
GAN11 M Pro
Pro GANsCore

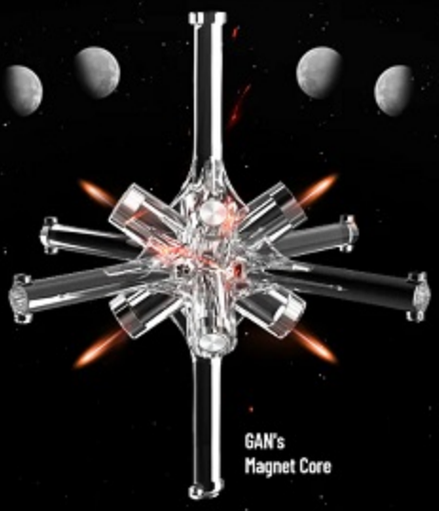

GAN11 M Pro 2020 NEW

Pro to the Core

PRO TO THE CORE

Featuring Core Magnet System Innovation

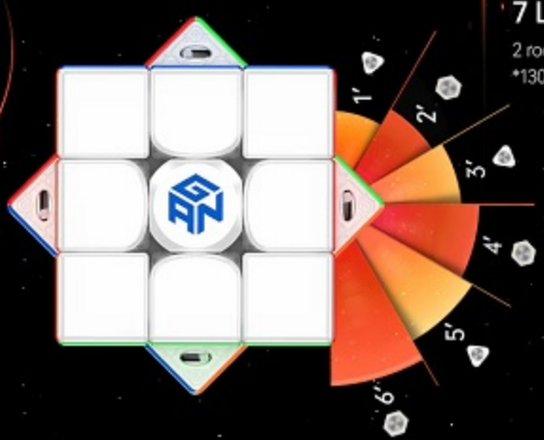

Speed Up!*

Charging Magnet Strength

Finish setup in 8 steps

*70% increase compared to GAN356 X S

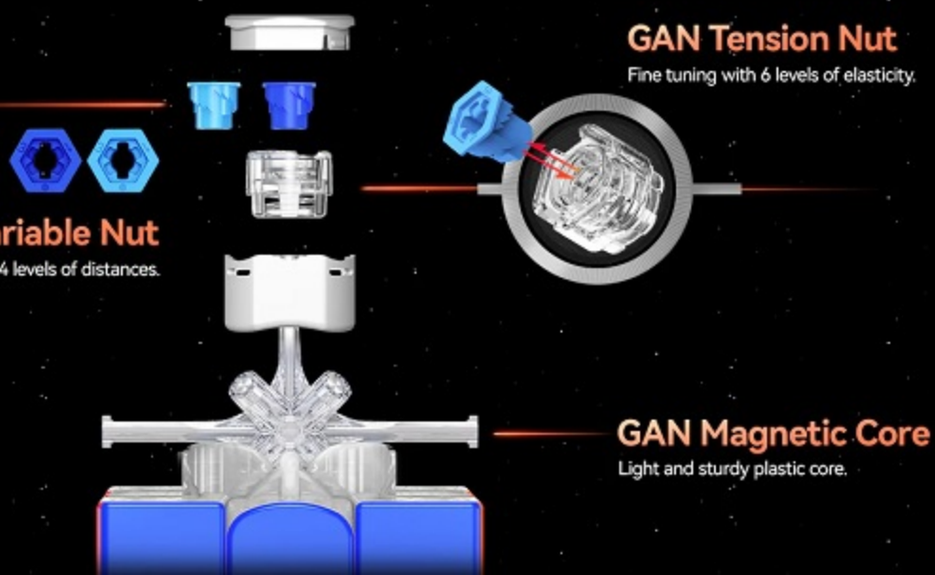

Level Up!*

7 Levels Magnetic Feels

2 rods x 3 levels + no magnet

*130% increase compared to GAN356 X S

GES Pro

Numerical Variable Nut

Numerical tuning with 4 levels of distances.

GAN Tension Nut

Fine tuning with 6 levels of elasticity.

