GAN356 M

Born with Legendary Technologies

Turbo Magnet Capsule
Capsule 2.0,
say no to lockups.

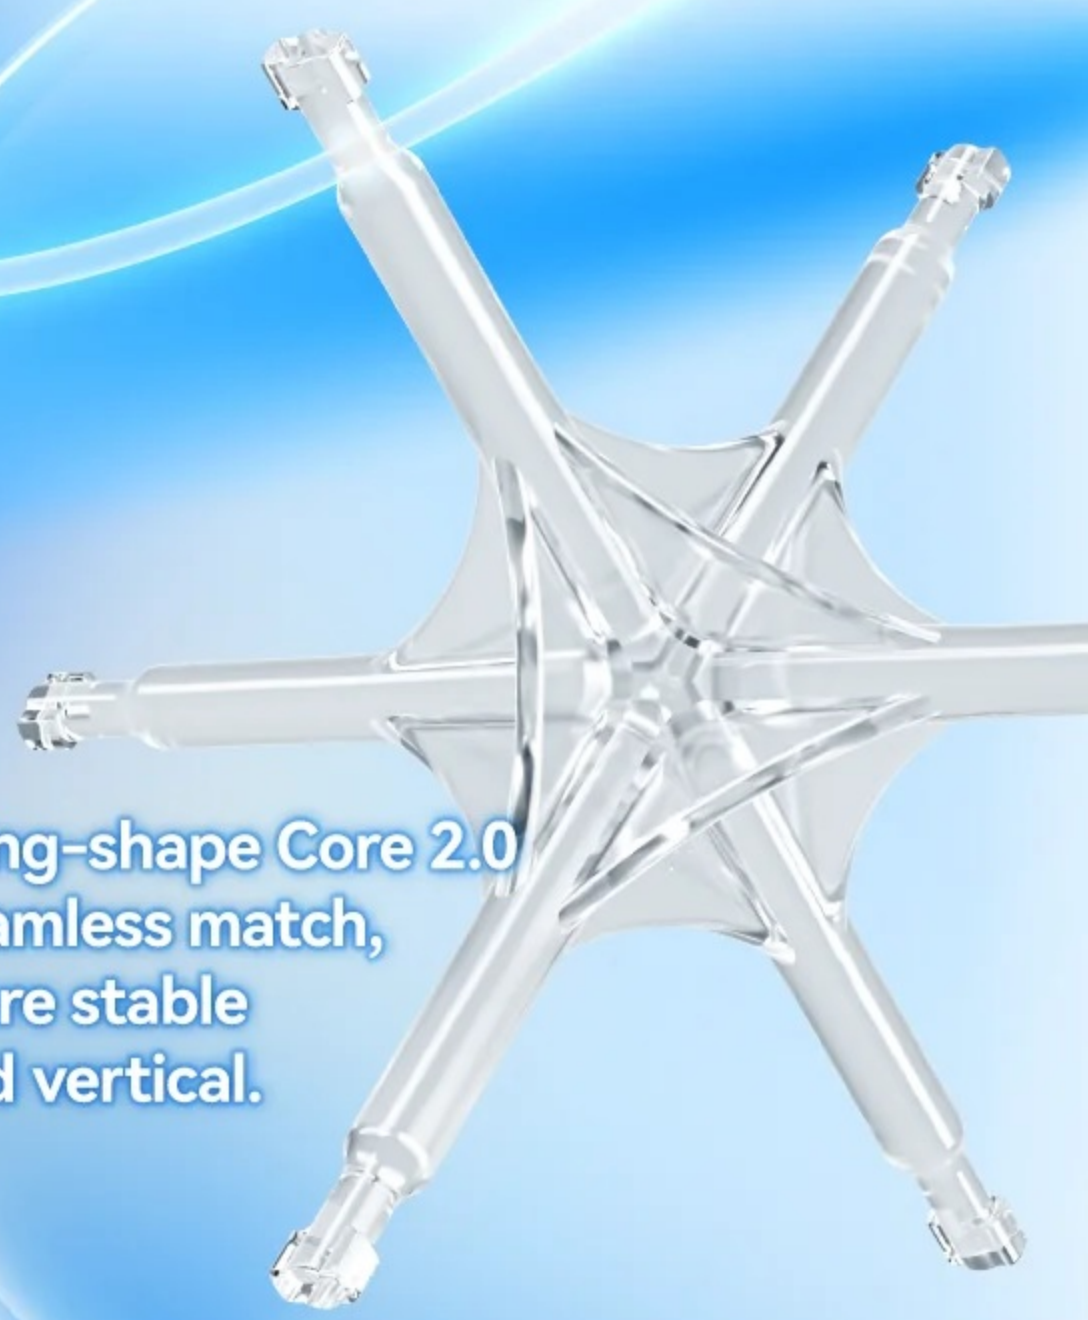

GES Pro+
Numerically tune to
12 kinds of hand feelings.

Honeycomb & Slide
Store the lube for
long-lasting lubrication.

Wing-shape Core 2.0
Seamless match,
more stable
and vertical.

Legendary Technologies Assemble!

Clear magnet capsule, numerical GES, integrated core design, honeycomb contact face...
Legendary technologies that originated from GAN and made GAN popular worldwide are recreated in **GAN356 M E**!

