Black Flagship Version

Being Mainstream, and a Timeless Legend

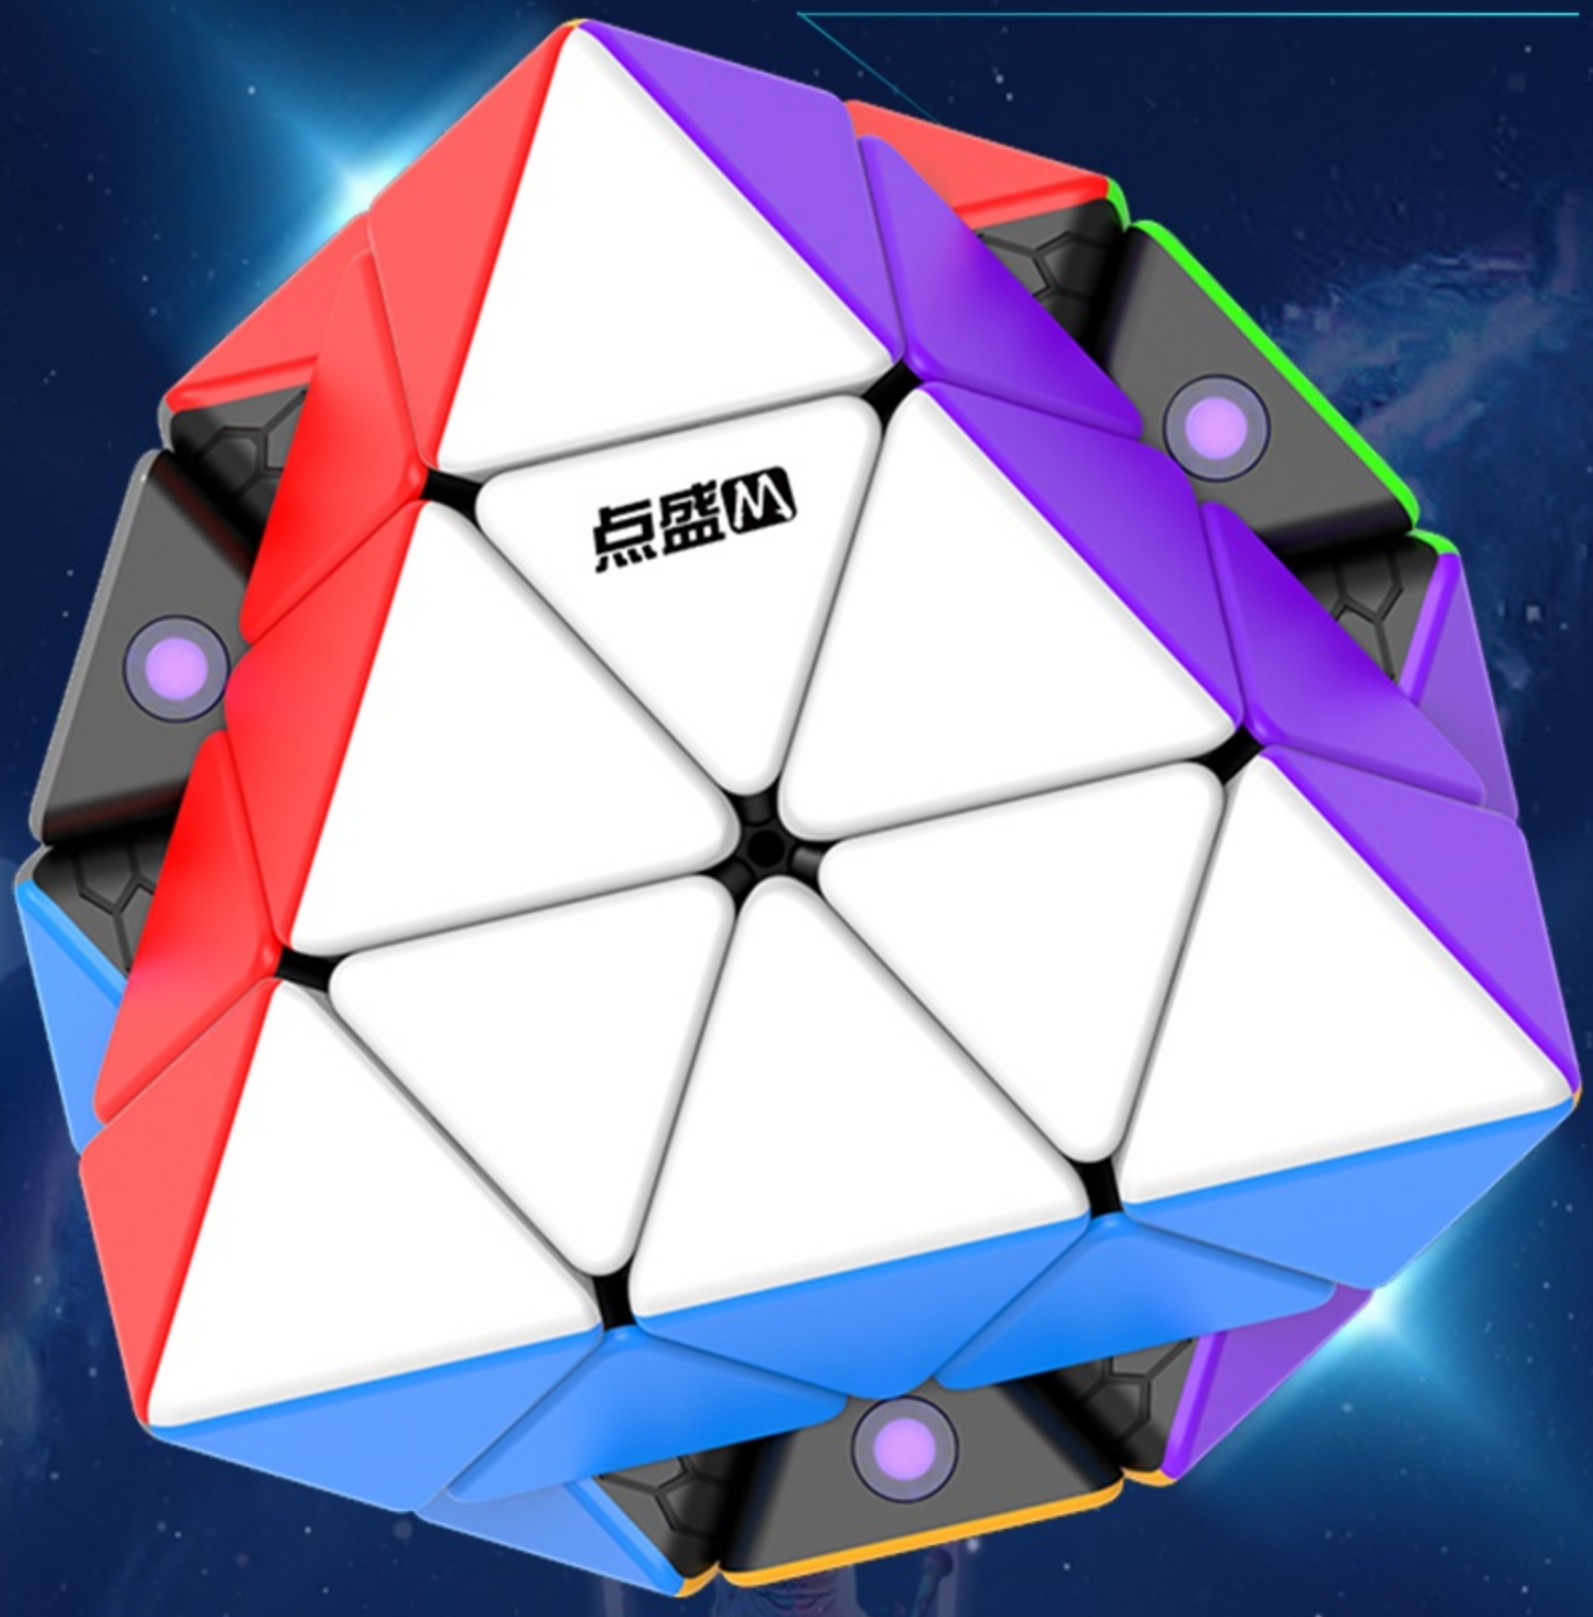

Classic black, continuing mainstream design style. Both a tradition and innovation. Upgraded detailed polishing for enhanced texture, giving the whole puzzle a beautifully crafted appearance and exceptional strength.

FACE TURNING OCTAHEDRON (FTO)

DISCOVER NEW FUN

Unconventional Appeal, Hard to Put Down

6 Key Advantages *Suitable for Speed Cubing*

- Magnetic Positioning Design
- Rounded Corner Optimized Design
- Lubrication Groove Upgrade Design
- 87.8g Light and Refreshing Feel
- Tile Structure Design
- Bright Color Design

// FTO

Comfortable Grip Size Design
Free up Your Hands

The size of the puzzle was precisely designed to ensure an excellent grip. Enjoy turning, enjoy playing.