GAN Magnetic Core

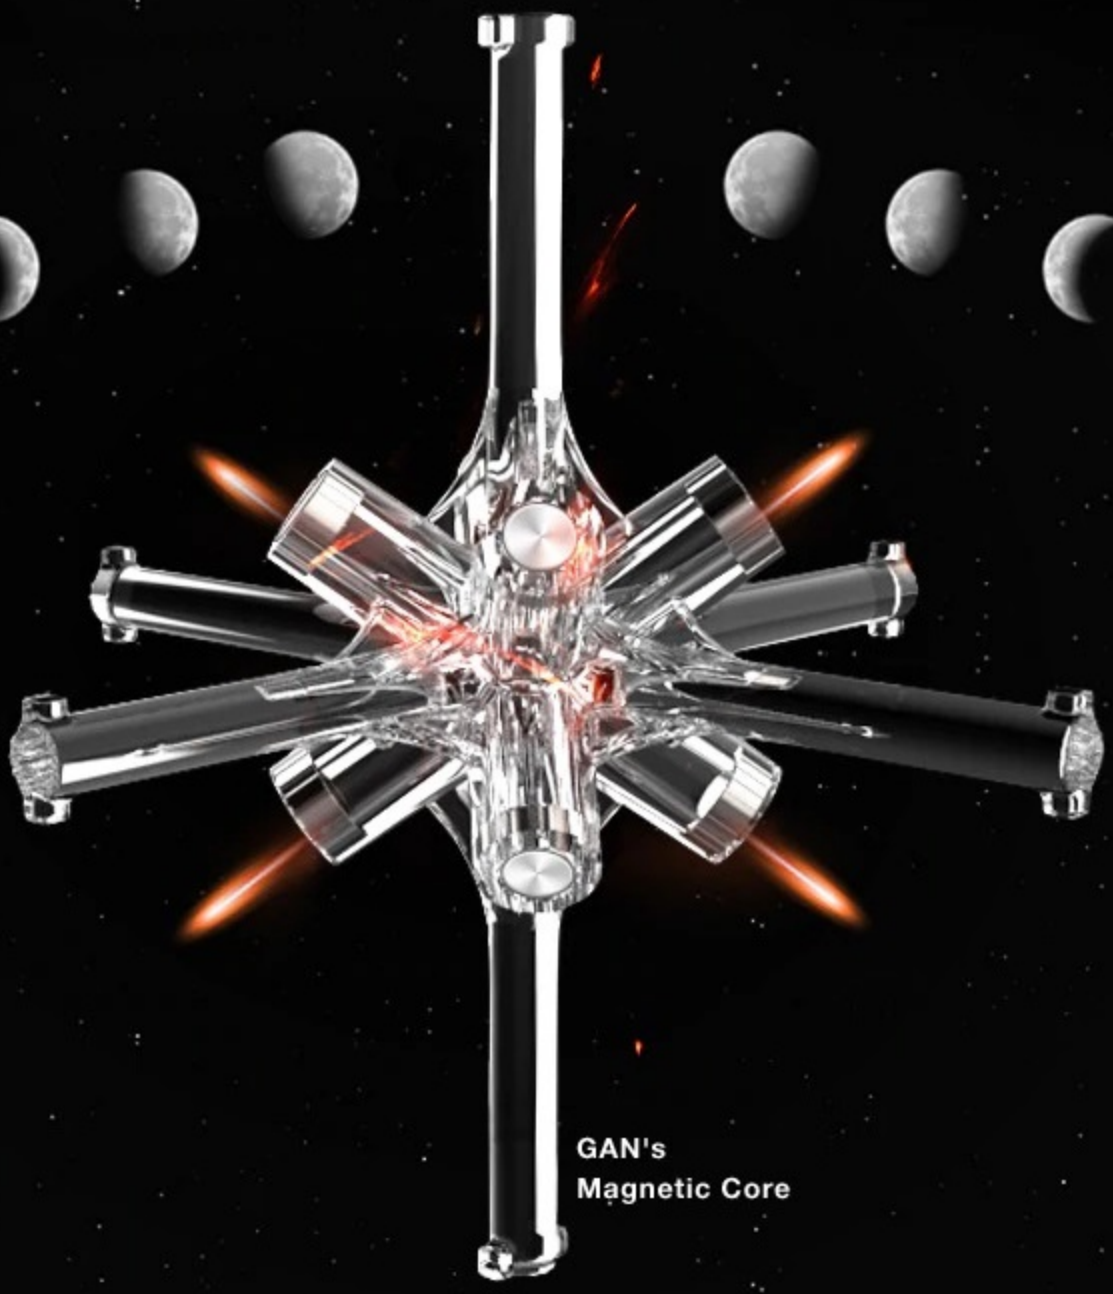

Light and sturdy plastic core.

Pro Core Positioning

The core is the kernel,
The kernel to being a Pro

GANsCore for GAN11M Pro

——The Next Level of Magnetic Core.

