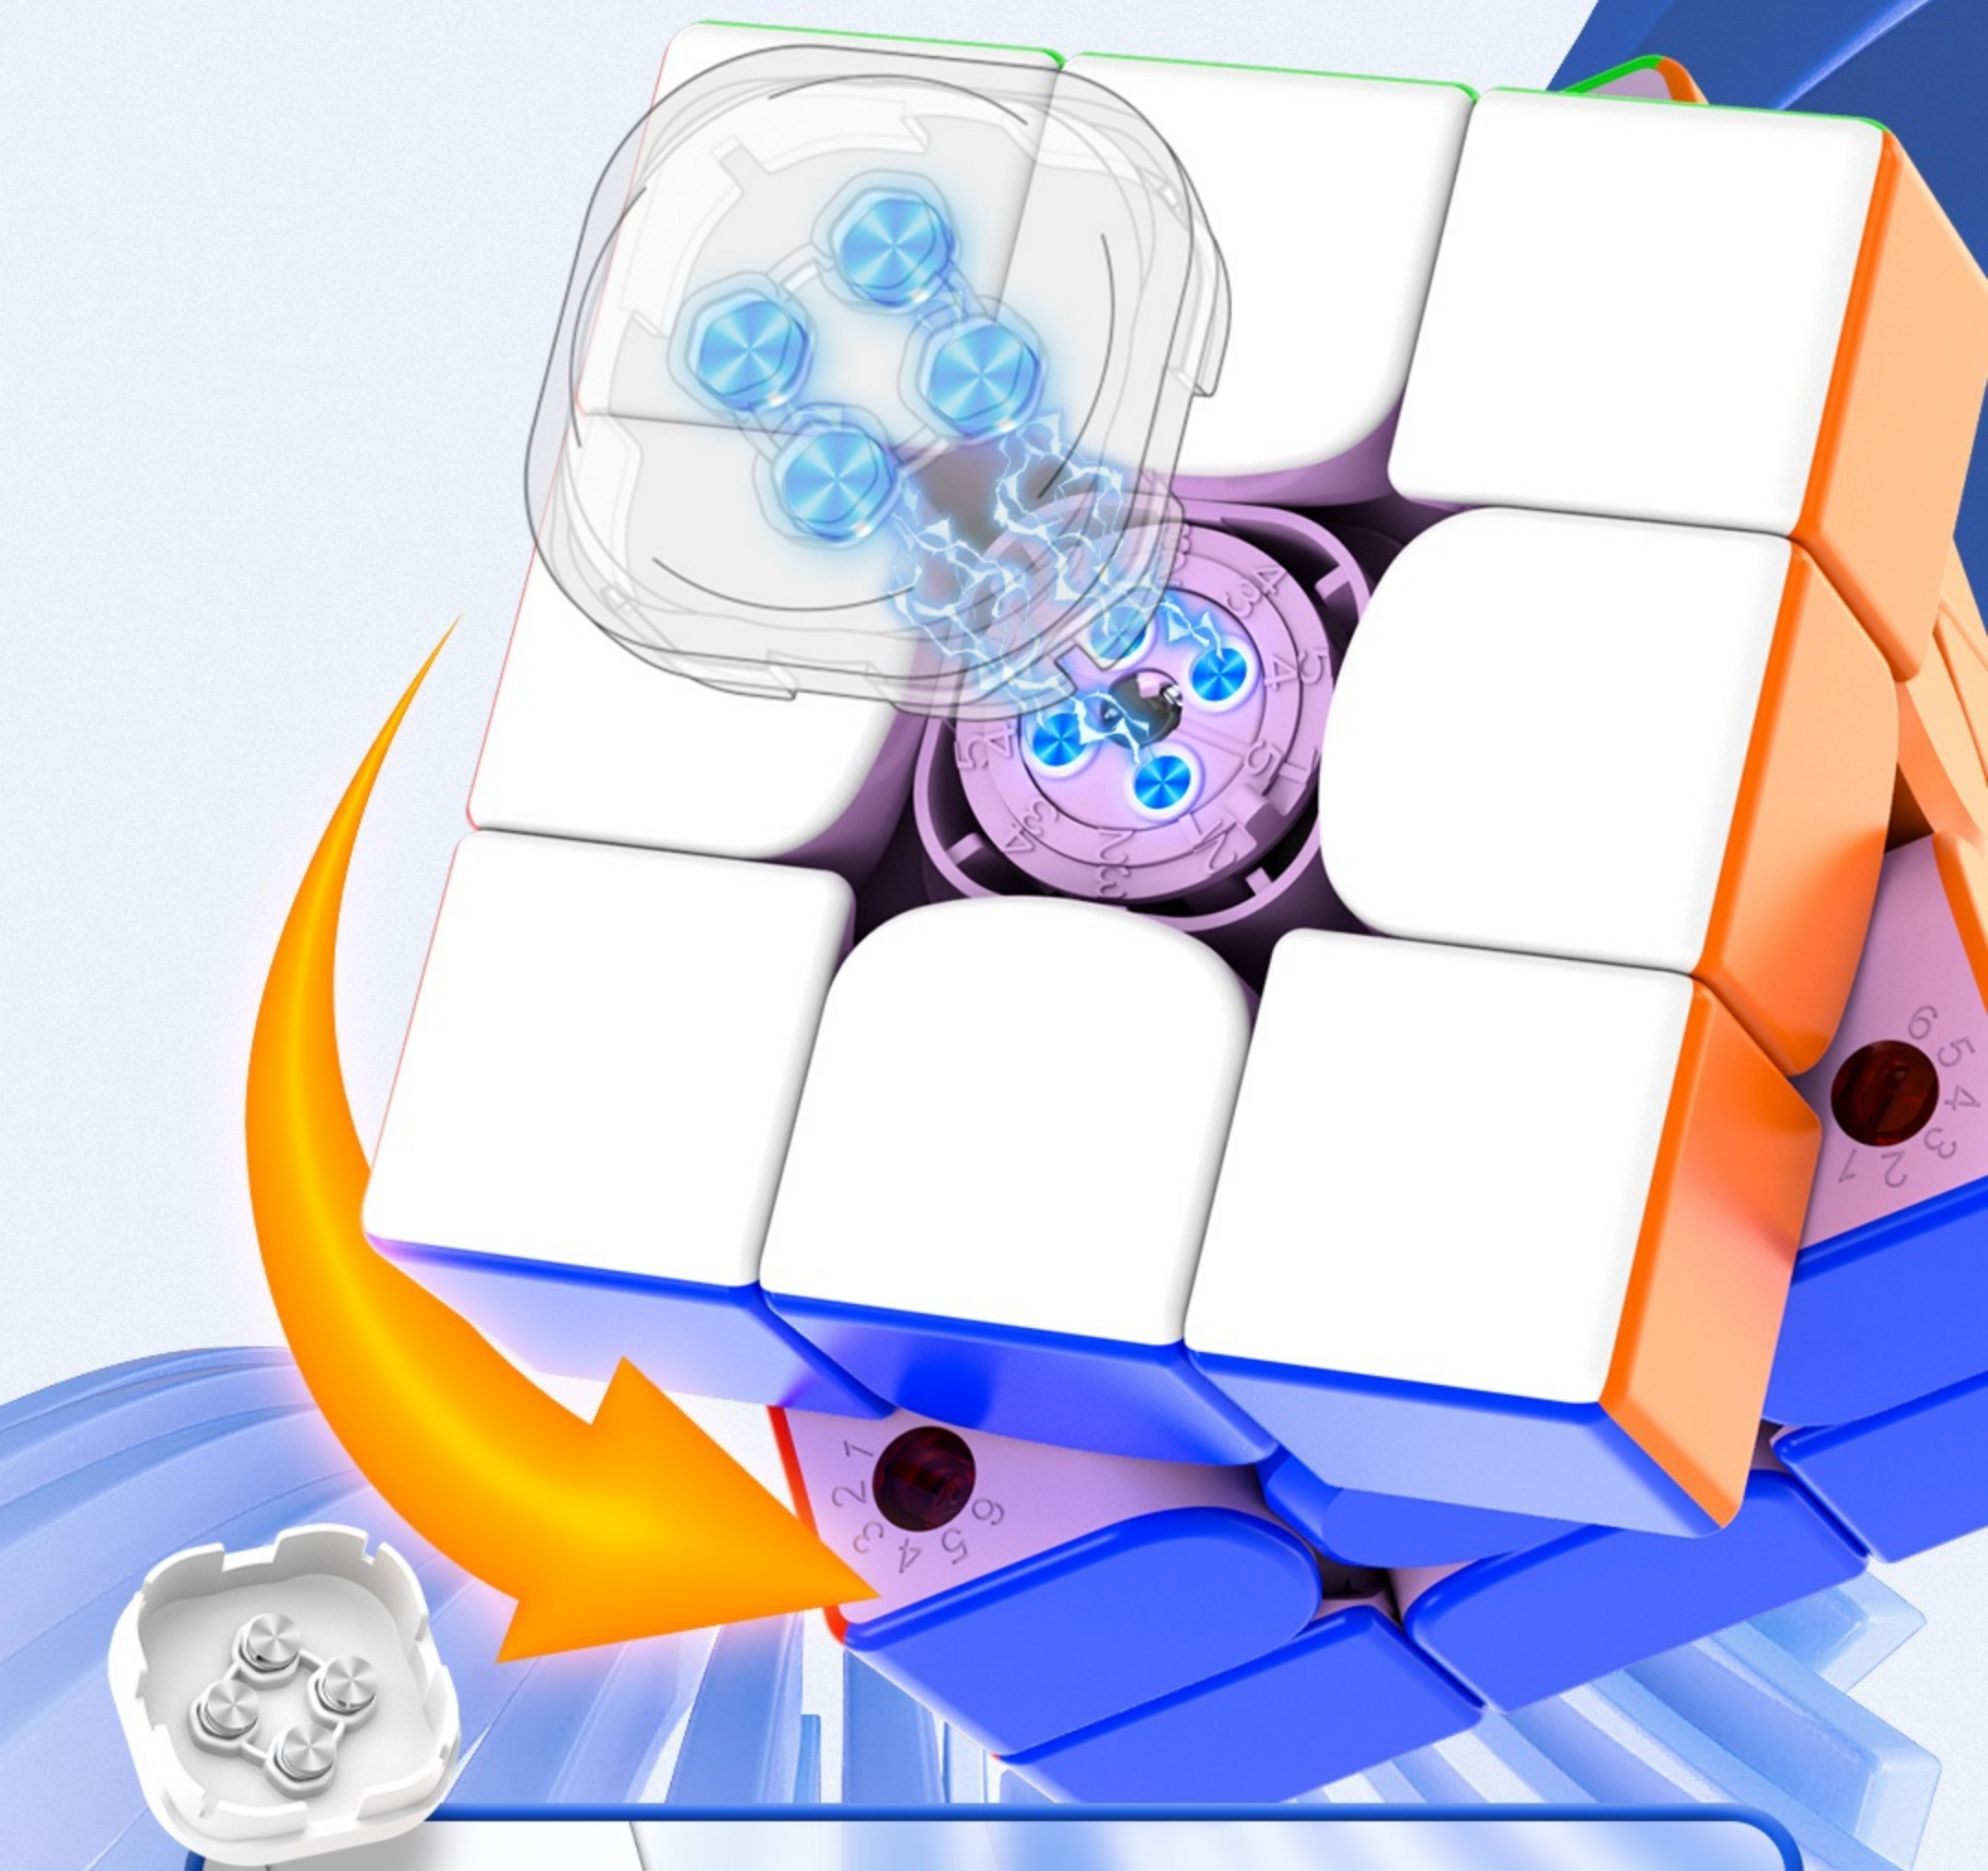

INNOVATION IN MAGNETIC POSITIONING

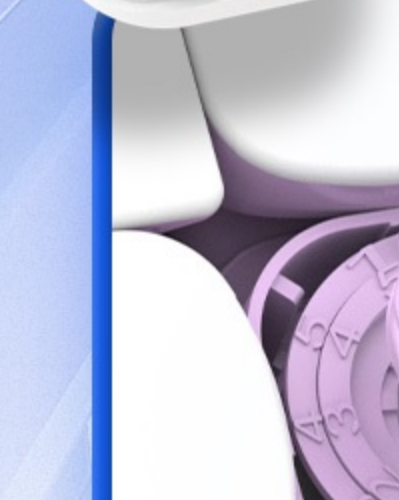

DaYan

BRAND NEW CAP-AXIS POSITIONING SYSTEM

ZHANCHI
V5 M

Zhanchi V5 M features a center cap-axis magnetic positioning system,
4 sets of attractive magnetic forces,
align the cube automatically after half turn, smooth and natural.

The cube comes with 3 sets of replaceable accessories:

Non-magnetic (white)

Weak magnetic (green)

Strong magnetic (orange)