// FTO

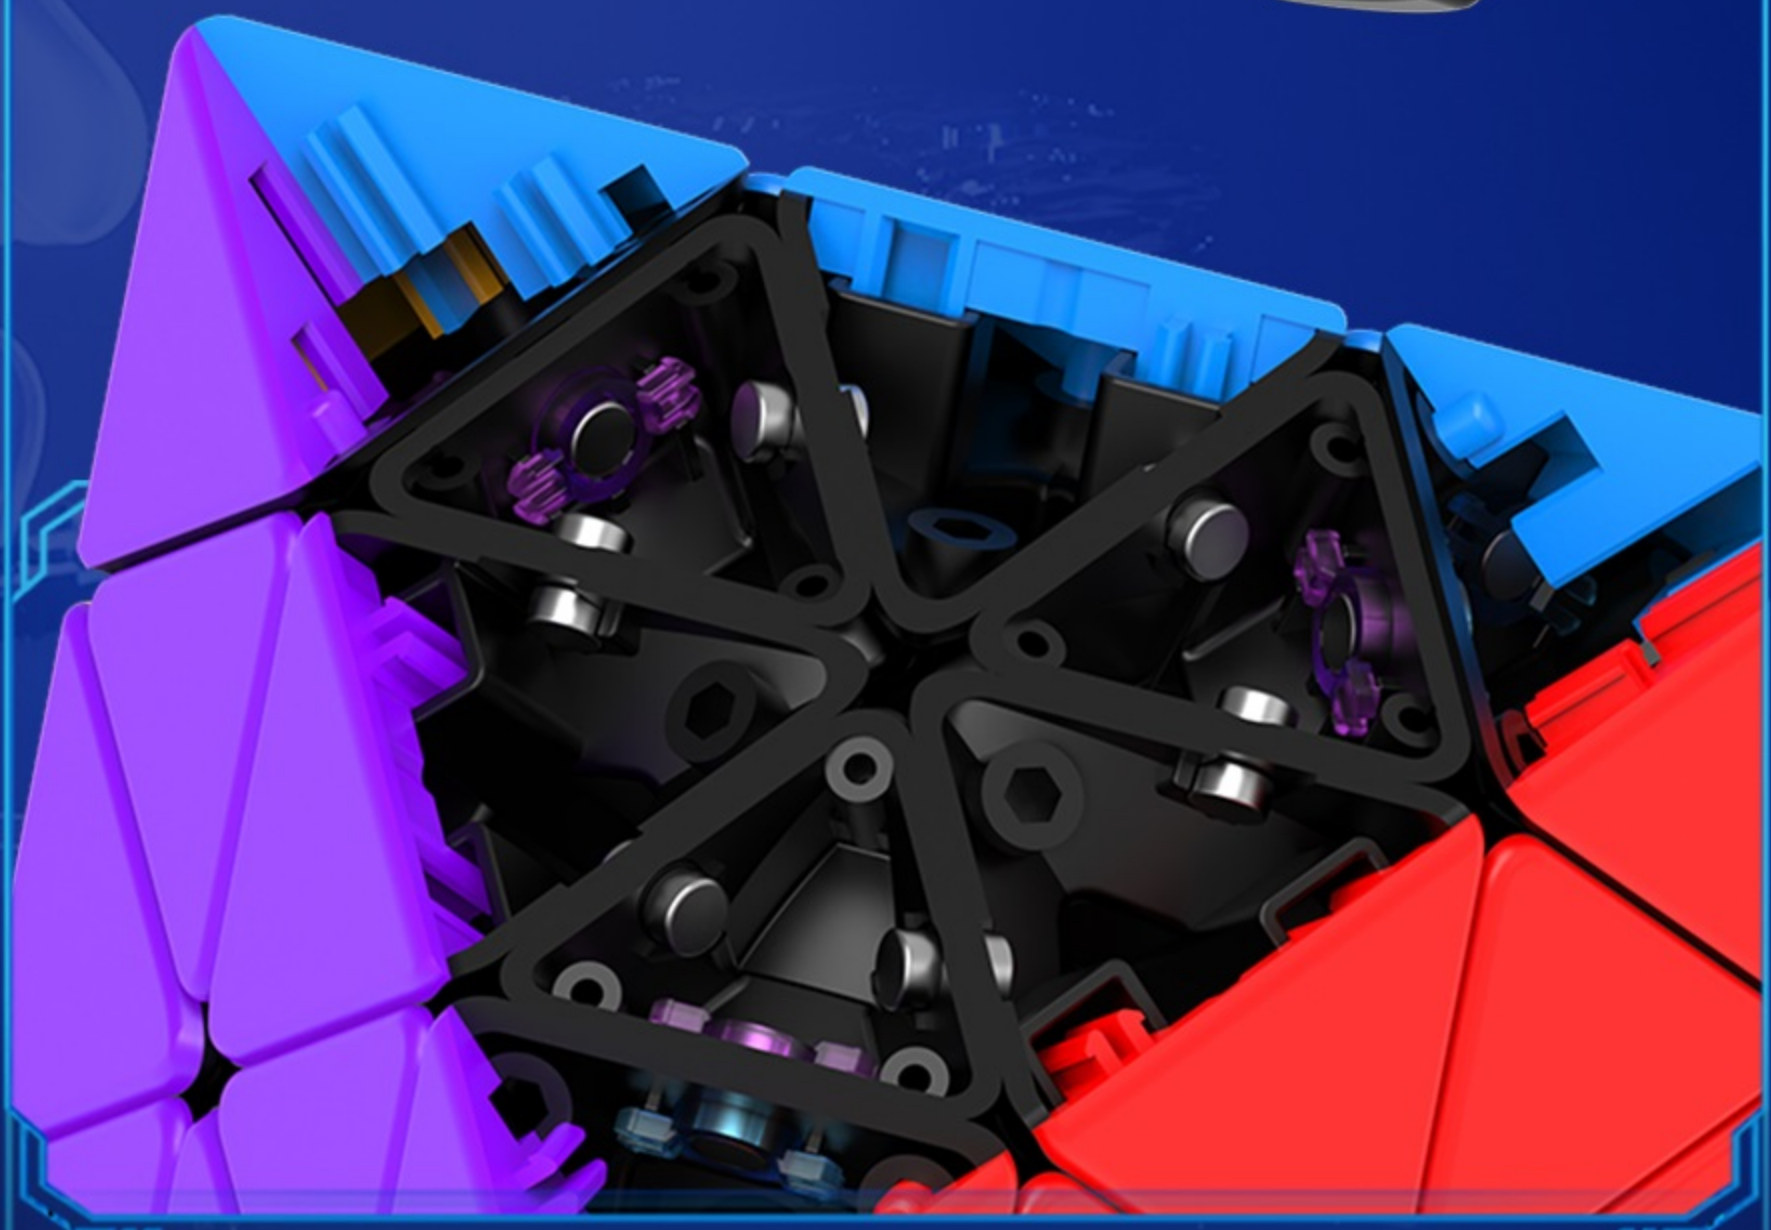

Strong Magnets, New Frontier

Magnetic Chamber Design for Better Positioning Feel

Multiple magnetic positioning for more precision,

with enhanced positioning feel

The magnetic chamber design gives a tangible fell of magnetic positioning, to ensure clear positioning feel!

Upgraded high positioning feel with less resistance, stable and strong.

// FTO

Tortoiseshell Lubrication Groove Design

One Lubrication, Long-Lasting Smoothness

Following the tortoiseshell structure to create more lubrication routes within limited space. Lubrication area upgraded, smooth and lasting upgraded. Dual enhancement for stronger performance.