Turbo Magnet Capsule

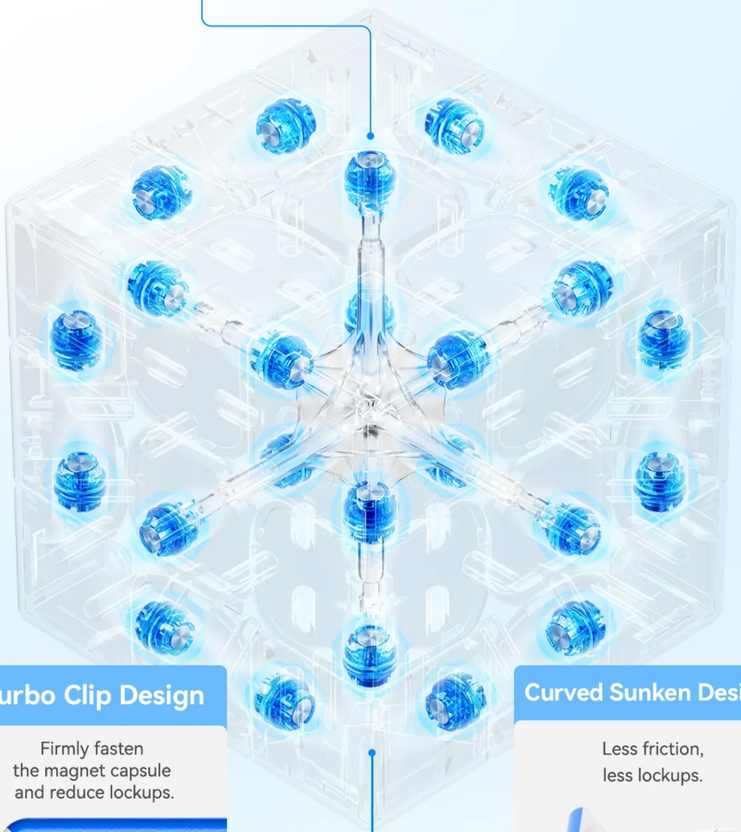

Let the magnetic attraction widen your vision!

48 Clear Magnet Capsules
Accelerate with cool engines.

Capsule 2.0

Upgraded playing experience.

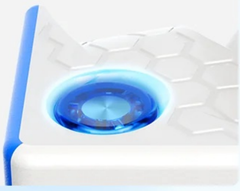

Turbo Clip Design

Firmly fasten the magnet capsule and reduce lockups.

Curved Sunken Design

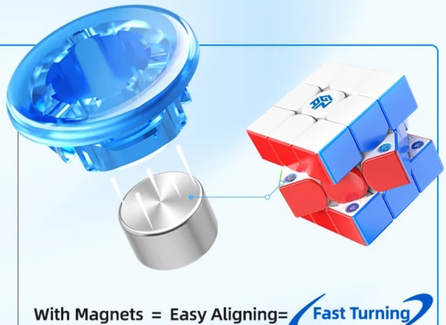

Less friction, less lockups.