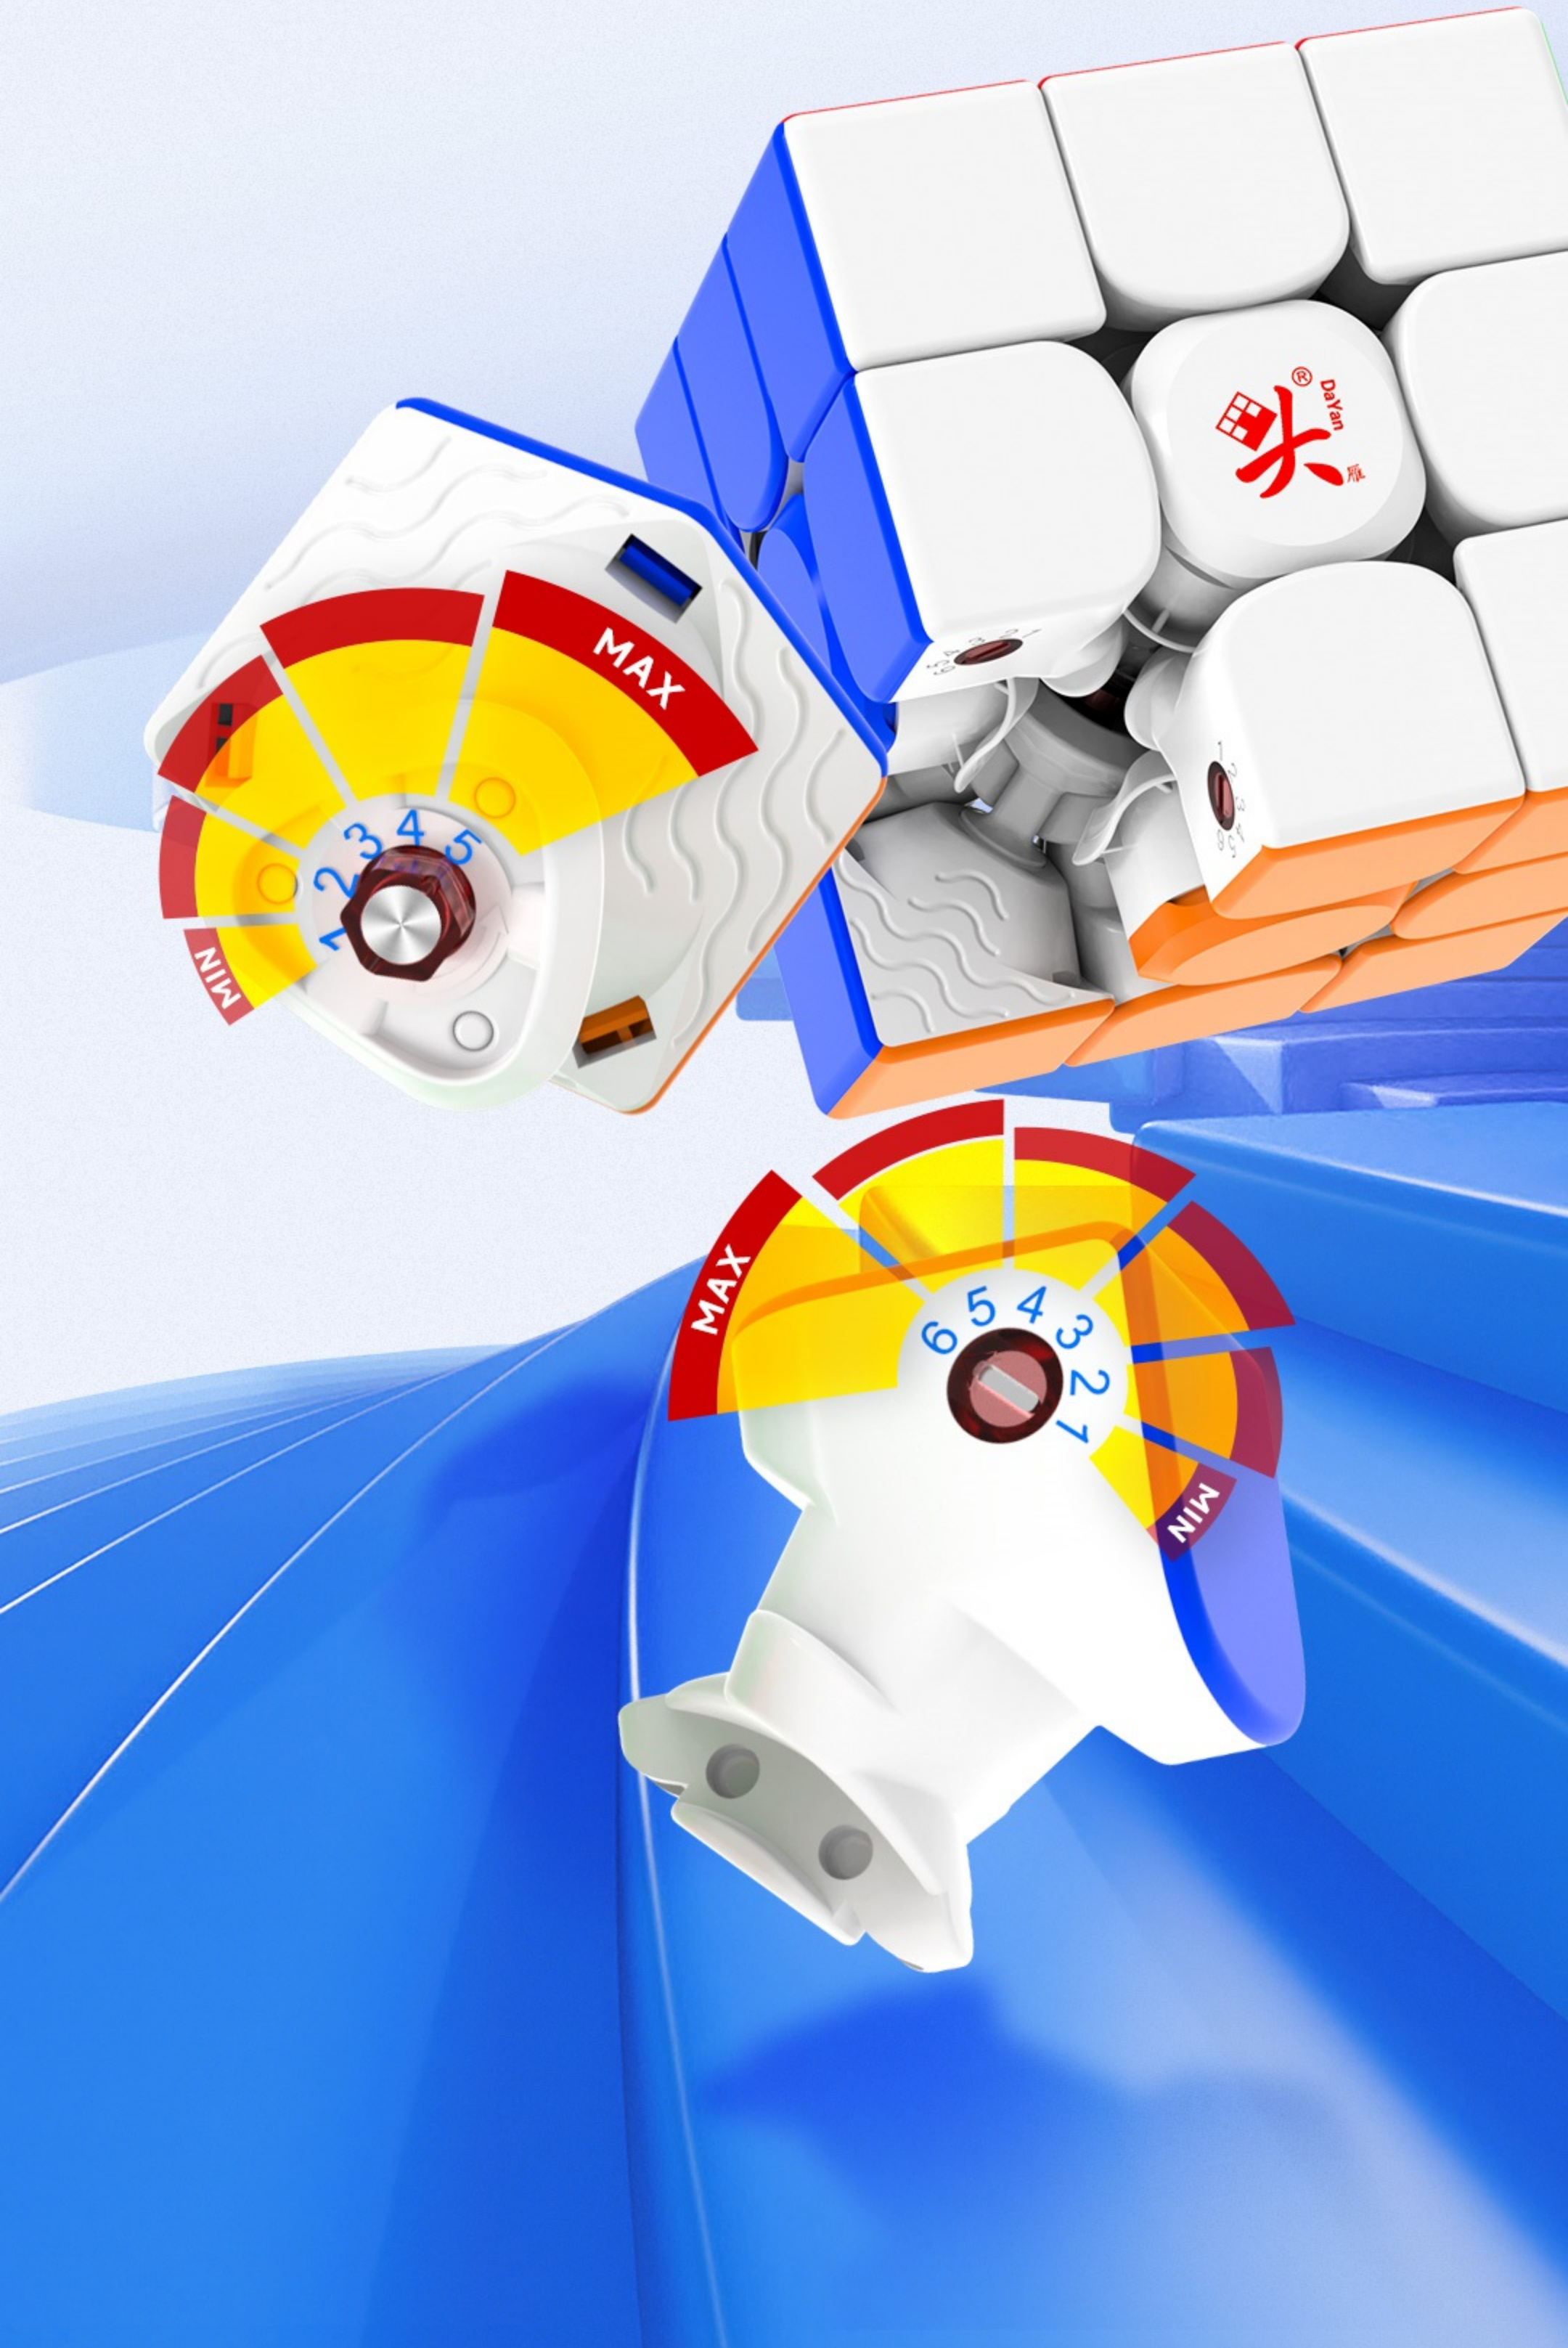

change whatever feel you like.

DaYan

EDGE-CORNER-CORE NUMERICAL SETTINGS

ZHANCHI
V5 M

6 gears on edge-corner magnets, 5 gears on corner-core
Multiple combinations, create your desired feel,
make solving more comfortable.