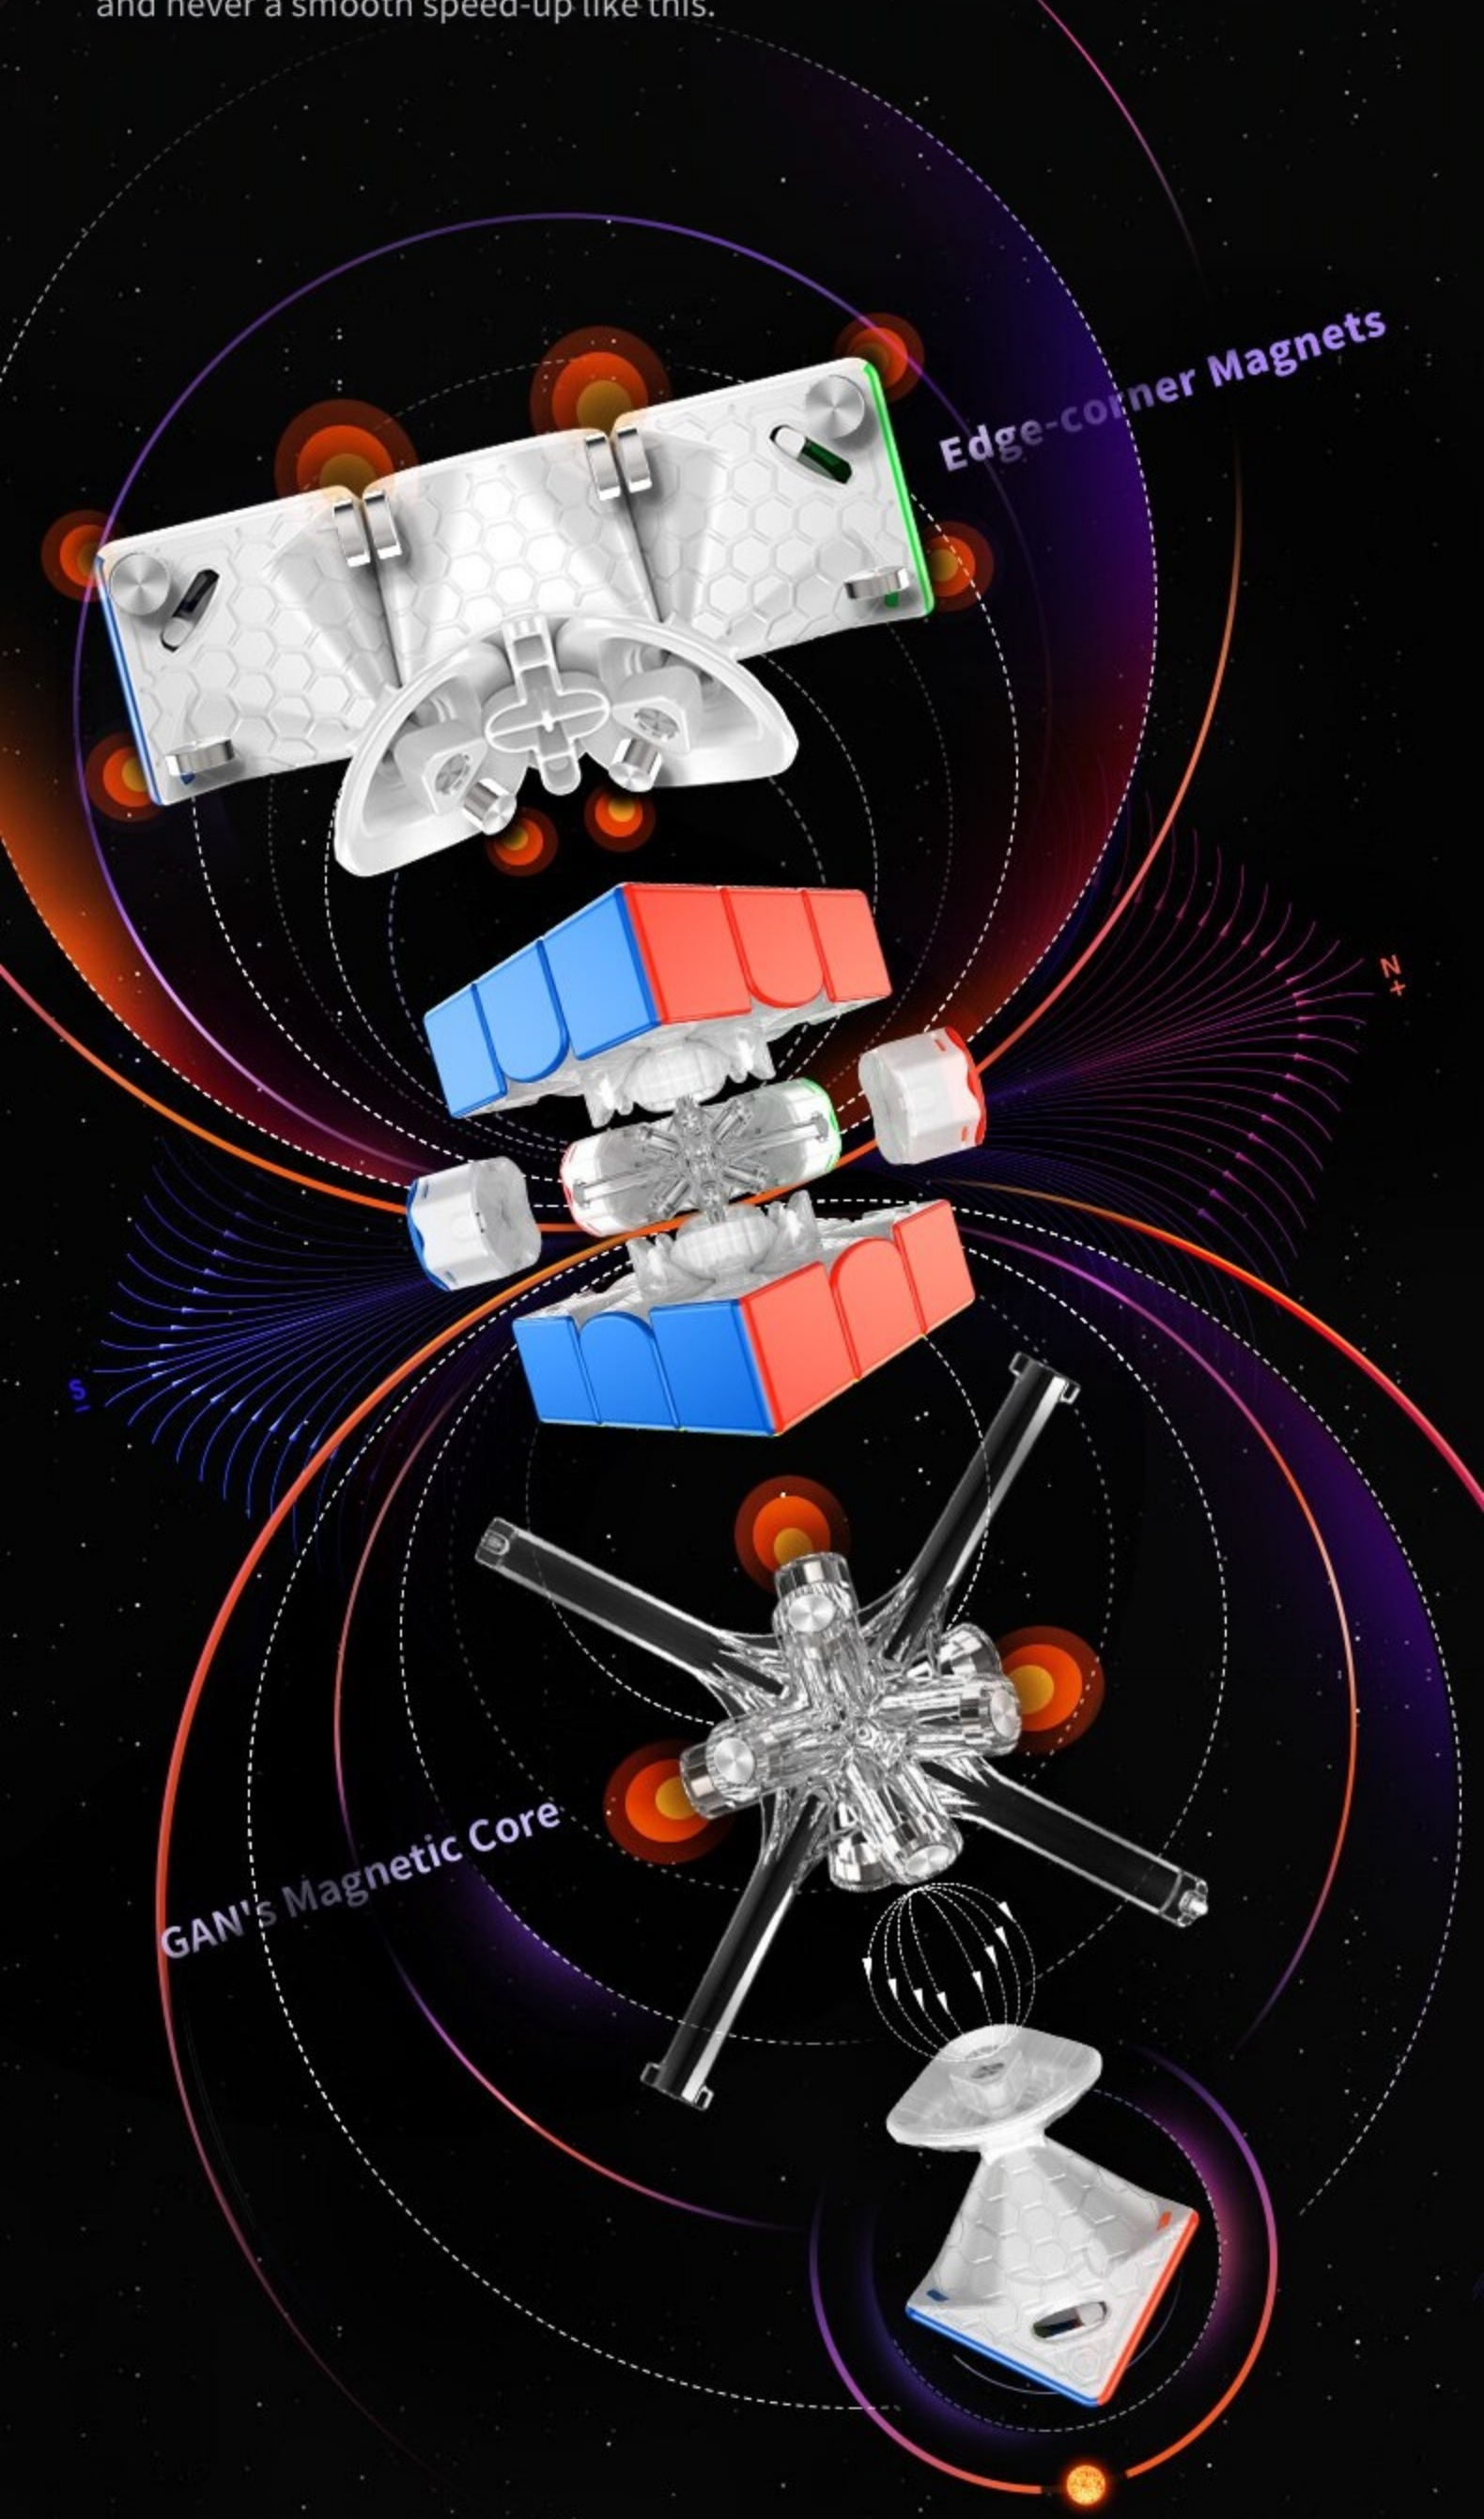

GAN's
Magnetic Core

Magnetic Core

Creative Concept for Enhanced Core Positioning.