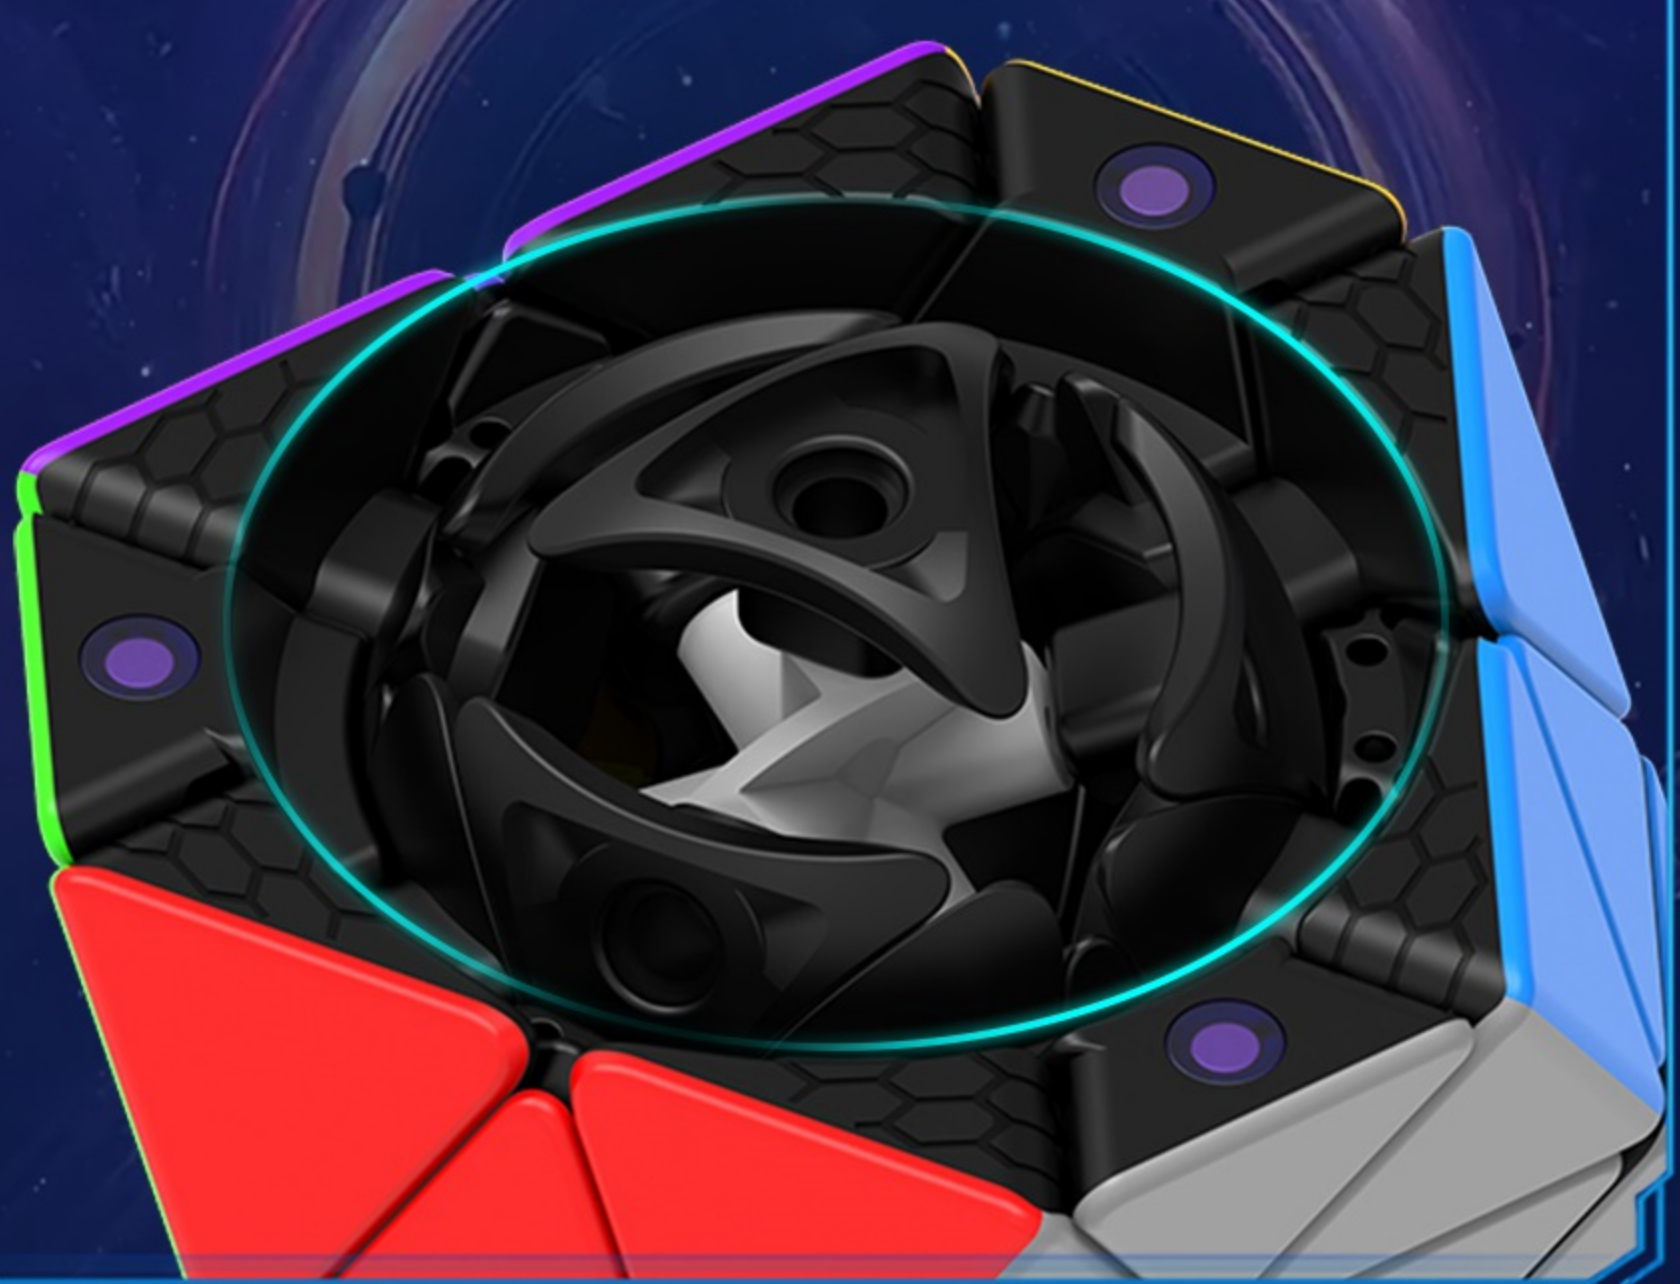

// FTO

Inner Circle Structure Optimization

Stable Grip, Winning with Stability

Using an inner circle structure for smoother overall turning. Finely adjusted inner circle structure optimization upgrade, eliminating lockups, making turnings more efficient and smoother.

// FTO

Tile Structure Design

Simple Yet Extraordinary, Big Attention to Small Details

Seamless Fit, Strengthened Design

Using a tile structure design for a seamless, more durable fit. Flexible assembly and removal, not easy to fall off.

