WAVERIDER V2

Breaking the Limits of Core Magnets, Exploring a New Realm of Magnetic Sensation

Reengineered Core, Redefined Feel.

Heart Texture

Integrated Core

Low Noise

Micro-span

Corner-Cutting

Mild Glossy Surface

Auto-Alignment

26-Point Core with 3D Accelerated Magnetic Positioning

Up to 26 magnets in the core alone, with a total of up to 94 magnets configurable across the cube.
High-density magnetic field coverage inside the cube delivers an exceptional magnetic feel.

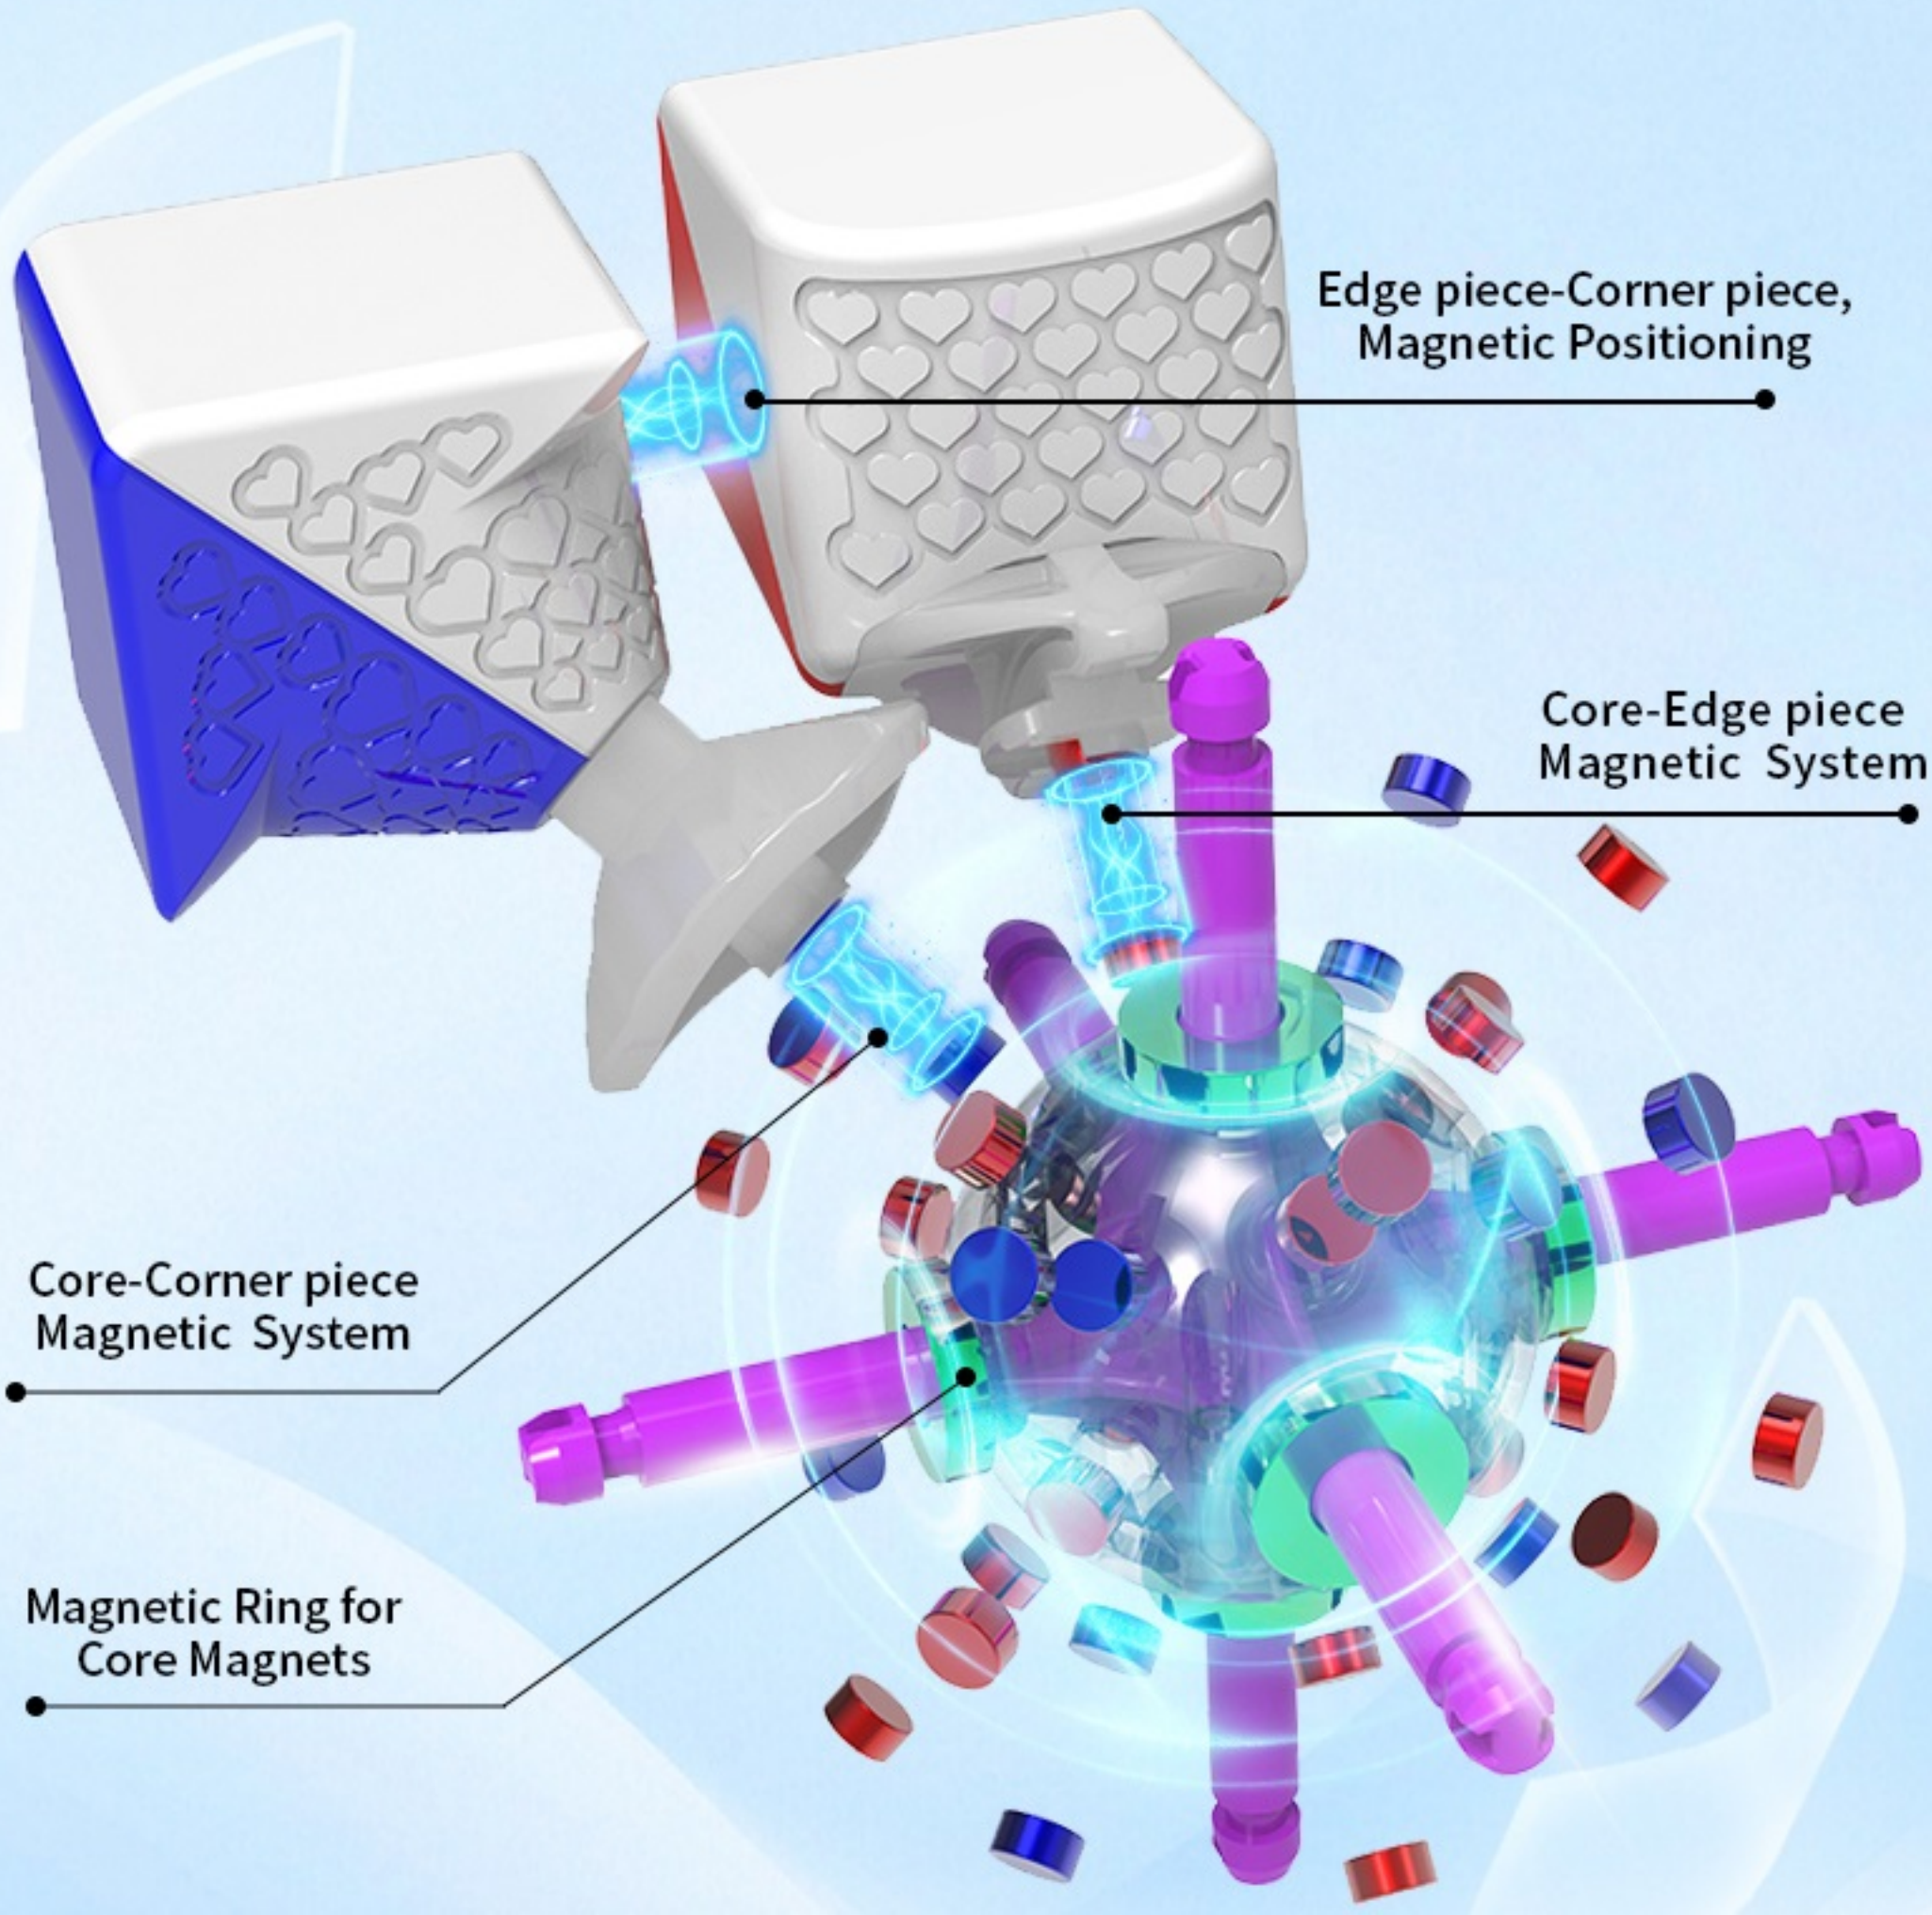

Enhanced Turning Acceleration

Beyond the mainstream 20-magnet core, an additional 6 magnetic rings are integrated.
The force from these rings converges at the core edges and disperses at the core corners, amplifying the magnetic acceleration sensation during turning.

Wide Range of Customizable Configurations

By adjusting the 26 magnets in the core and pairing them with the 20 magnets in the corner feet, you can achieve diverse and rich positioning effects, greatly expanding the range of tactile feedback options!

Micro-Numerical setting

levels of spring compression
×8 levels of center tension
= 64 tactile combinations to choose from!