64 magnets to form this Professional core positioning system.
Low starting resistance, great consistency in magnet strength
and never a smooth speed-up like this.

GANsCore for GAN11M Pro

Better Than Ever.

Being capable of stabilizing the structure, tuning the tightness, and changing the magnet strength, the dominating performance of this core has declared a full transcendence over normal 3x3 cubes.

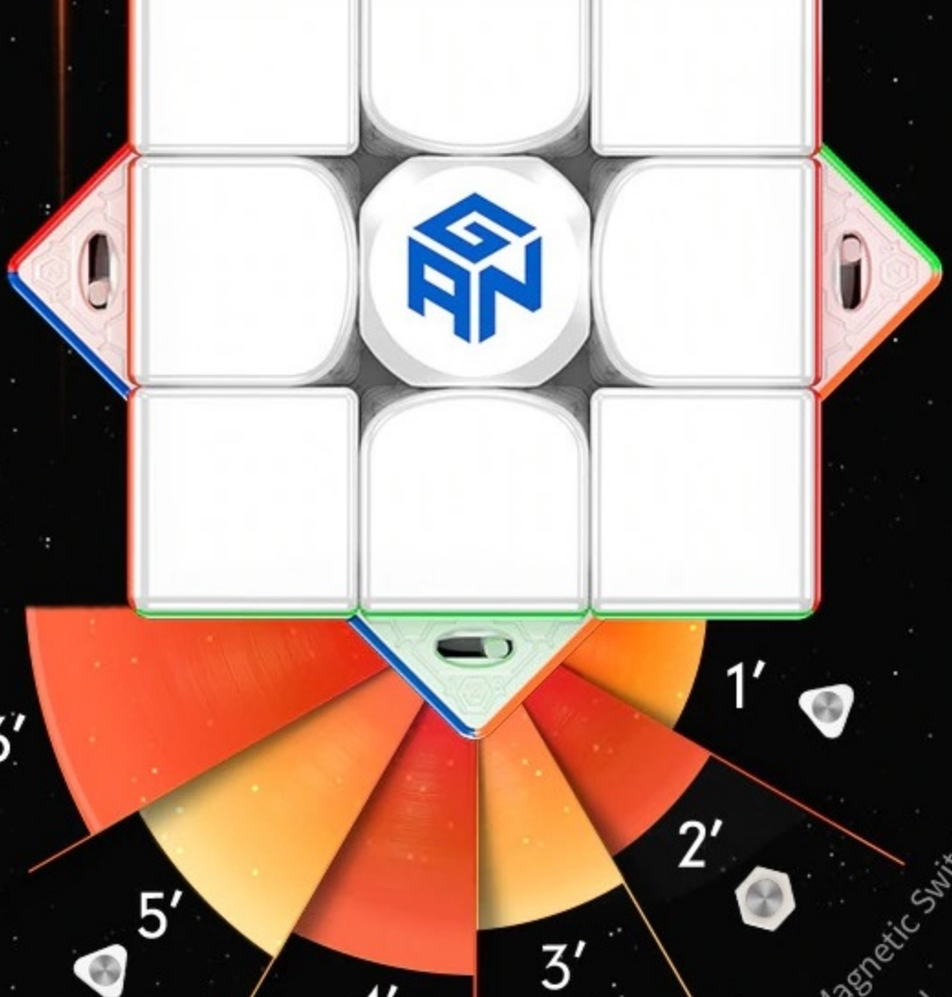

GMS v3

7 Positions for Magnet Strength, 8 Steps for Tuning Magnet Strength.

Accelerating 70%
Magnet Strength Tuning

Magnetism tuning is saved from 24 steps to 8 steps in GAN11M Pro.

Professionally Light

GAN11M Pro achieves incredible 63 grams by GAN’ s unswerving effort through generations.
A try on GAN11M Pro, never want to get back to heavy cubes ever.

GAN11M Pro achieves incredible 63 grams
by GAN’s unswerving effort through generations.

63g

GAN356 X S

80g

2018
GAN356 X

Everyone can be the magical tuner with the standardize and numerical tuning provided by GES Pro.

GES Pro Makes Professional Tuning.