GAN356 M E | **Magnet**

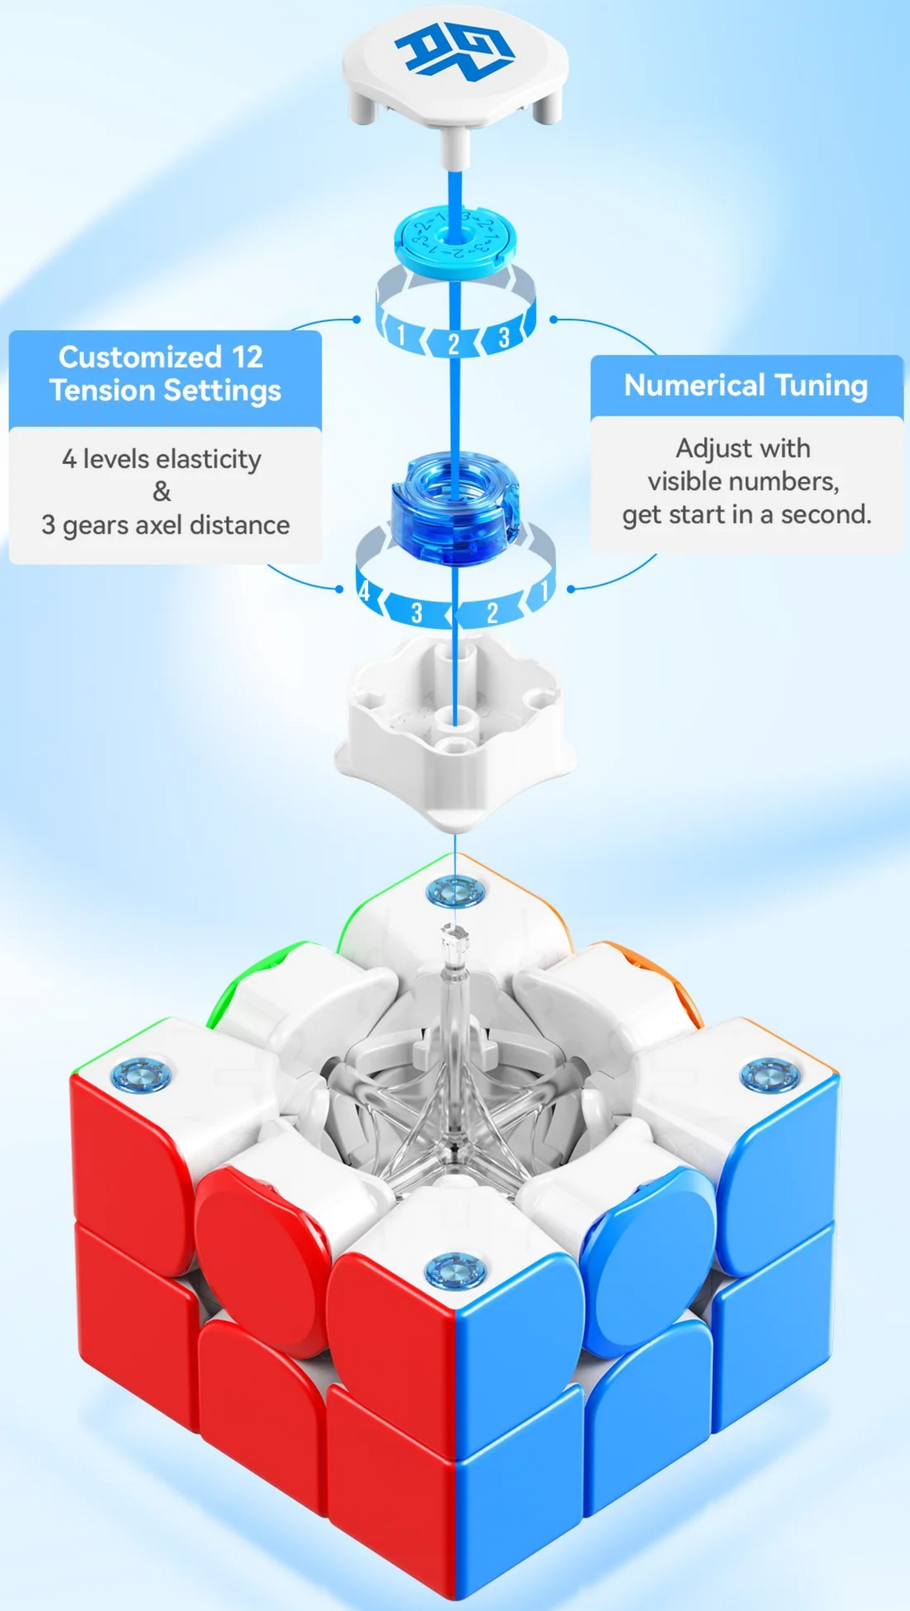

"How magnetic technologies help cubers break so many records?"

Equipped with magnetic technologies, layers attract to each other to speed up turning and aligning.

GES Pro+

Get start in a second.
Hyper numerical tuning performance.

Customized 12 Tension Settings

4 levels elasticity
&
3 gears axel distance

Numerical Tuning

Adjust with visible numbers, get start in a second.

GAN356 M e | Elasticity

Tight or Loose It's UP to You!

Adjust the elasticity and travel distance of the cube to make the tension setting best suit yourself.

weak elasticity + long distance = (loose cube)

strong elasticity + short distance =) tight cube (

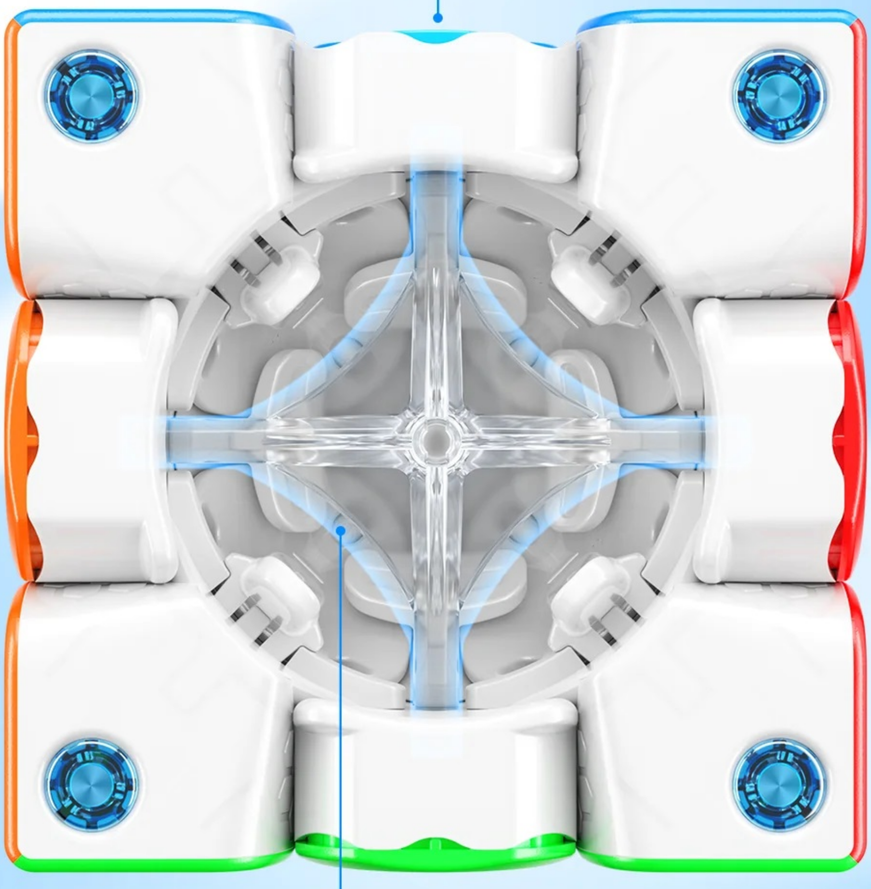

Wing-shape Core 2.0

Ultra straight and vertical.

Numerical Tuning Helps

Pin at shaft-end helps fix the GES nut and make fluent tuning.

More Vertical, More Stable, More Speed

Integrated wing-shape design and seamlessly fit in center cap.