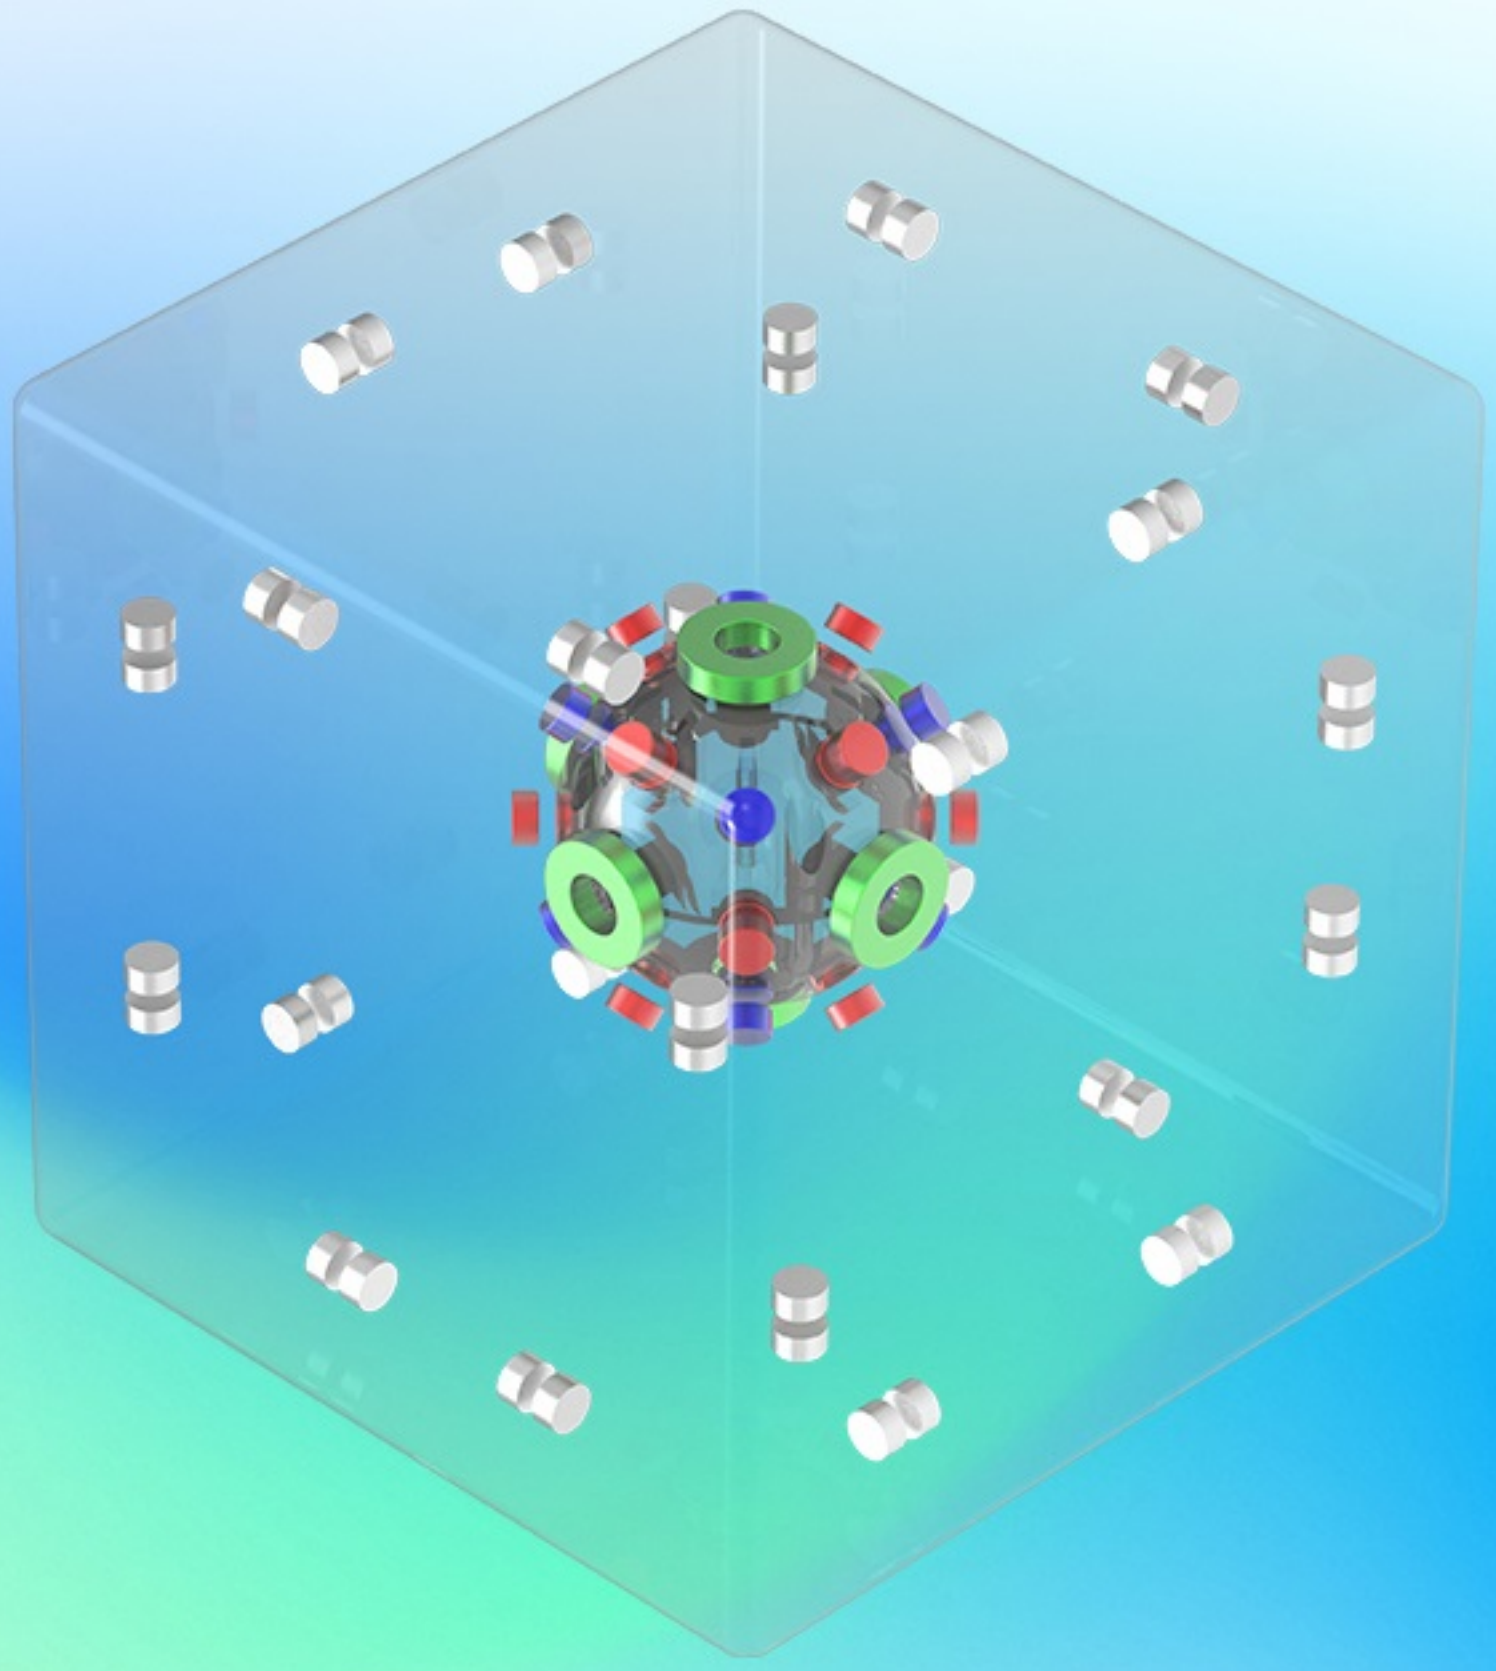

Fully numerical setting makes it easy even for beginners to replicate the feel preferred by top cubers.Precision micro-setting ensures no chance for a breakout is missed!