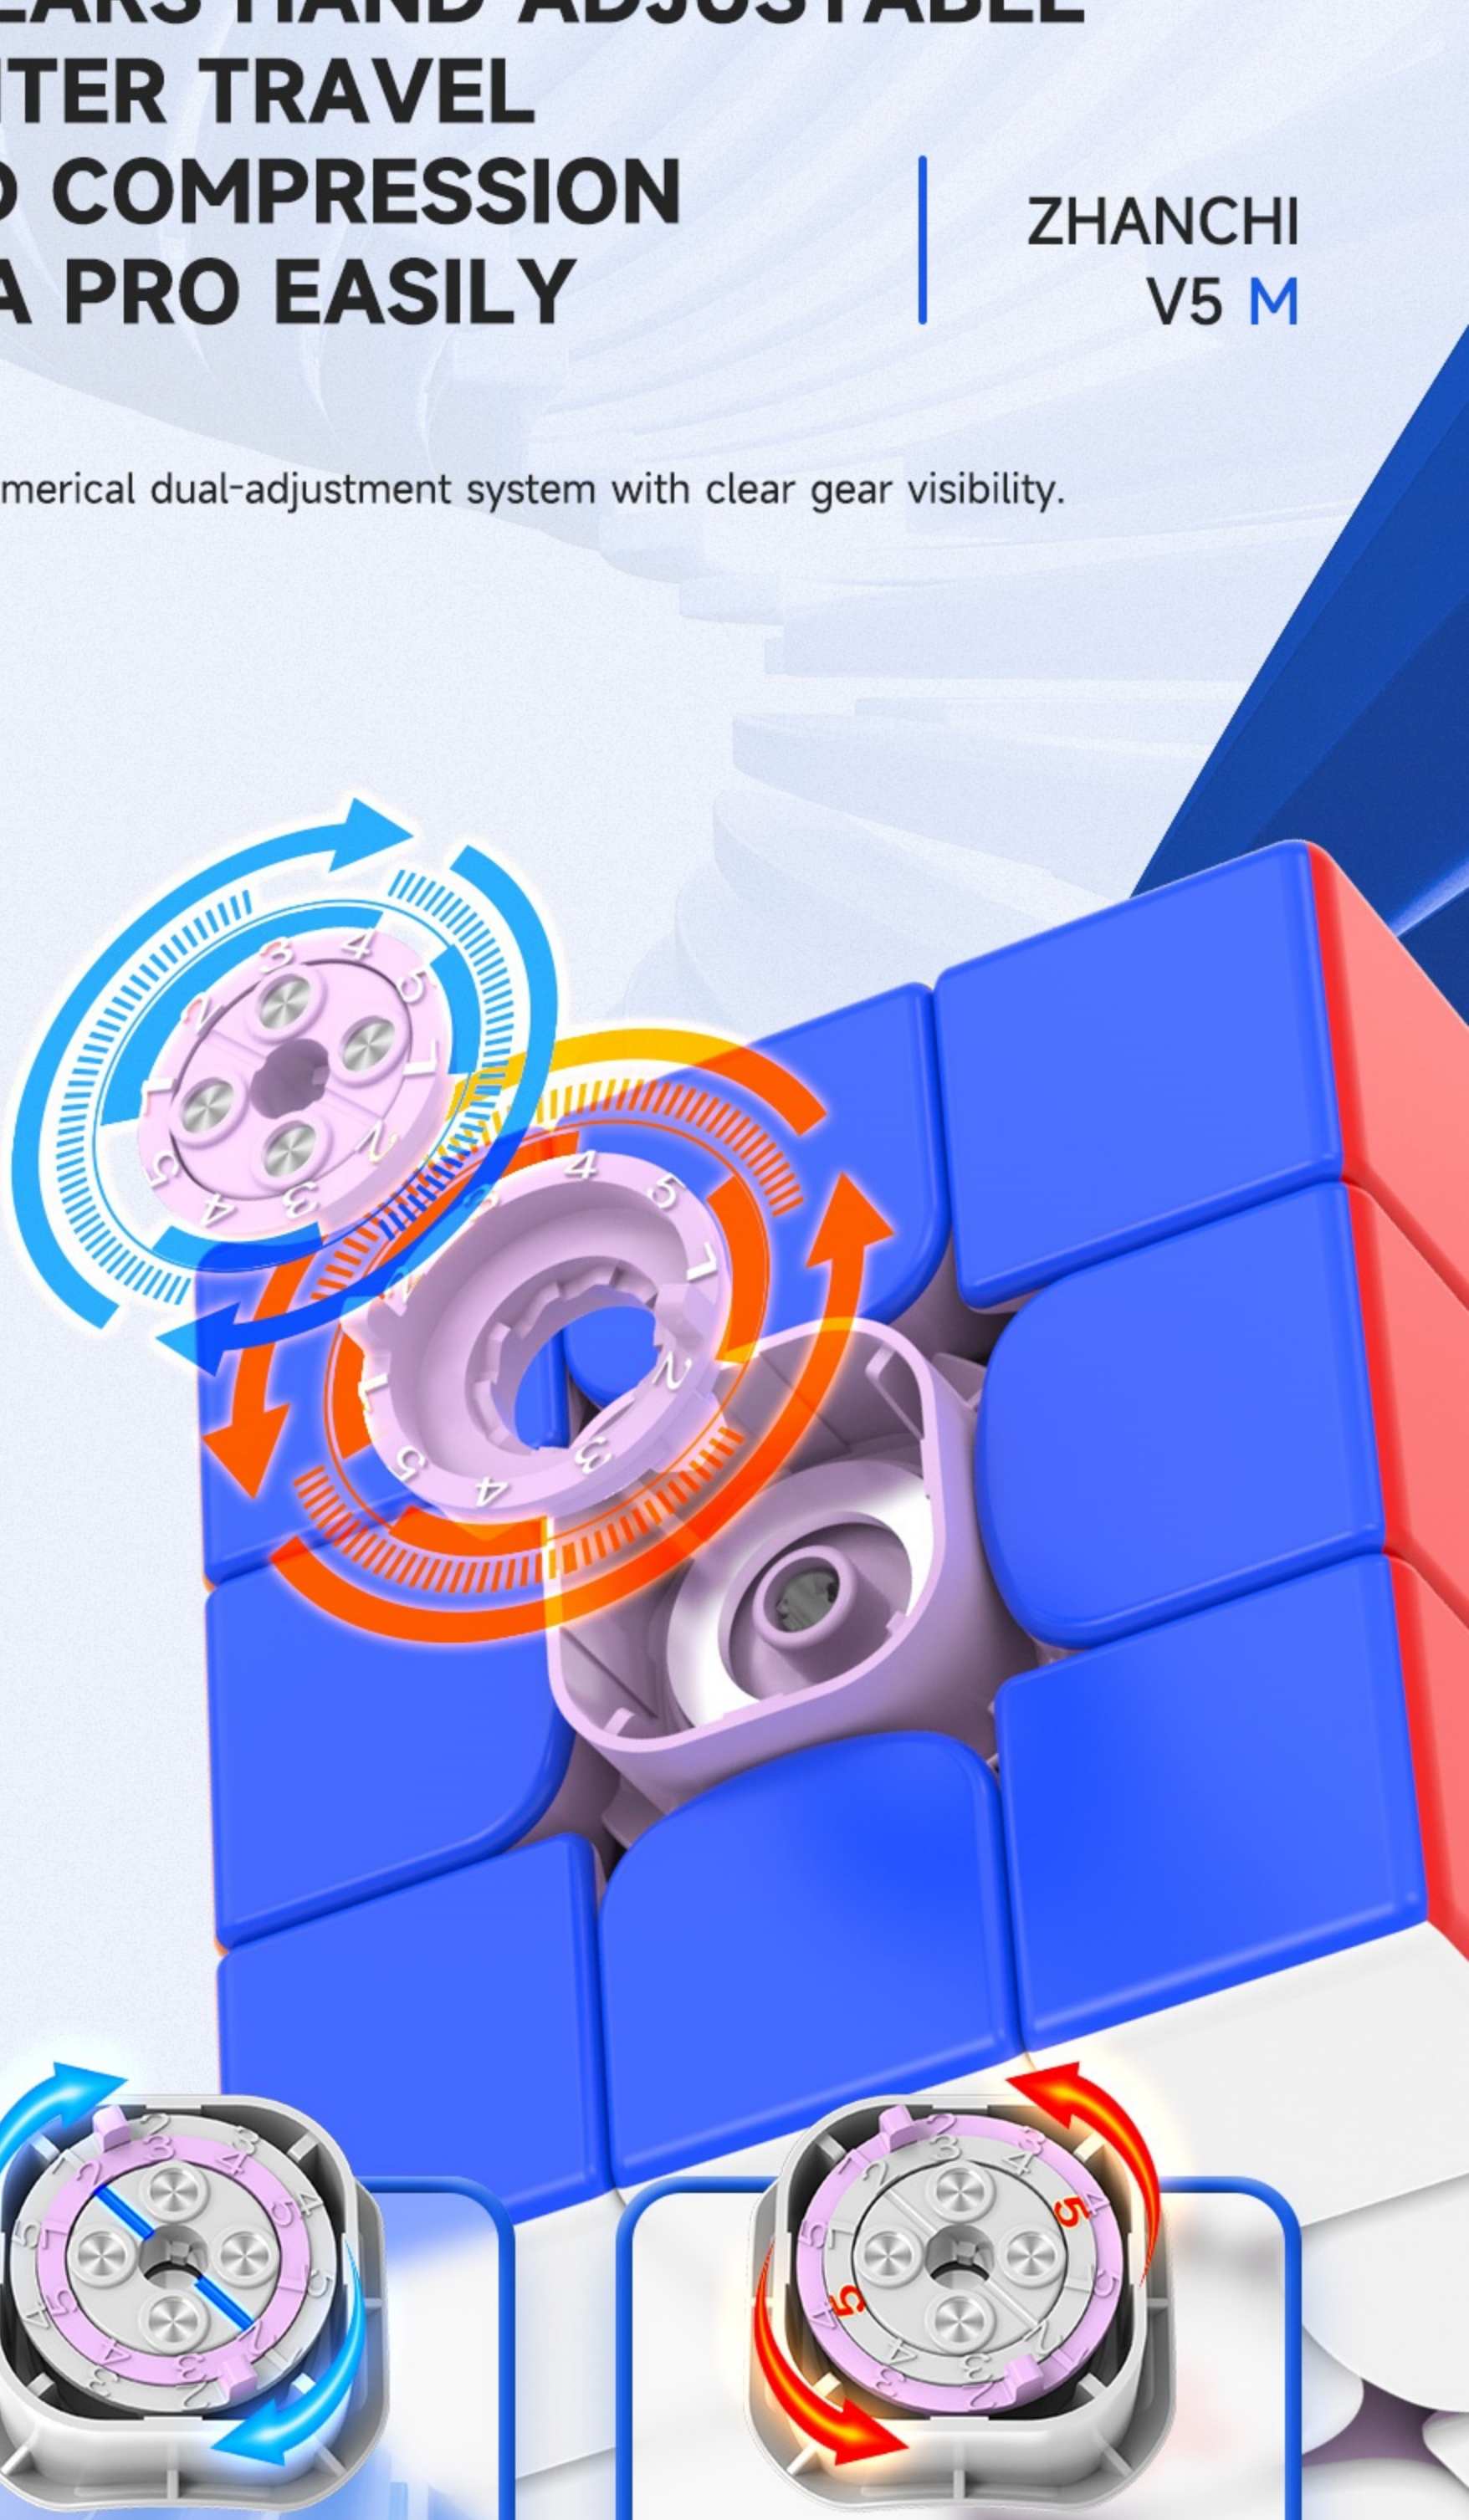

DaYan

5-GEARS HAND ADJUSTABLE CENTER TRAVEL AND COMPRESSION BE A PRO EASILY

ZHANCHI
V5 M

Visual numerical dual-adjustment system with clear gear visibility.

ADJUST CENTER TRAVEL INNER CIRCLE CW

The central slot indicates the center travel gear,
the larger the number,
the larger the center travel.