GAN356 M e **Core**

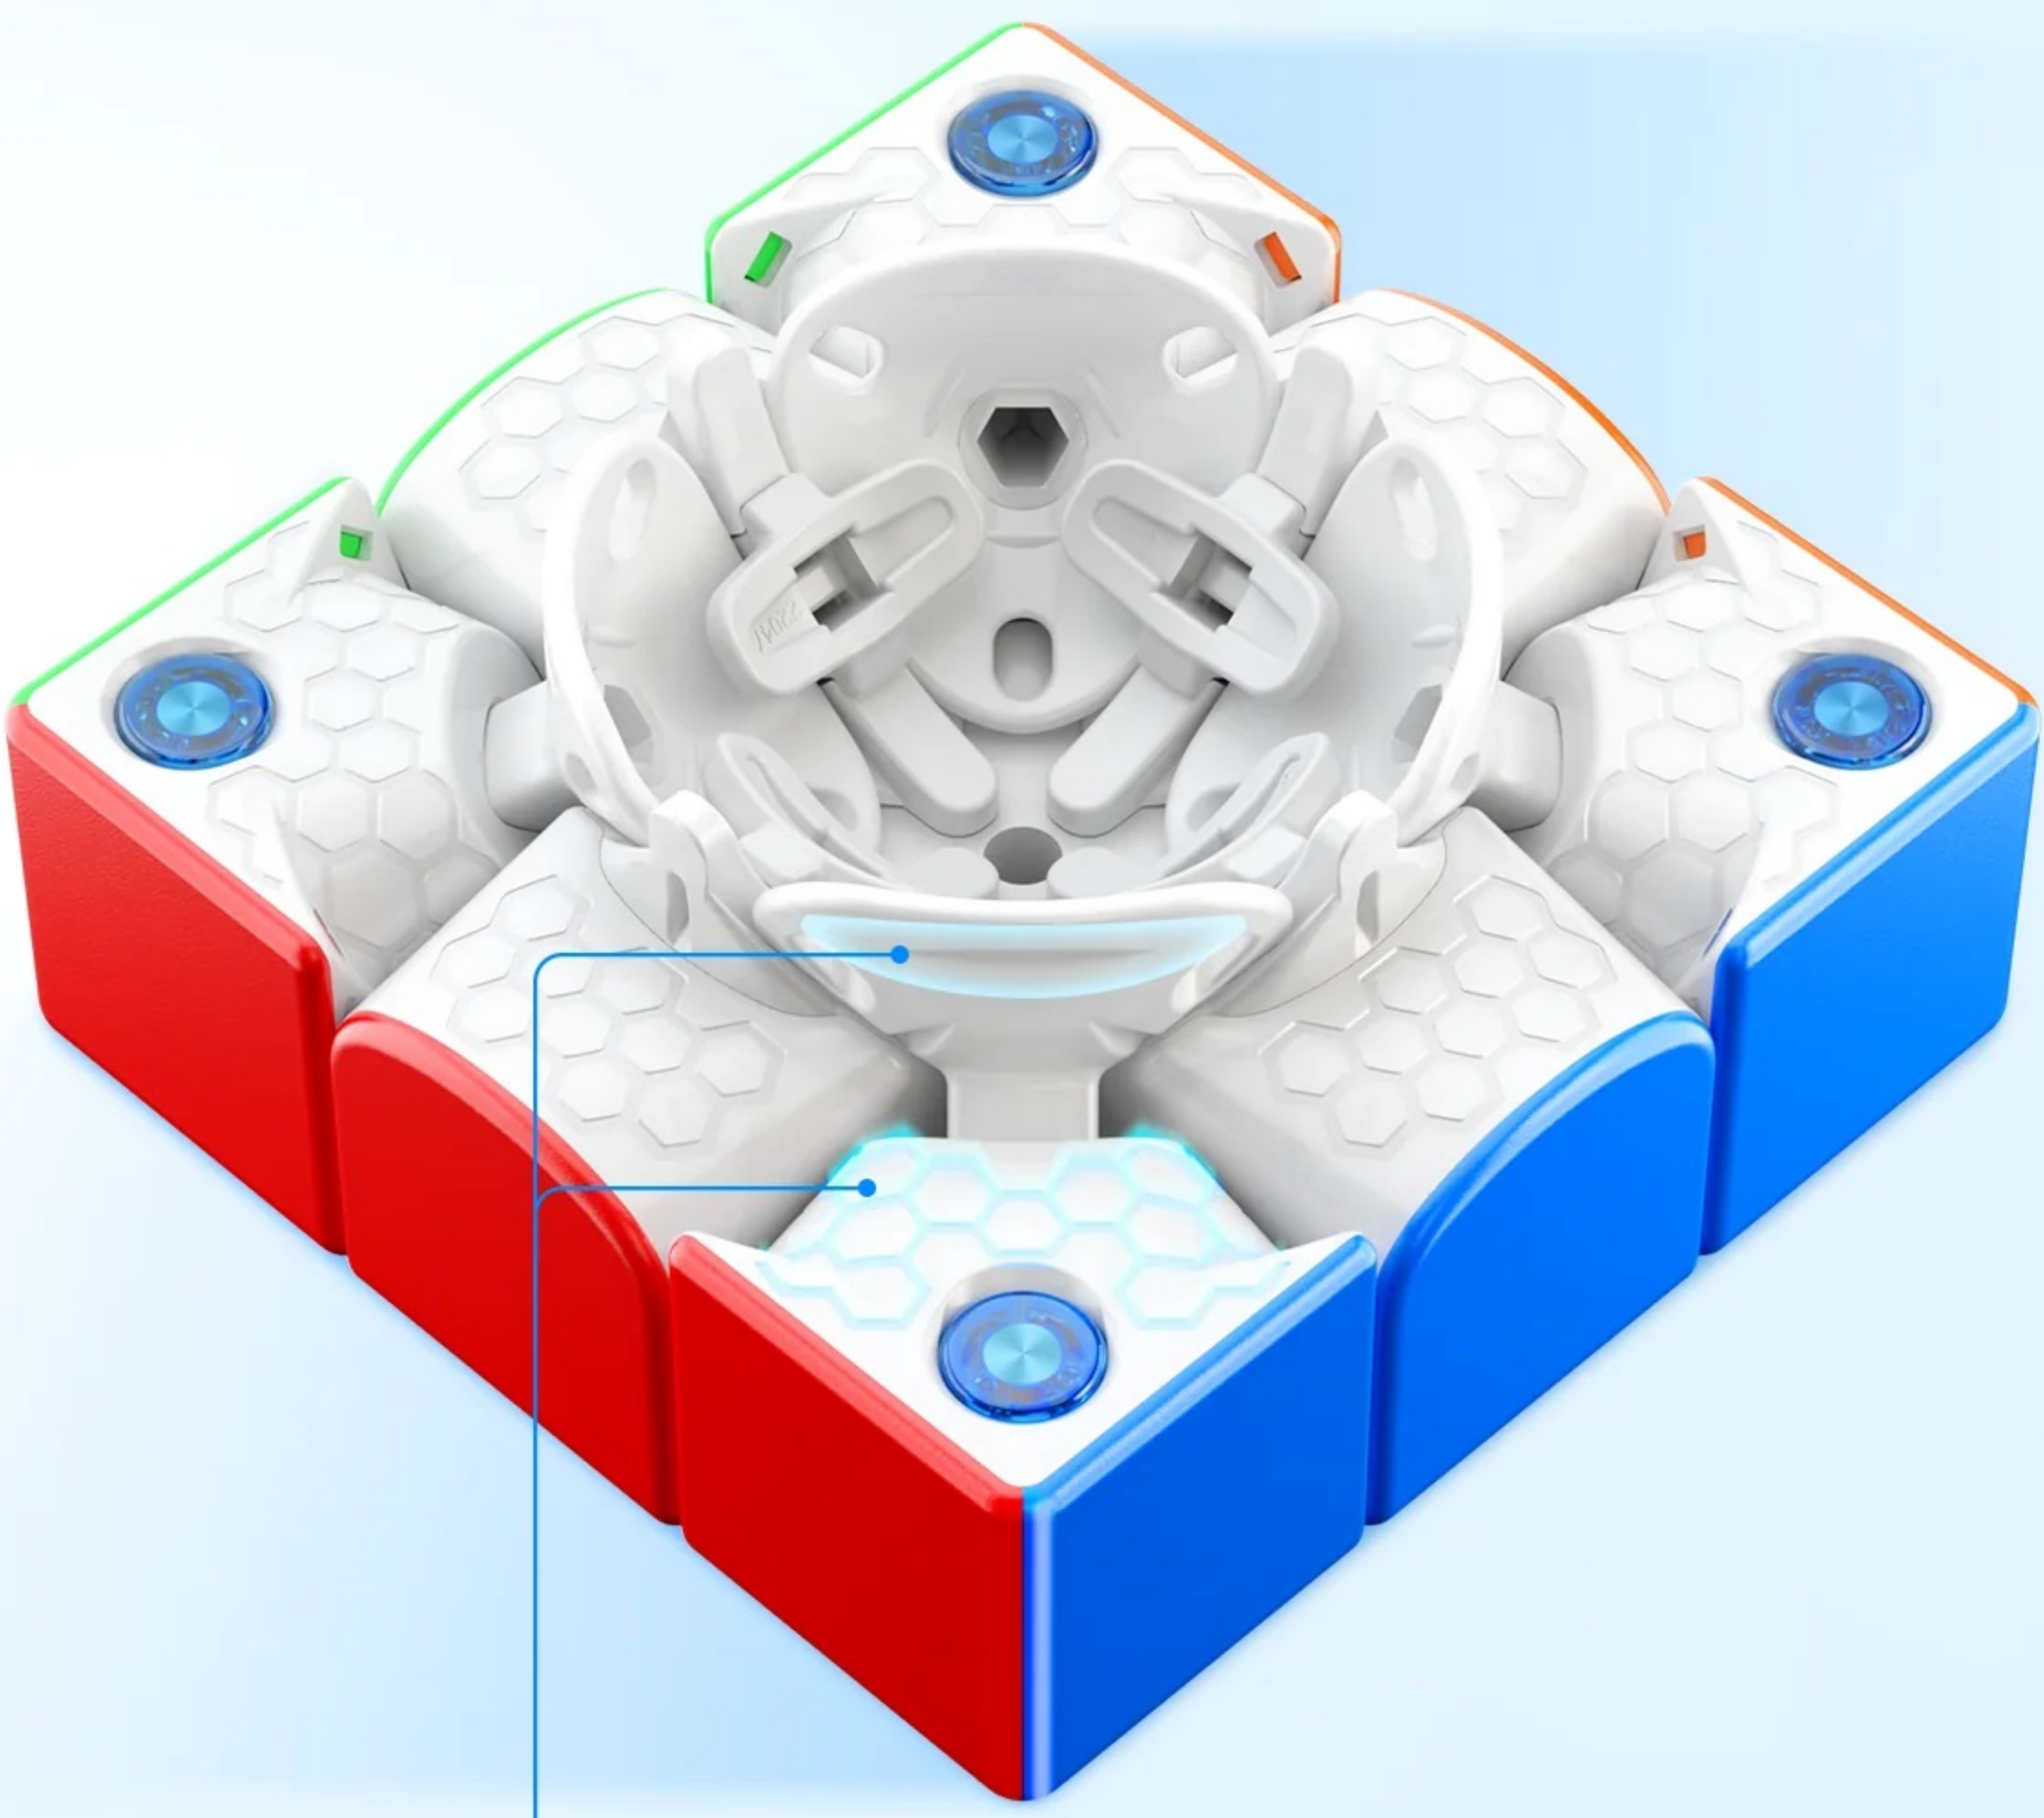

Only a good core can support super speed .

Core is the base of a cube's performance and hand feel.
The more vertical it is, the more stable speed turning you can have.

Honeycomb & Slide Contact Face

Once lubricated, smooth as always.