4 Sets of magnet system

Coordinate all over the cube

More Stable and More Efficient

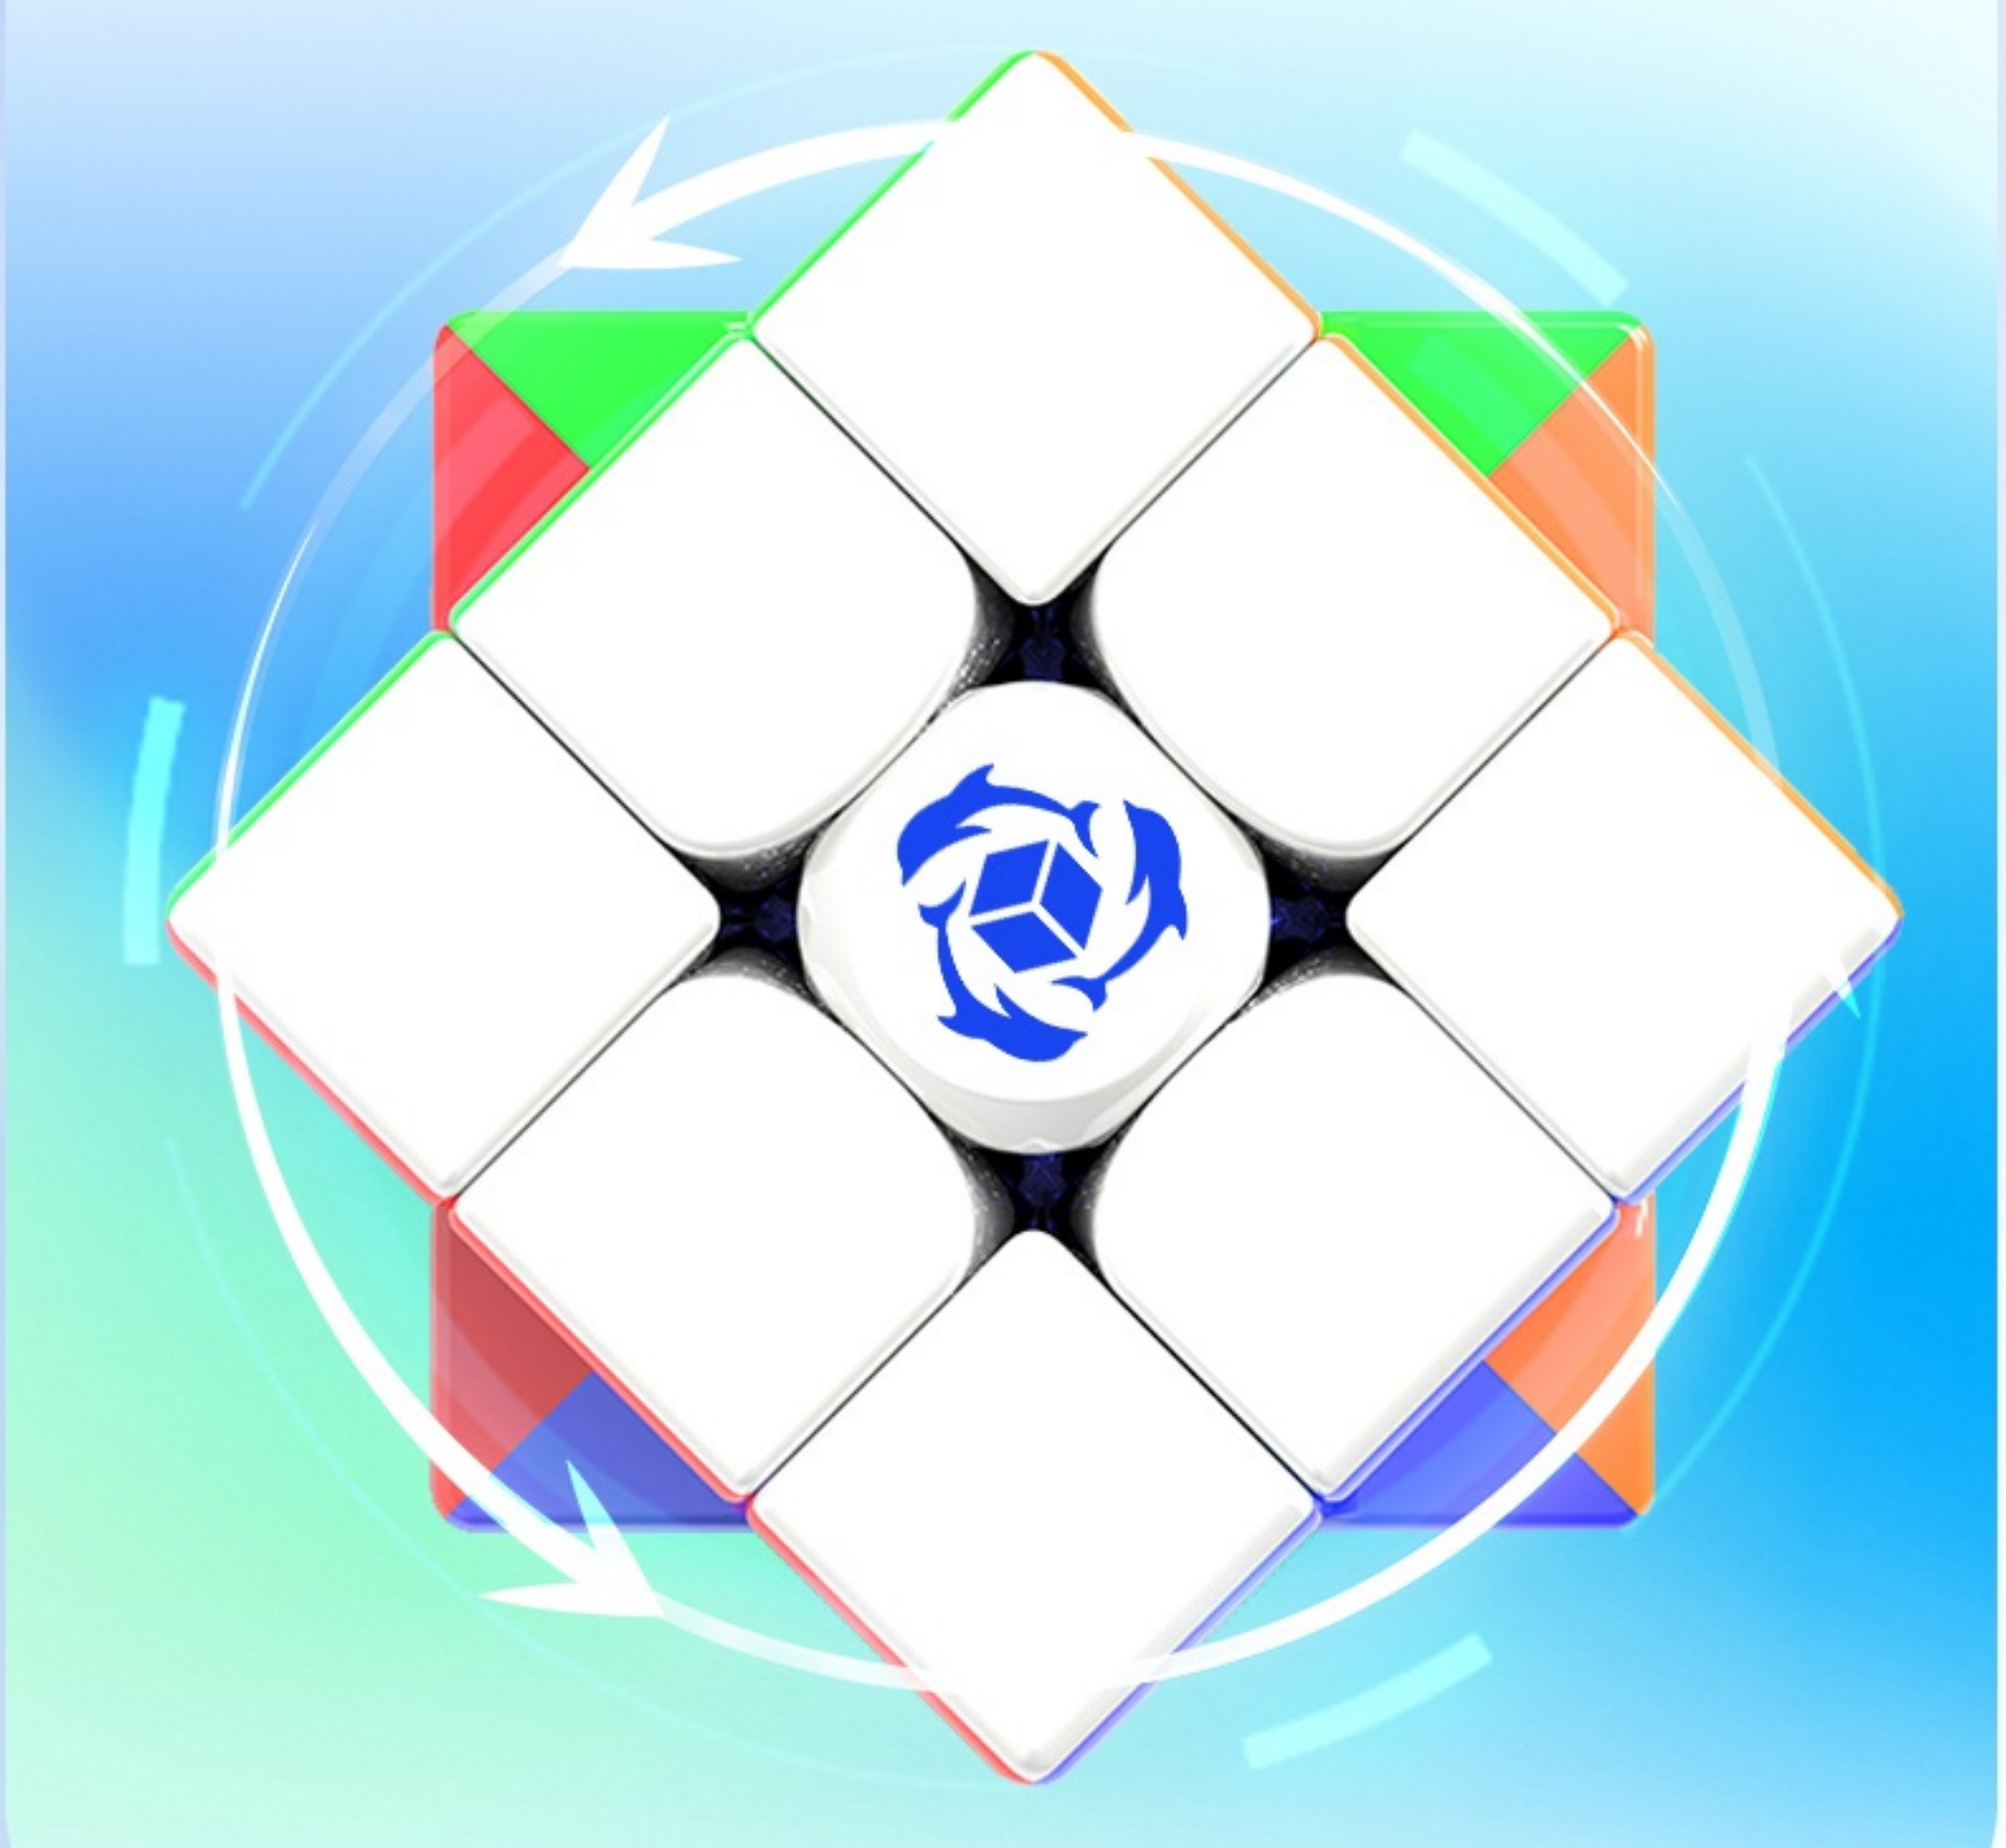

Auto-Assisted Homing

Magnetic Repulsion Combined with Inertia

Provide Acceleration
Auto-Assisted Homing