Drop-resistant and Durable

Reinforced joints with high strength,

small details,

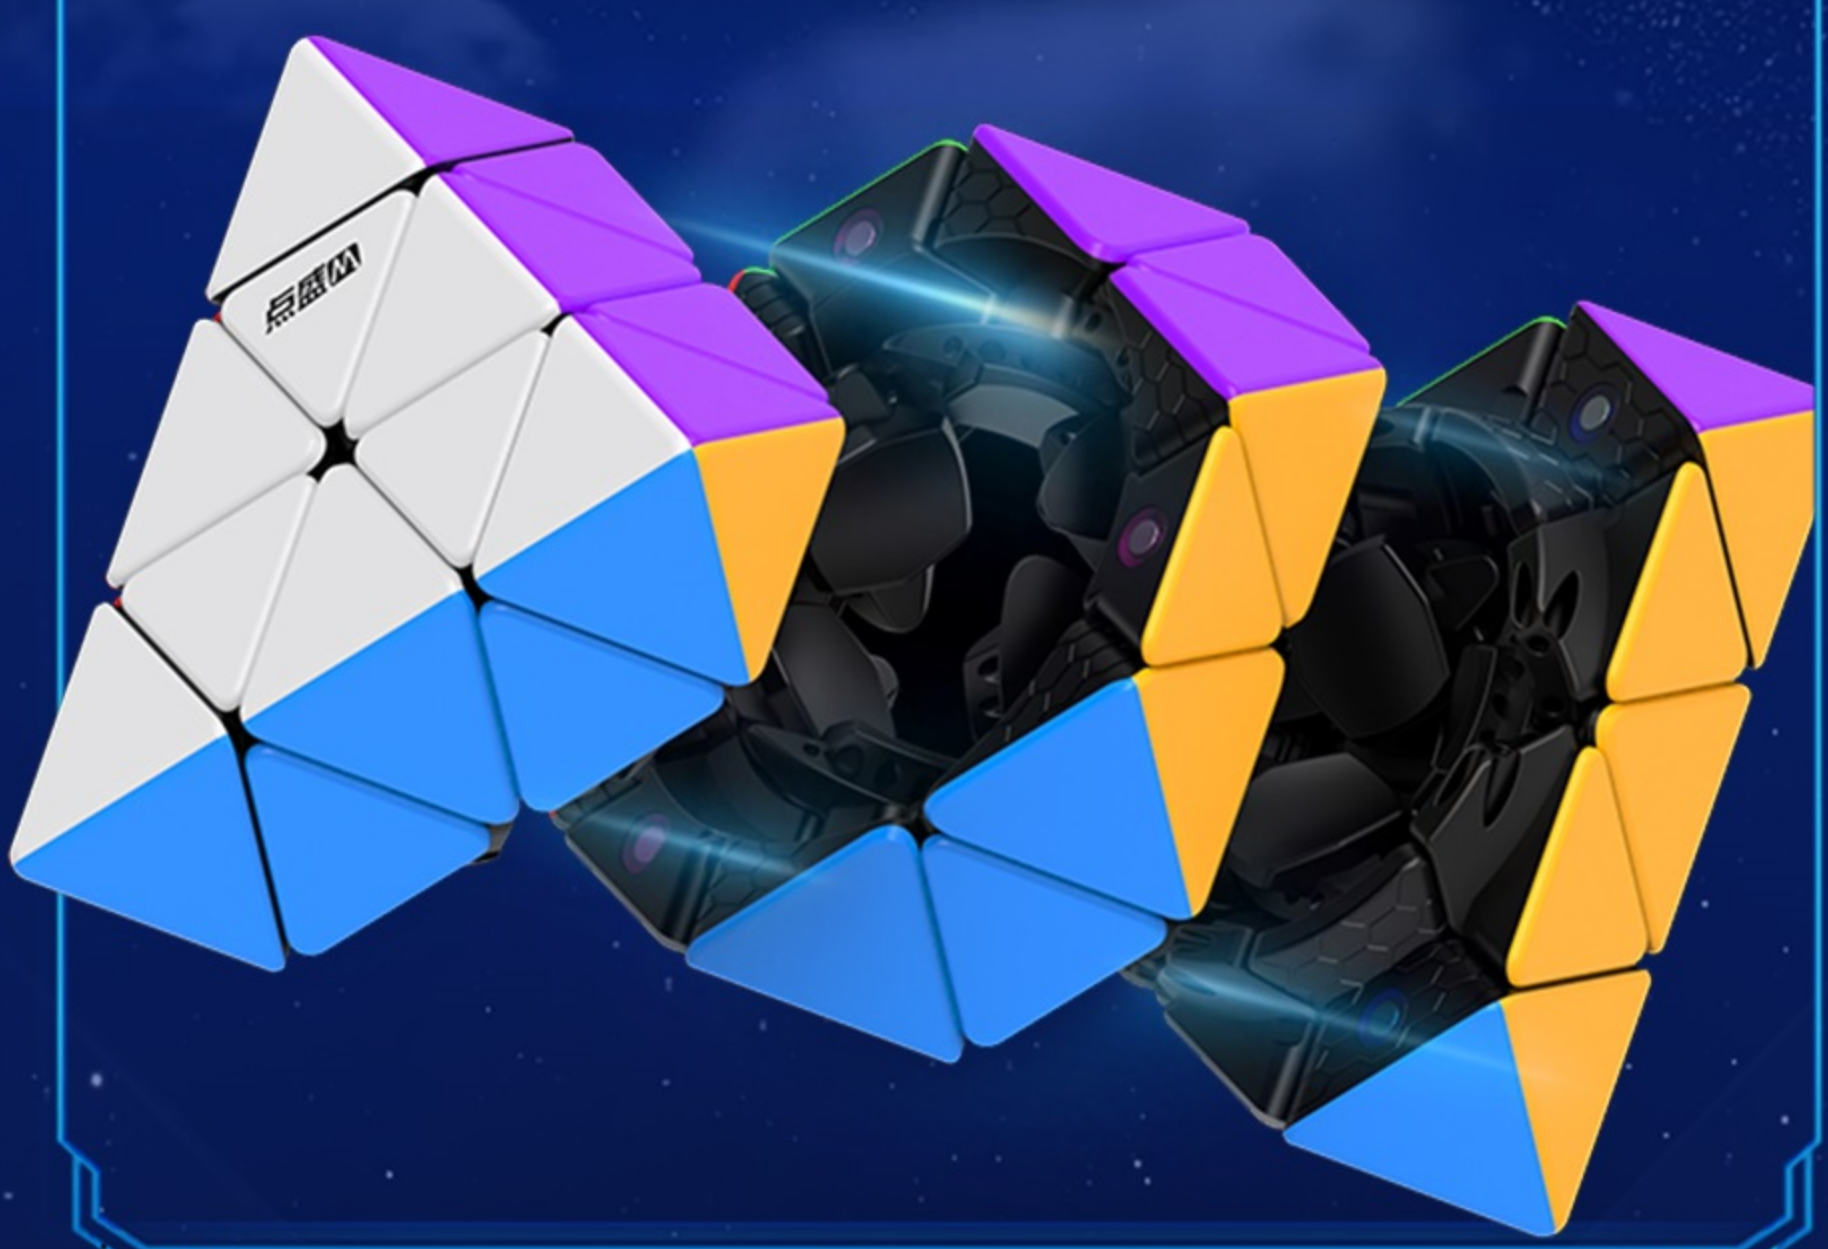

big importance.