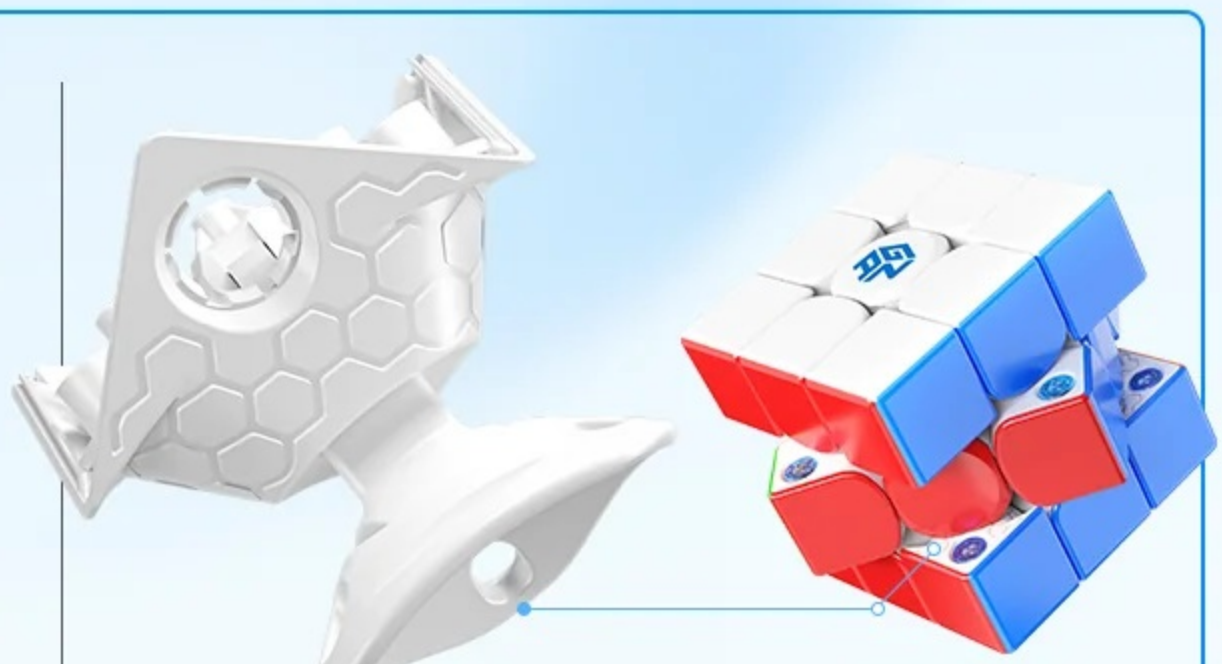

Honeycomb & Slide Contact Face

Once lubricated, prolonged smooth feel.

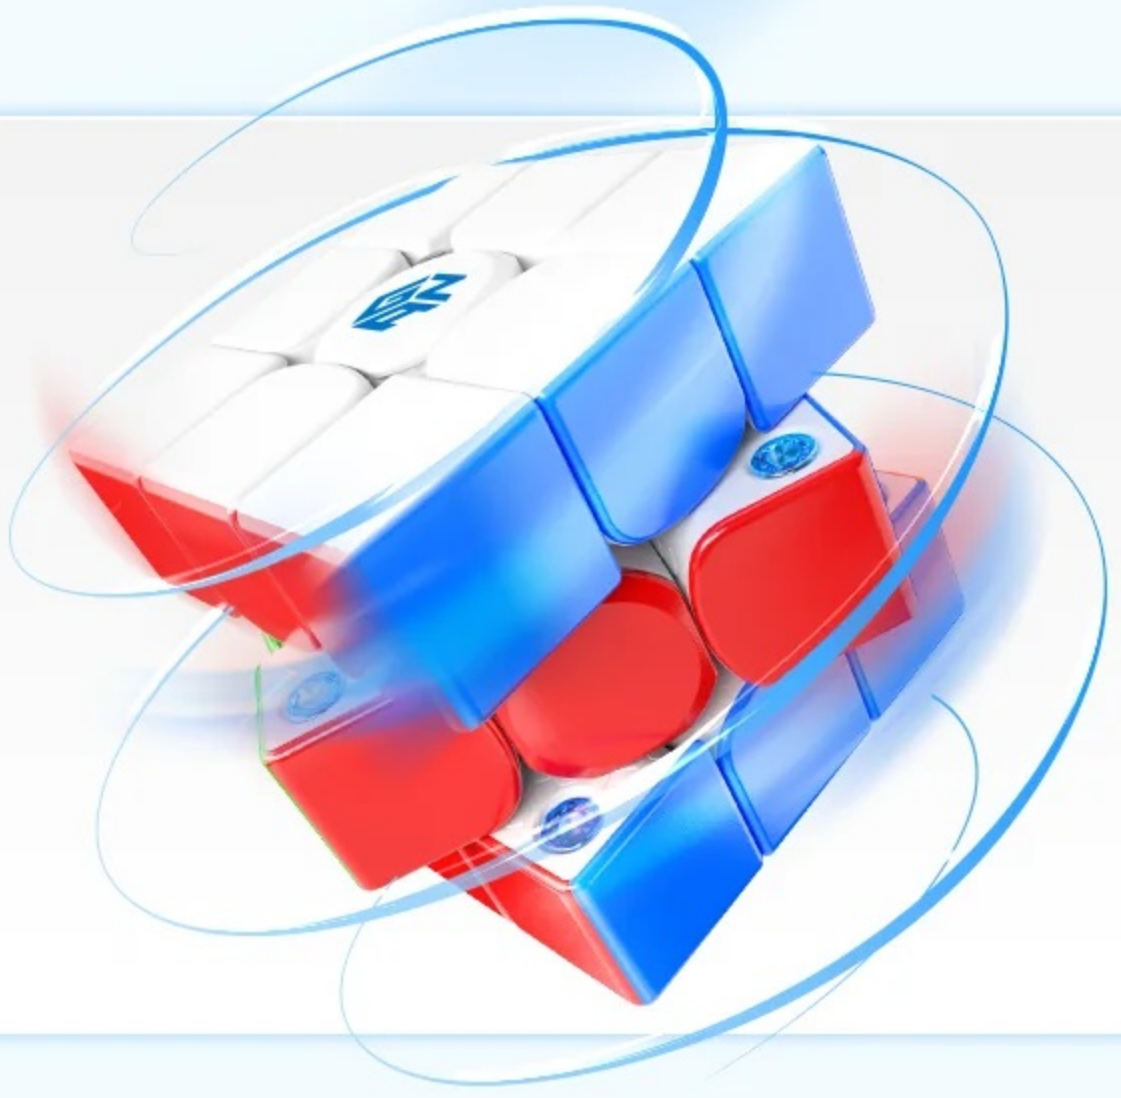

GAN356 M e Contact Faces

Lubricate contact faces to smoothen your cube and reduce wear-out.