ADJUST TENSION OUTER CIRCLE CCW

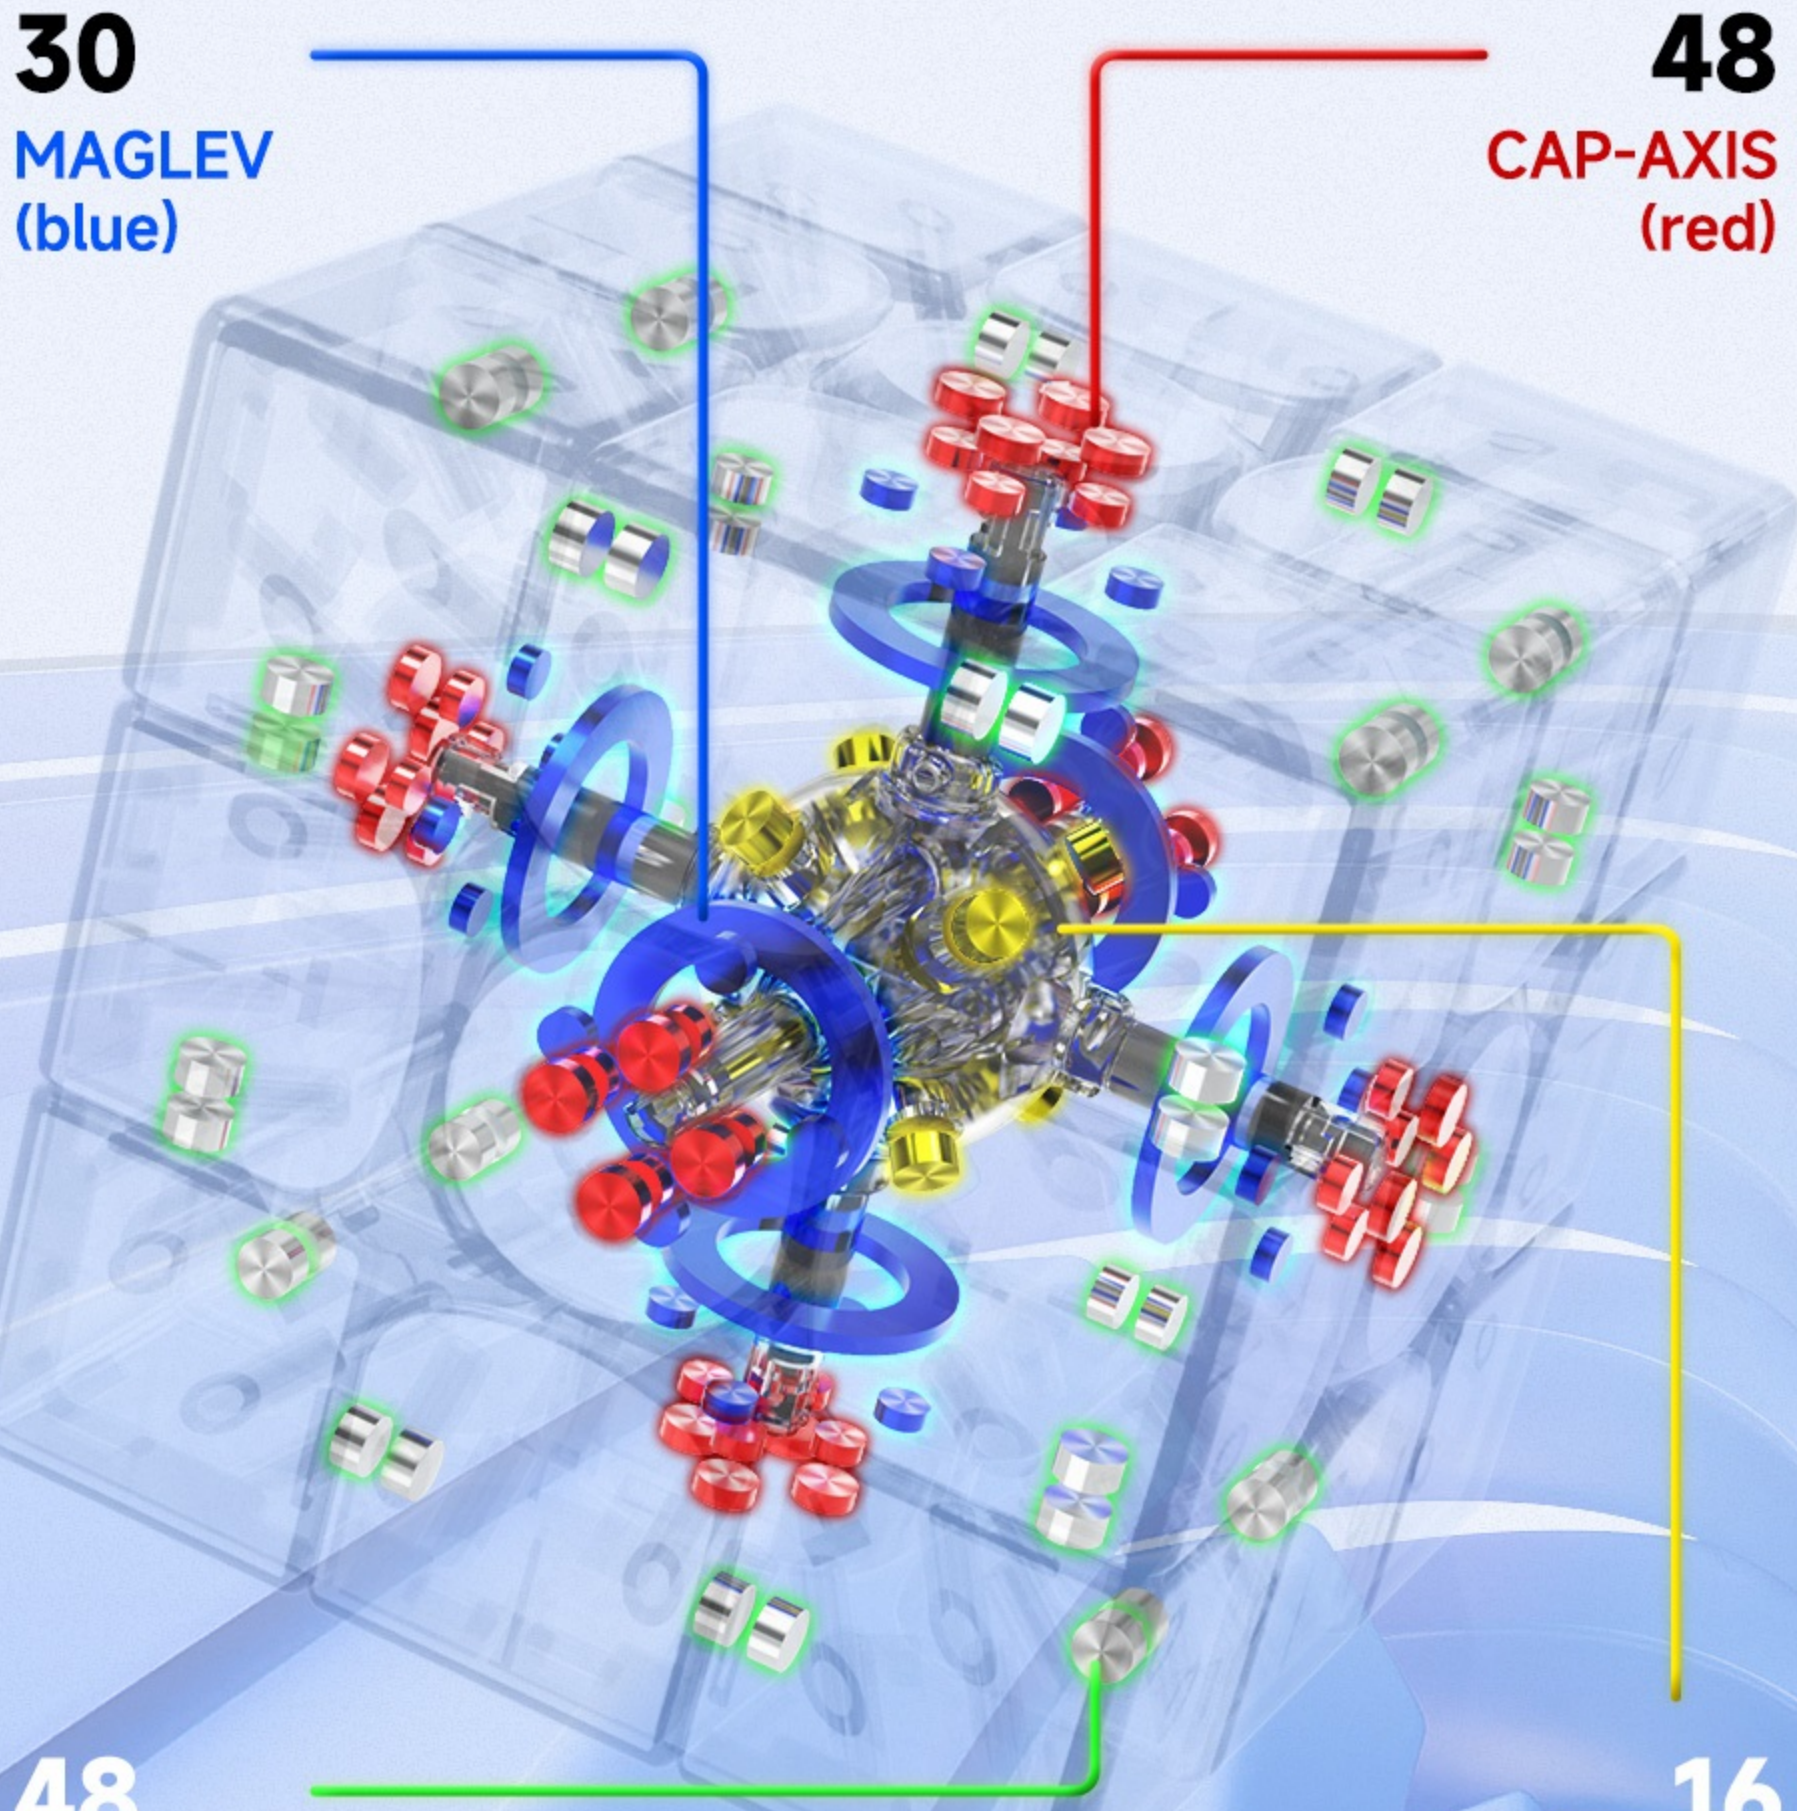

The number on the outer circle aligned with the inner ring number 5 is current tension gear,
the larger the number,
the stronger the tension.

DaYan

MAGNETIC EVERY PIECE, AIDING EVERY TURN

ZHANCHI
V5 M

Cap-core, maglev, edge corner, corner-core magnets,
142 magnets inside reasonably.
Micro-injection magnetic core, forms a subtle and comfortable feel.

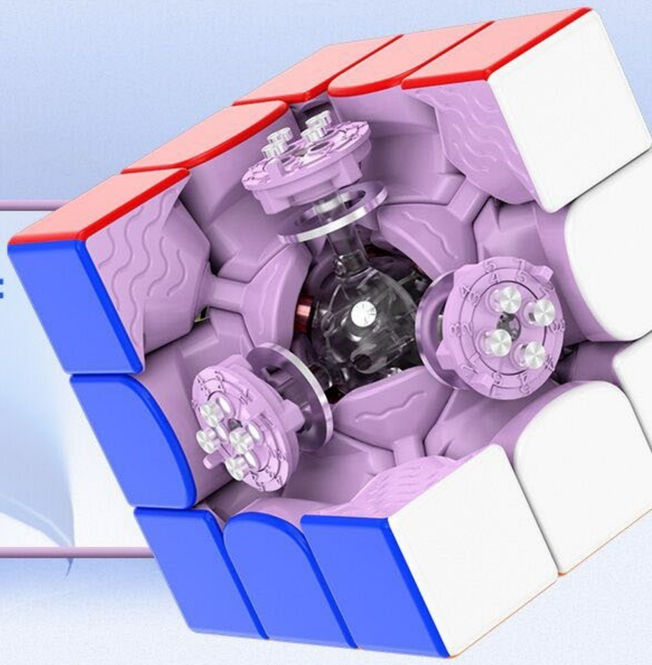