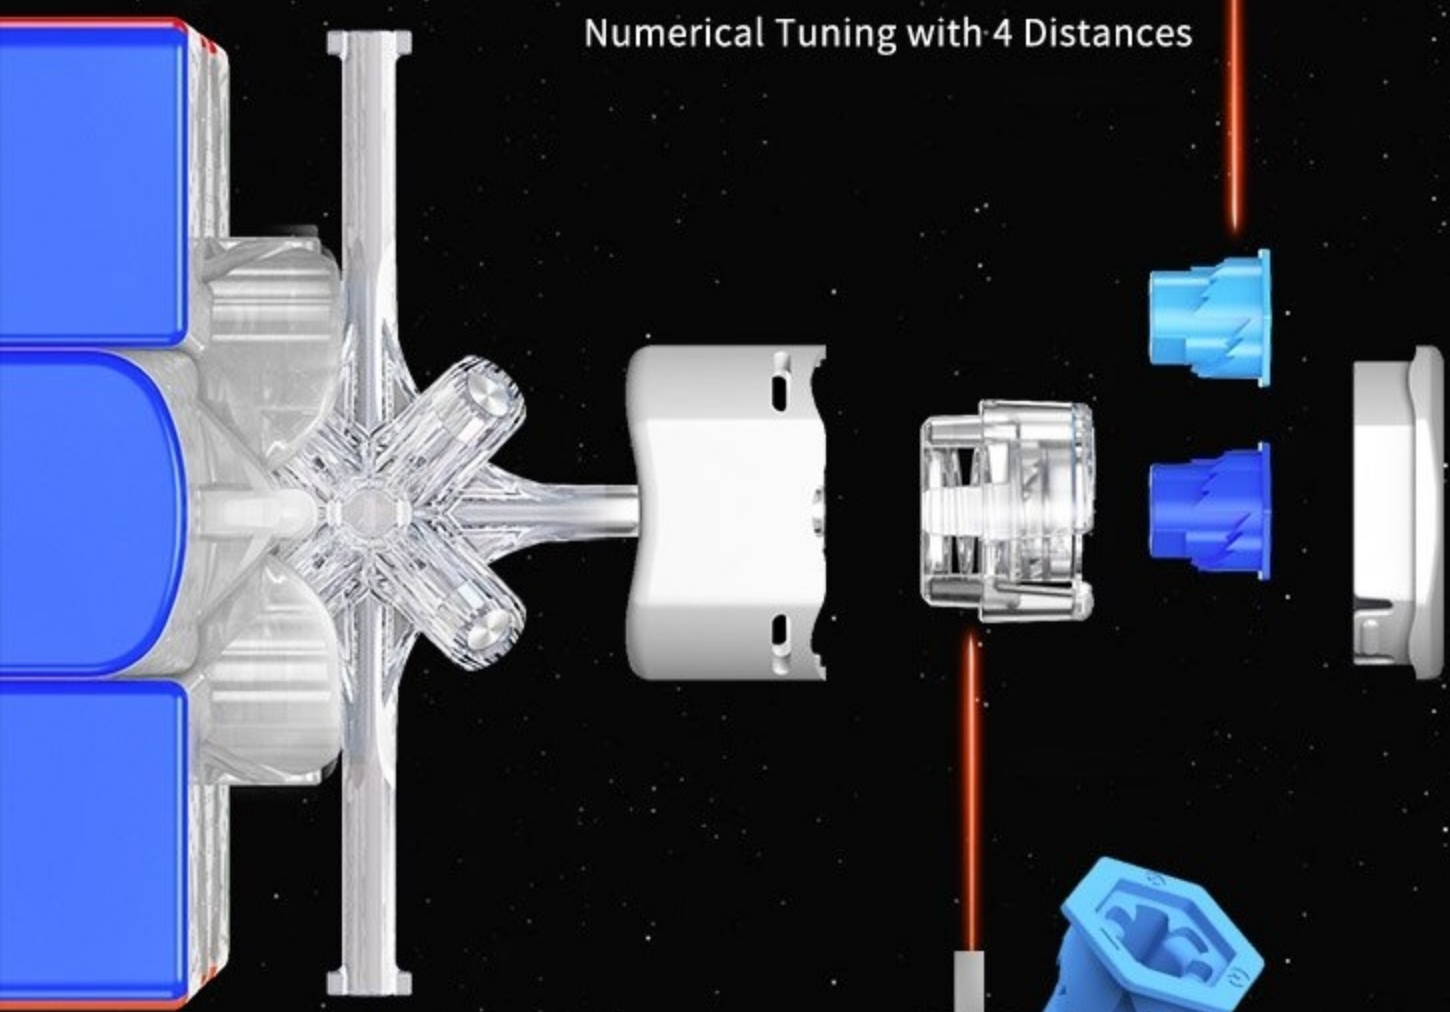

24 Kinds of Tension Tuning

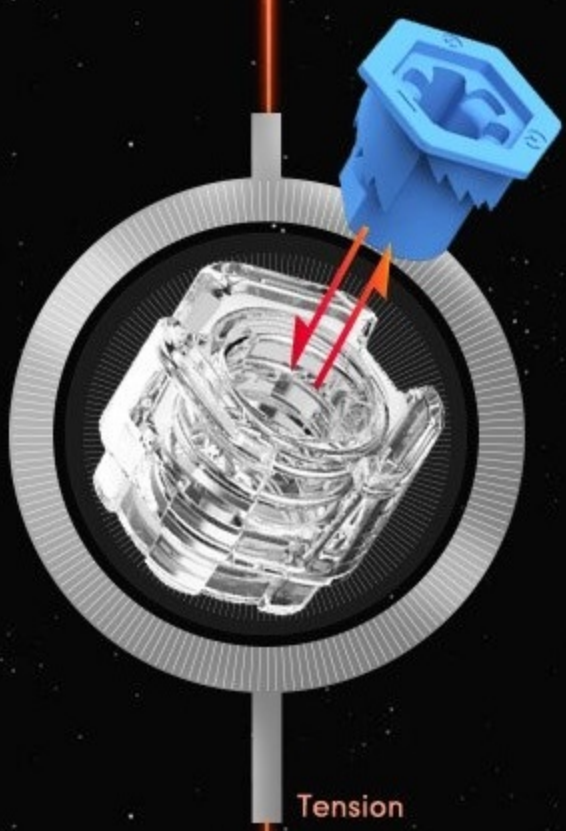

More Elaborate, More Accurate and More Speedy.