GAN356 M

A Versatile Cube

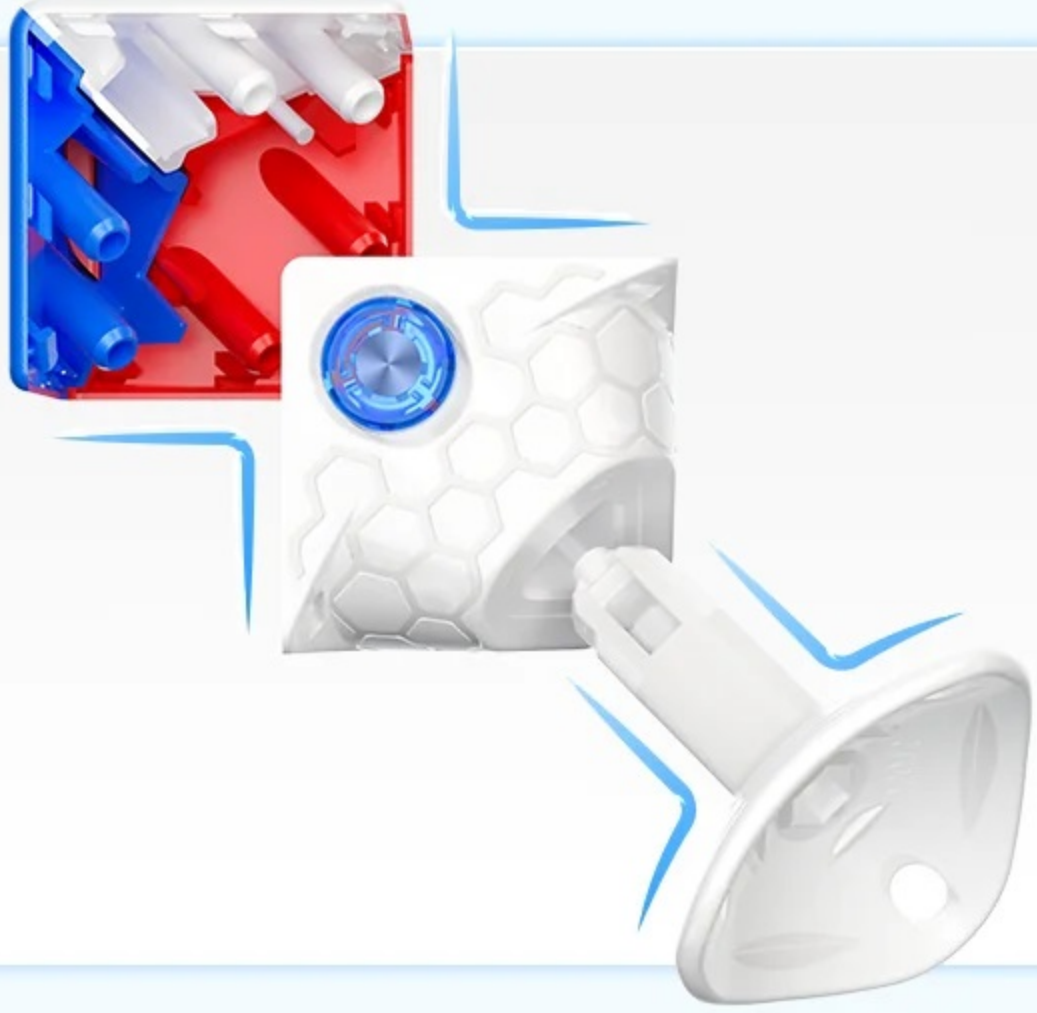

77.5g

Light picking,
quick turning.

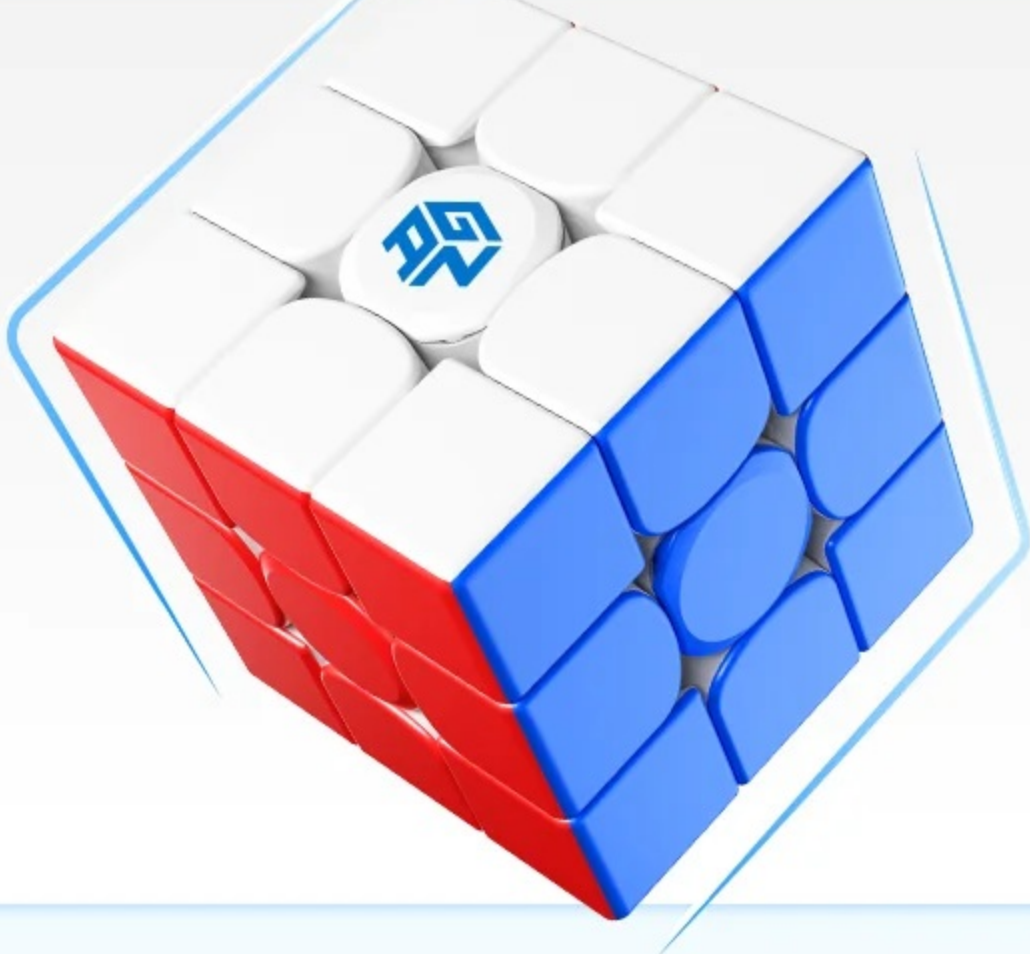

Symmetric Clip & Pile Design

Firm and durable.