The above data is for the supreme version,
the magnetic system and the number of magnets
in the fancy and standard versions are different.

DaYan

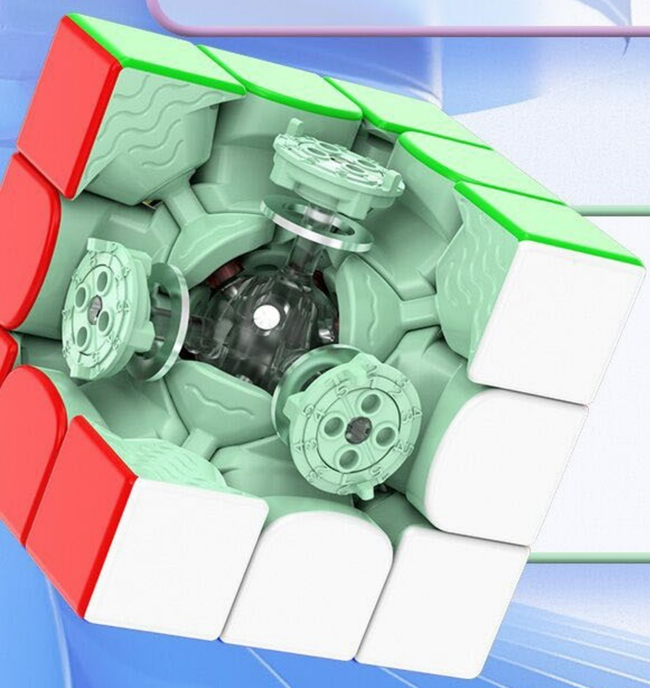

THREE VERSIONS, ALL UNIQUE

ZHANCHI
V5 M

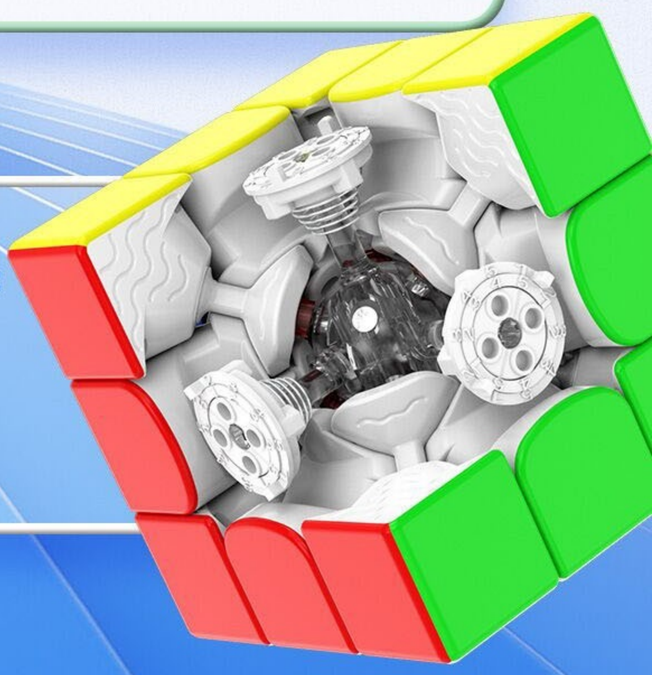

PREMIUM VERSION:

Lavender core,
cap-axis positioning,
maglev tension,
edge-corner and
corner-core positioning

FANCY VERSION:

Light aqua core,
edge-core repulsion,
maglev tension,
edge-corner and
corner-core positioning