// FTO

Reasonable Structural Design

Layer by Layer Optimization, Thoughtful Attention to Every Detail

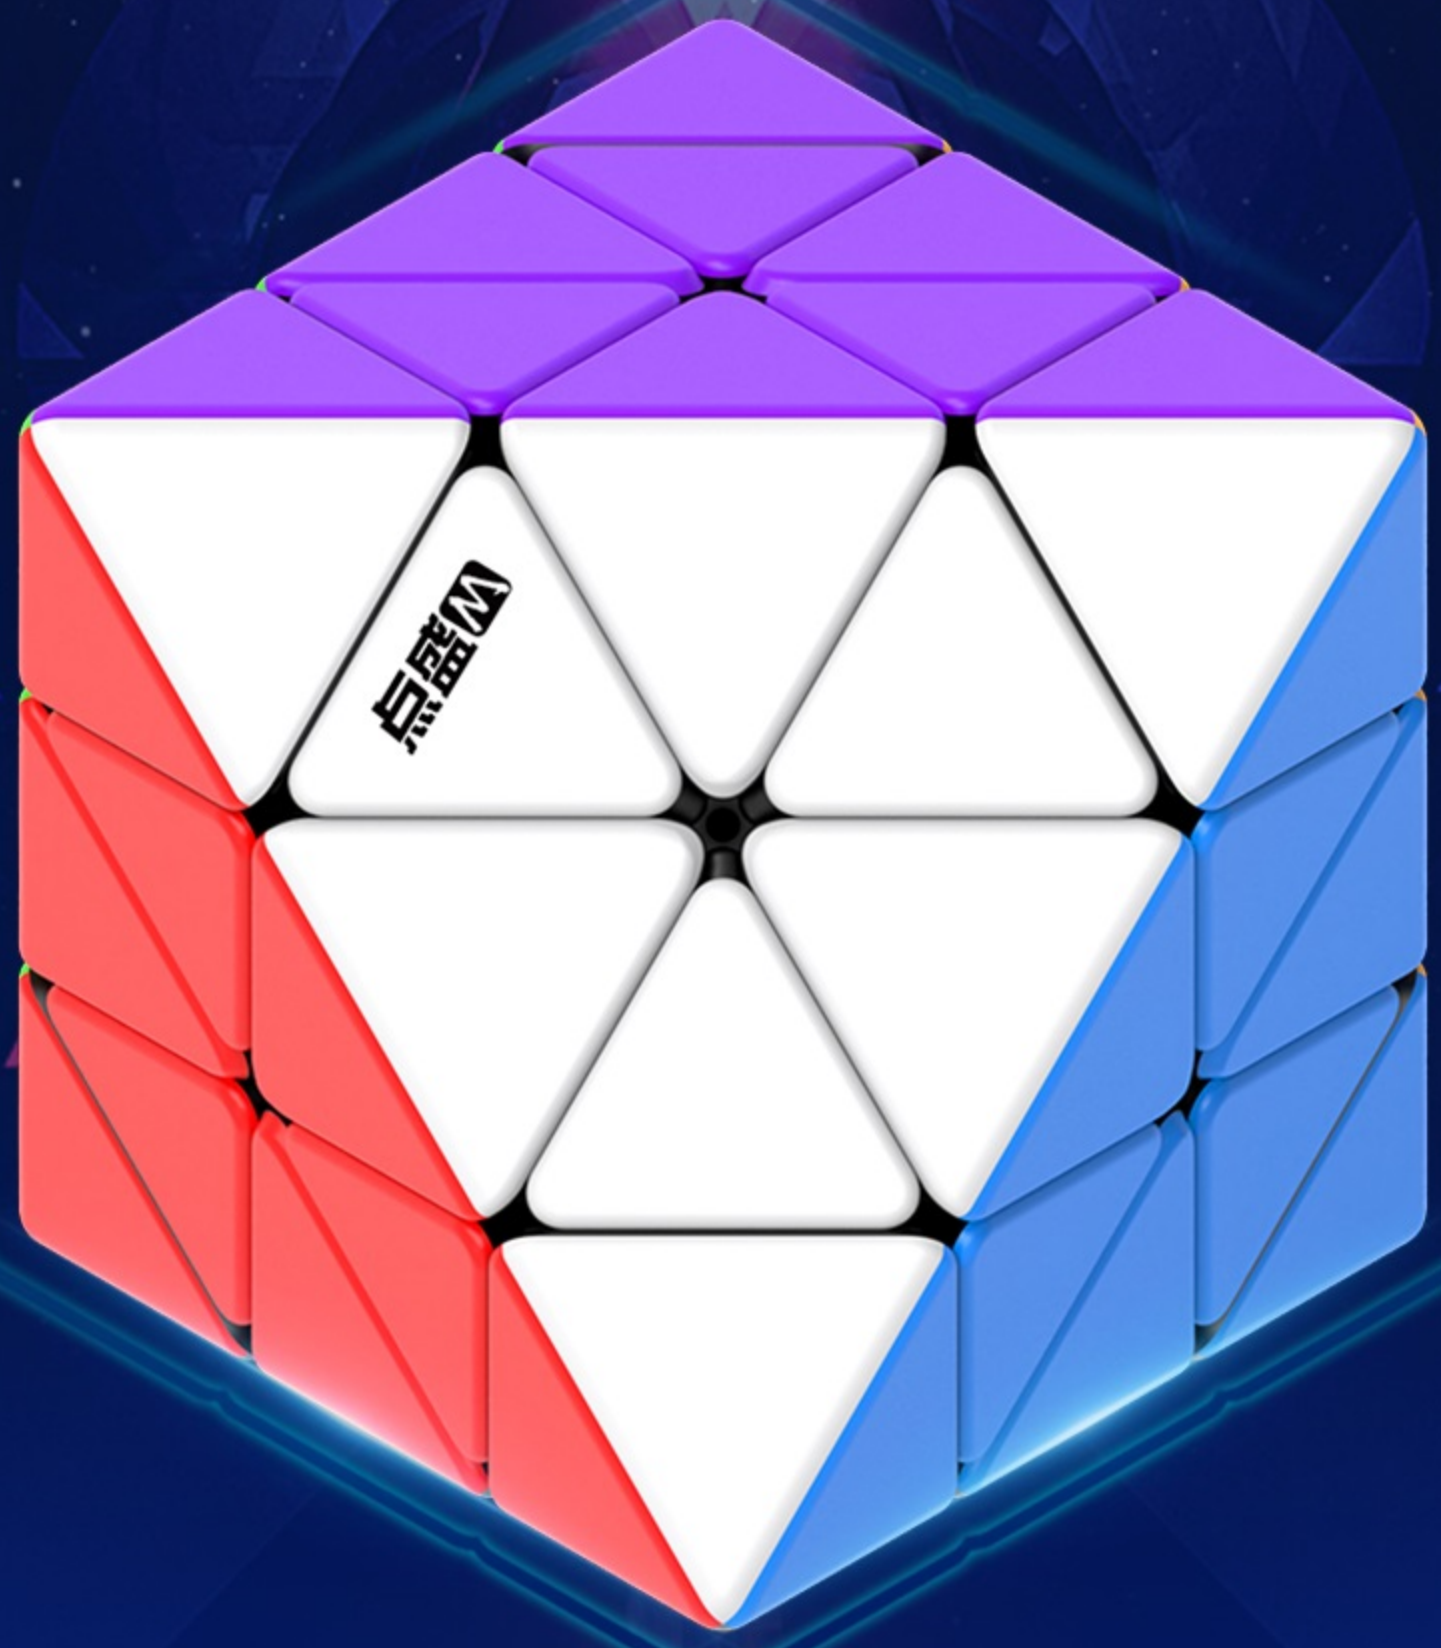

All-round meticulous polishing design, creating a new structural design concept that is drop-resistant and durable. Smooth and stable feedback. Easy disassembly and fast speed.

// FTO

Bright Color Design

Not Just High Appearance, More Suitable for Speed Cubing

Beautiful and cool, using bright color design. High-gloss finish, anti-slip, easy for speed cubing. Resistant to fingerprints, looks as new even after long use.