Smooth Operation with Rock-Solid Stability

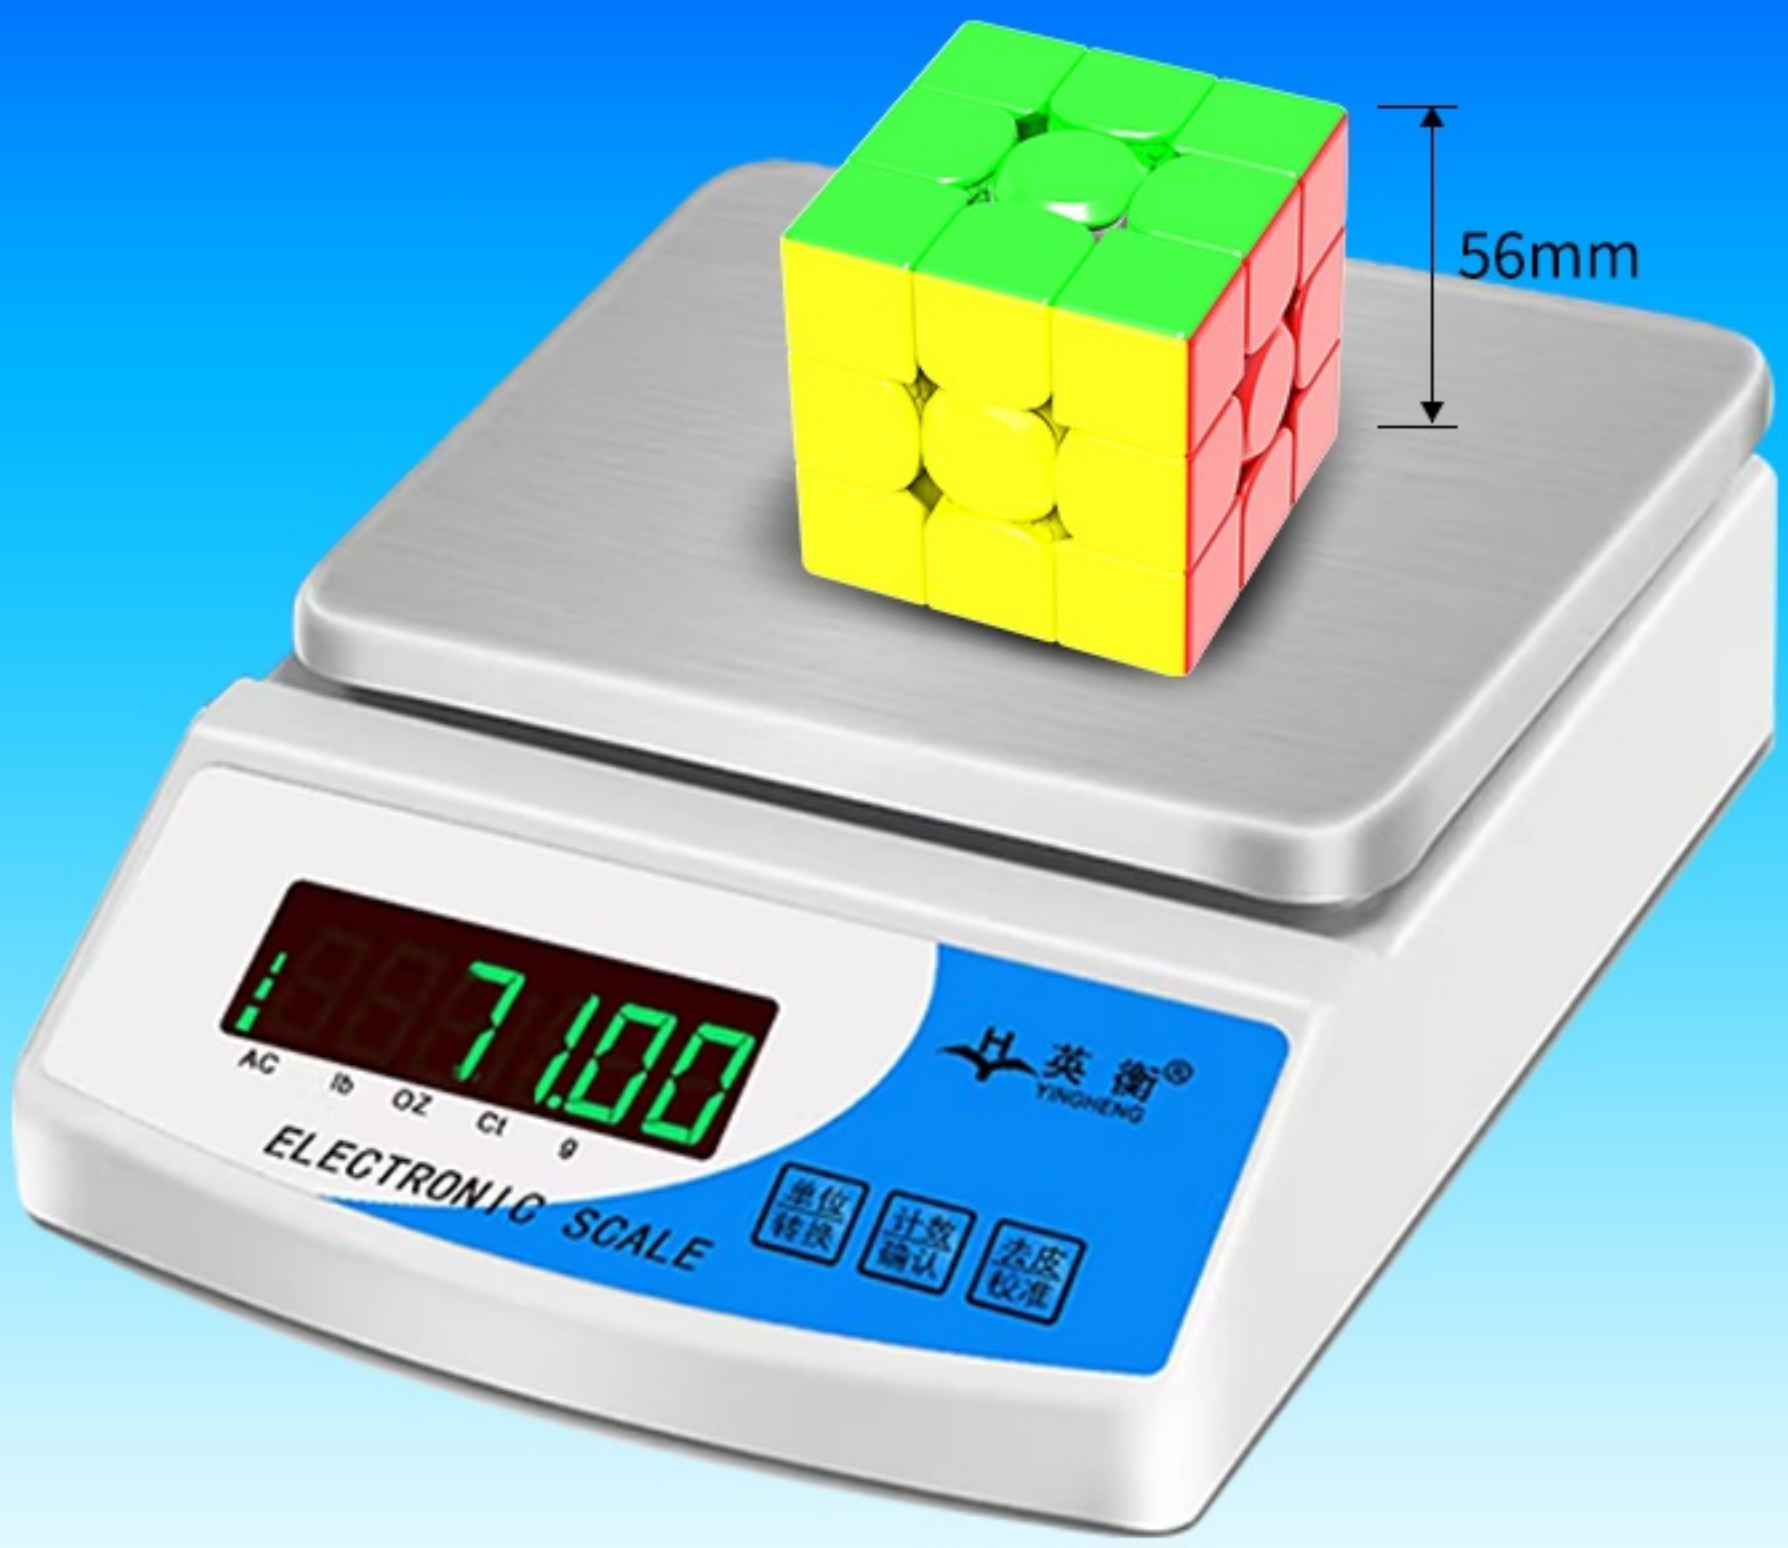

Ocean Blue Heart Friction Surface

Designed with heart for long-lasting lubrication

smooth from the very first turn,
and consistently reliable every time.

Professional Speed Cube Dimensions