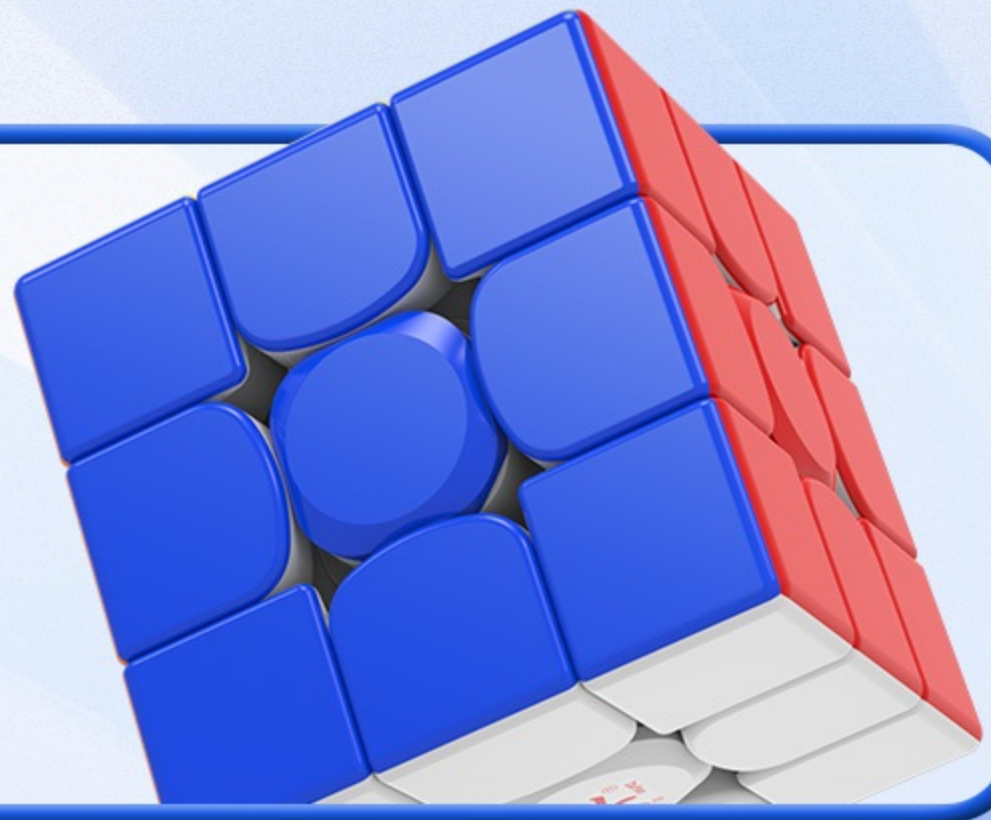

STANDARD VERSION:

White core,
conical spring,
edge-corner
and corner-core positioning

DaYan

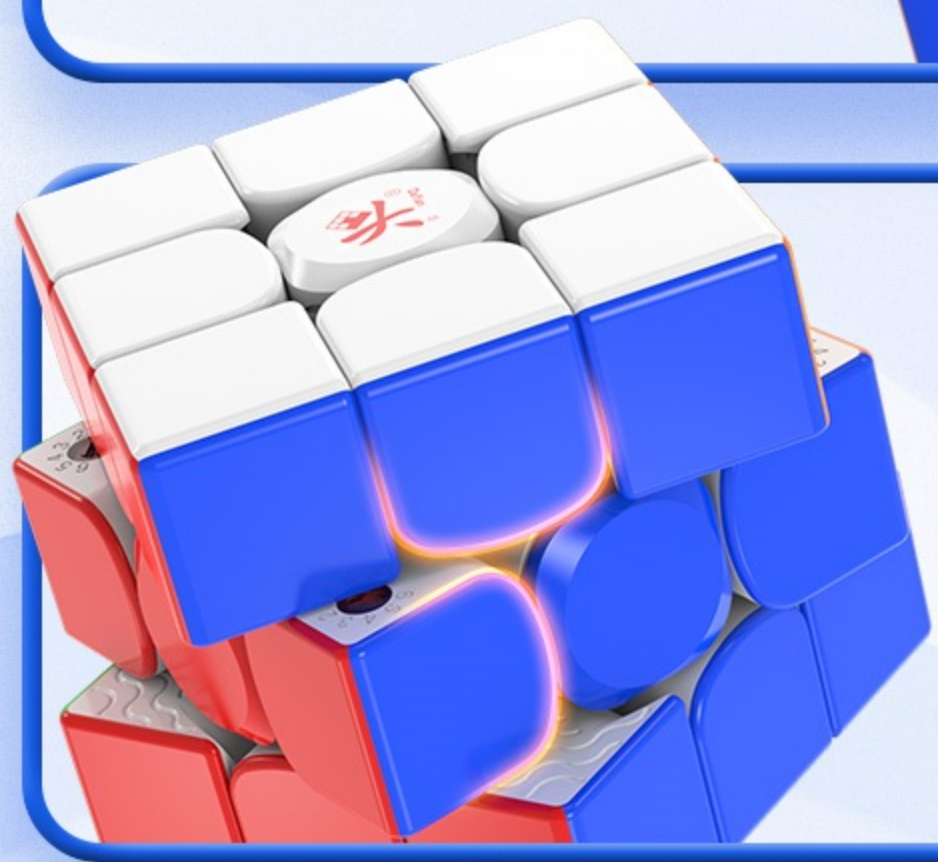

REMAIN SPEEDCUBE GENE, BOOST SPEEDSOLVING PB

ZHANCHI
V5 M

GLOSSY FINISH FOR SPEEDSOLVING

Excellent touch,
prevent slippery

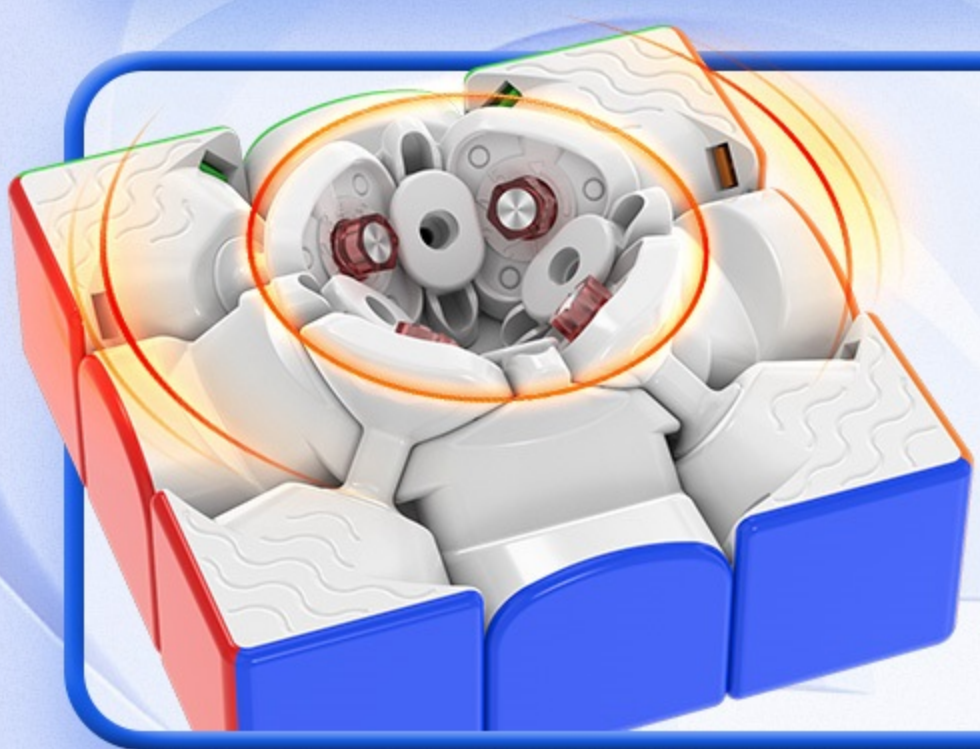

BIG CORNER-CUTTING, EASY AND FLUENT TURNING

55° regular +35° reverse
corner-cutting,
improve fluency significantly.

WAVE ANTI-STICK GROOVE

Long-lasting lubrication,
stable turning feeling.

DUAL INNER CIRCLE, SMOOTH AND STABLE

Maintain the Zhanchi series
feature, with tracks
on center and edge pieces,
tightly interlocked,
fearless of pop out.