Numerical Variable Nut

Numerical Tuning with 4 Distances

Magnetic IPG

Cohesive GANsCore

More Steady, More Vertical.

GTN

Stepwise Fine Tuning

with 6 Levels of Elasticity

Professional Touching

Soft and UV Coated

Brand-new Feeling for Cubing

Besides frosted, newly add UV Coated and soft touching surface. It's up to you.

Choice for Soft Cubing

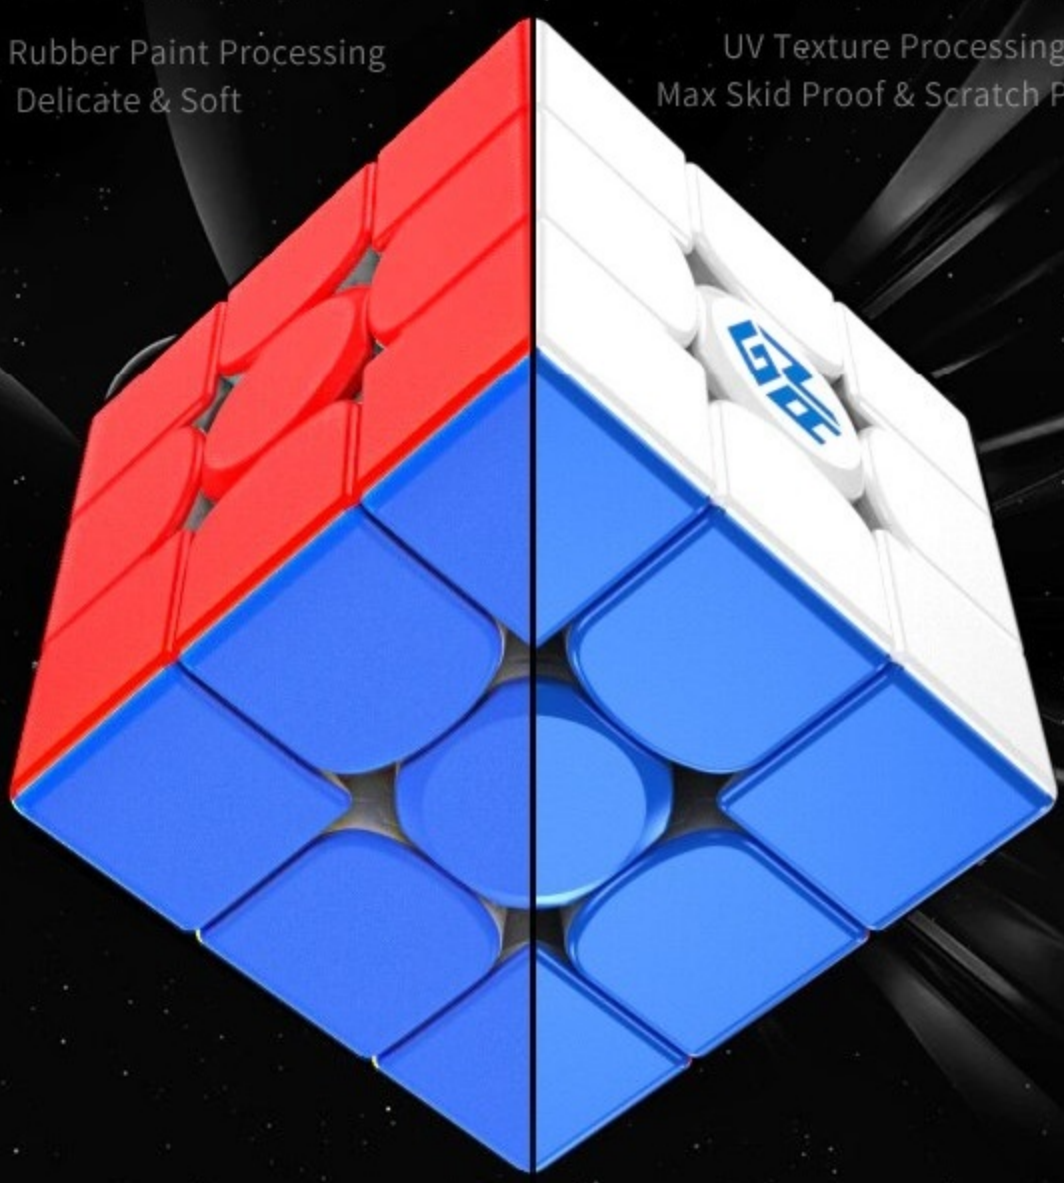

Soft Texture

Skin-feel Rubber Paint Processing
Delicate & Soft

Choice for Speed Cubing

UV Coated Texture

UV Texture Processing
Max Skid Proof & Scratch Proof

Scratch Proof

Glossy · Frosted · Soft · UV Coated

Weak — Strong

Skid Proof

Weak — Strong

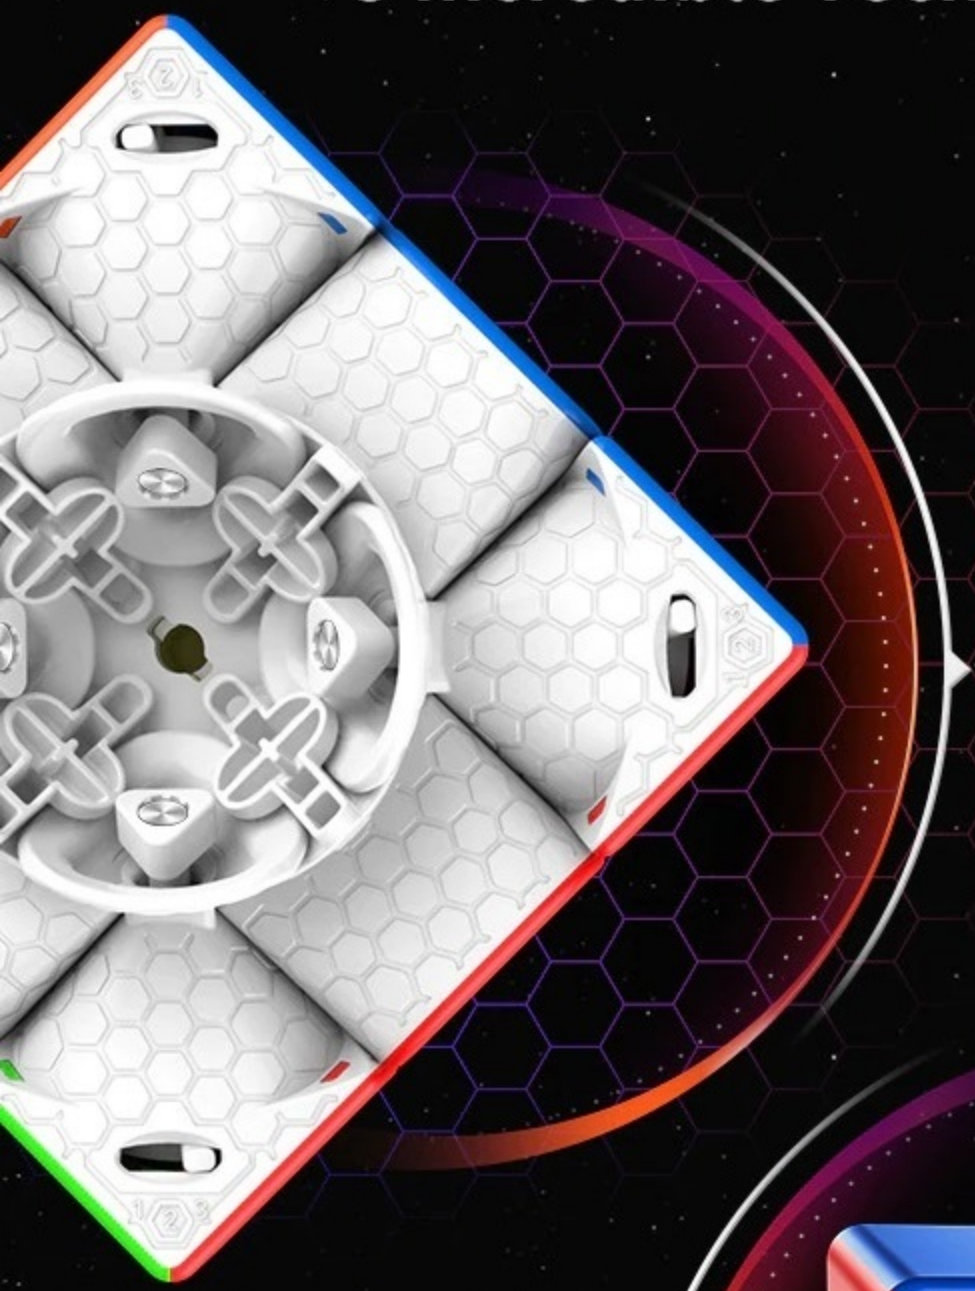

Dazzle Proof

Glossy · UV Coated · Frosted · Soft

Weak — Strong

Professional Techiques

3 Incredible Techniques

Lasting Smooth

Honeycomb
&
Slide Contact Surface
Long may the lube last.

Hard Anti-cracked Strength

Firmer Locked Clips Connection.
Strong will the cube be.

Steady and Stable

Integrated Design for Speedcubing.
Steady will your speed-up.

GAN BOX v7

More Compact & Intelligent

Updated Generation of Box v7

Professional ceremonial feel brought by the auto unfolding with a single press.

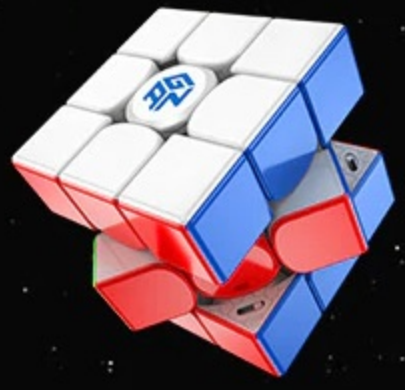

4 VERSIONS

Frosted, Stickerless

Frosted, Stickerless, Black

UV Coated, Stickerless

Soft, Sticklerless