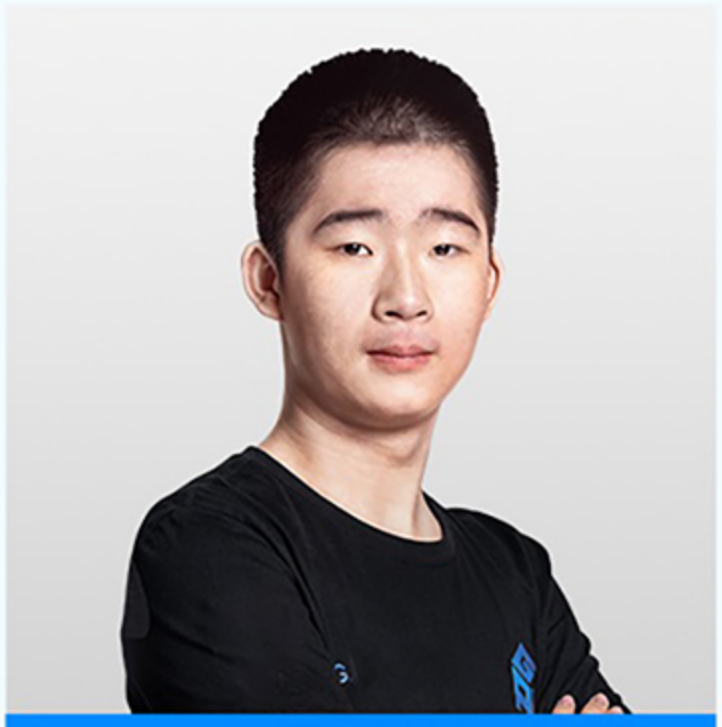

Full-bright Frosted Surface

Hard to get scratched and fingerprinted.

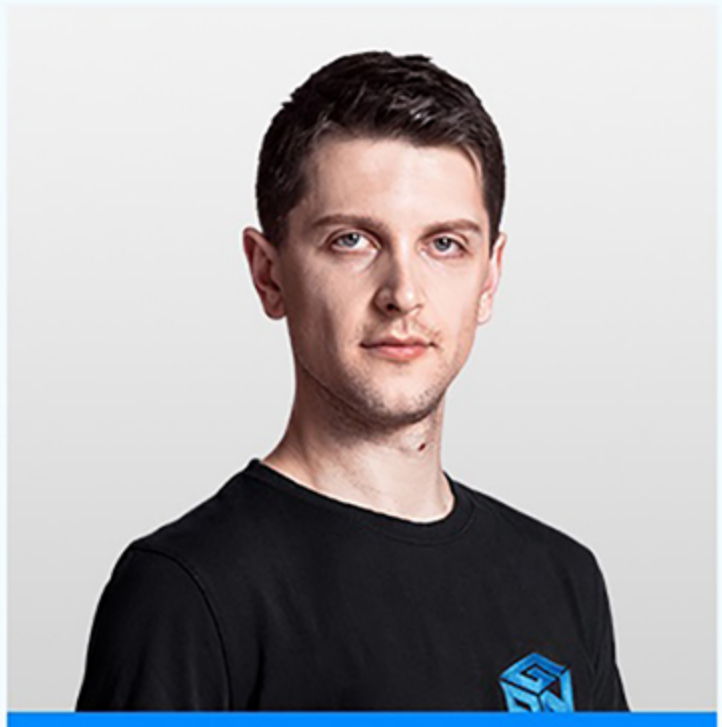

GANCUBE - Choice of World Champions

Xu Ruihang

43 WCA Golds
3x3 Average World Record Breaker

Feliks Zemdegs

Two-time World Champion

Tymon Kolasiński

228 WCA Golds
7 World Records Holder

*Data above are from World Cube Association.

Different Versions

GAN356 M E
(Frosted Version)

GAN356 M E
(Frosted Version V2)

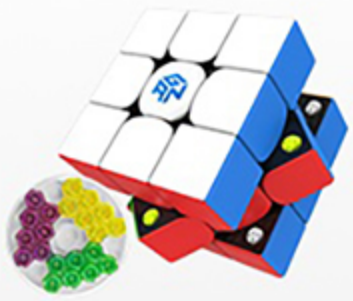

GAN356 M E
(UV Version)

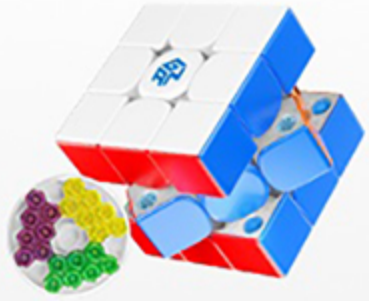

*This version does not include cube storage bag or GAN box.

GAN356 M Standard Edition (Frosted Version)

(with GES parts)

GAN356 M Standard Edition (UV Version)

(with GES parts)

GAN356 M Light Edition (Frosted Version)

(without GES parts)

Configuration List

1. GAN Bag
2. GAN Box v8
3. Tuning Tool
4. Beginner & CFOP Tutorial
5. Tuning Instruction

*Please see the actual configurations of the purchased edition as standard.

Comparison

Type	GAN356 M E	GAN356 M	GAN356 X	GAN356 X S
Size	56mm	56mm	56mm	56mm
Weight	77.5g	74g	80g	68g
Magnet System	Turbo Magnet Capsule	Magnet Capsule	GMS	GMS v2
Elasticity System	GES Pro+	GES	Dual GES	Dual GES
Joint Design	Symmetric Clips & Piles	Symmetric Clips	Symmetric Clips	Integrated Symmetric Clips
Contact Face	Honeycomb & Slide	Honeycomb 2.0	Honeycomb 2.0	Honeycomb & Slide
Surface	Full-bright Frosted, UV Version	Full-bright Frosted, UV Version	Full-bright Frosted	Full-bright Frosted