56mm
Golden size

71G
Optimal weight

Excellent control and comfort for long practice sessions without fatigue.

Soft-Gloss Exterior

Combining the advantages of matte and glossy finishes—resistant to factory scratches and hand slippage. With such refined tactile quality, it truly lives up to its flagship status!

Great Corner-Cutting

Optimal rounded curve surface, say goodbye to lock-ups!

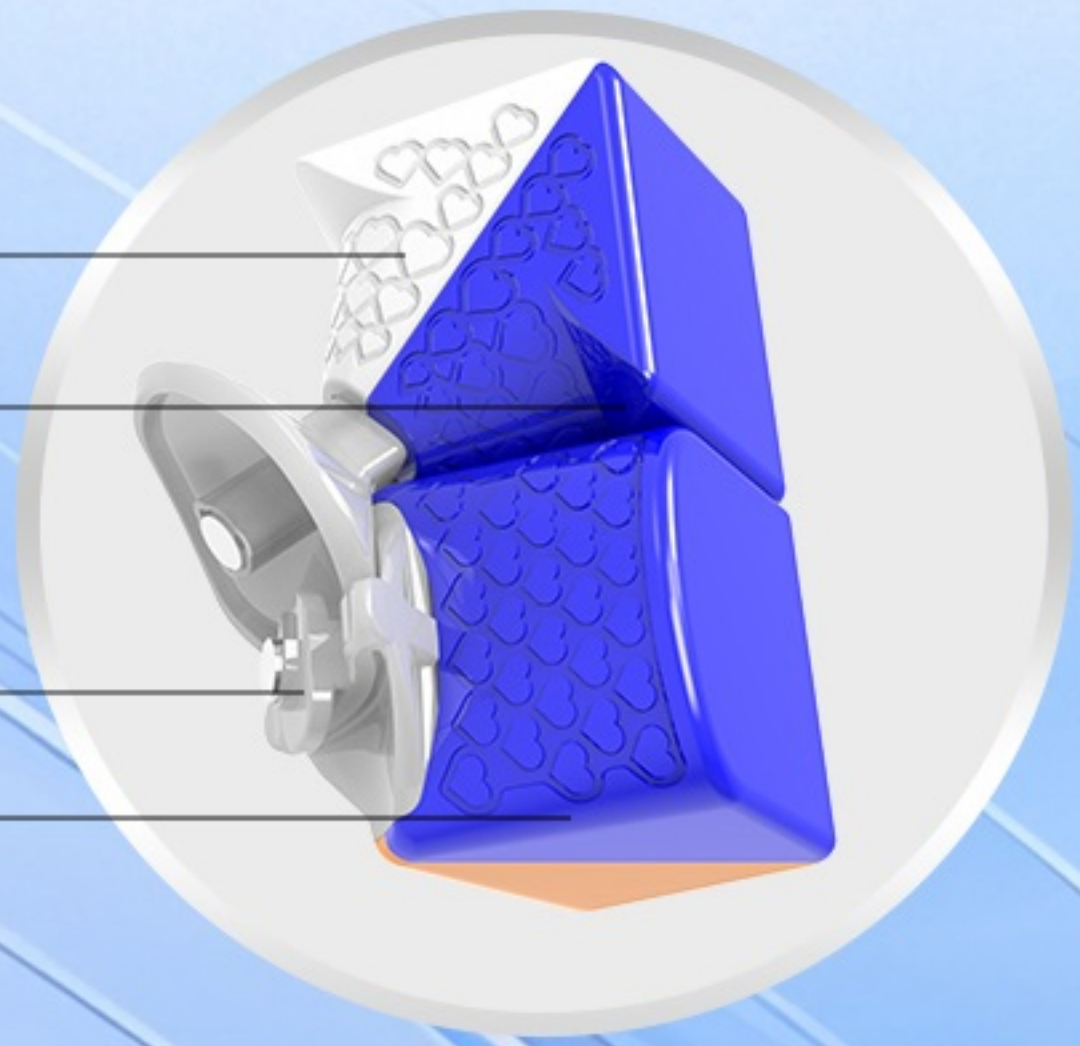

Big Corner-Cuttig

Anti Corner-Twist

structural optimization

Gradient Curves

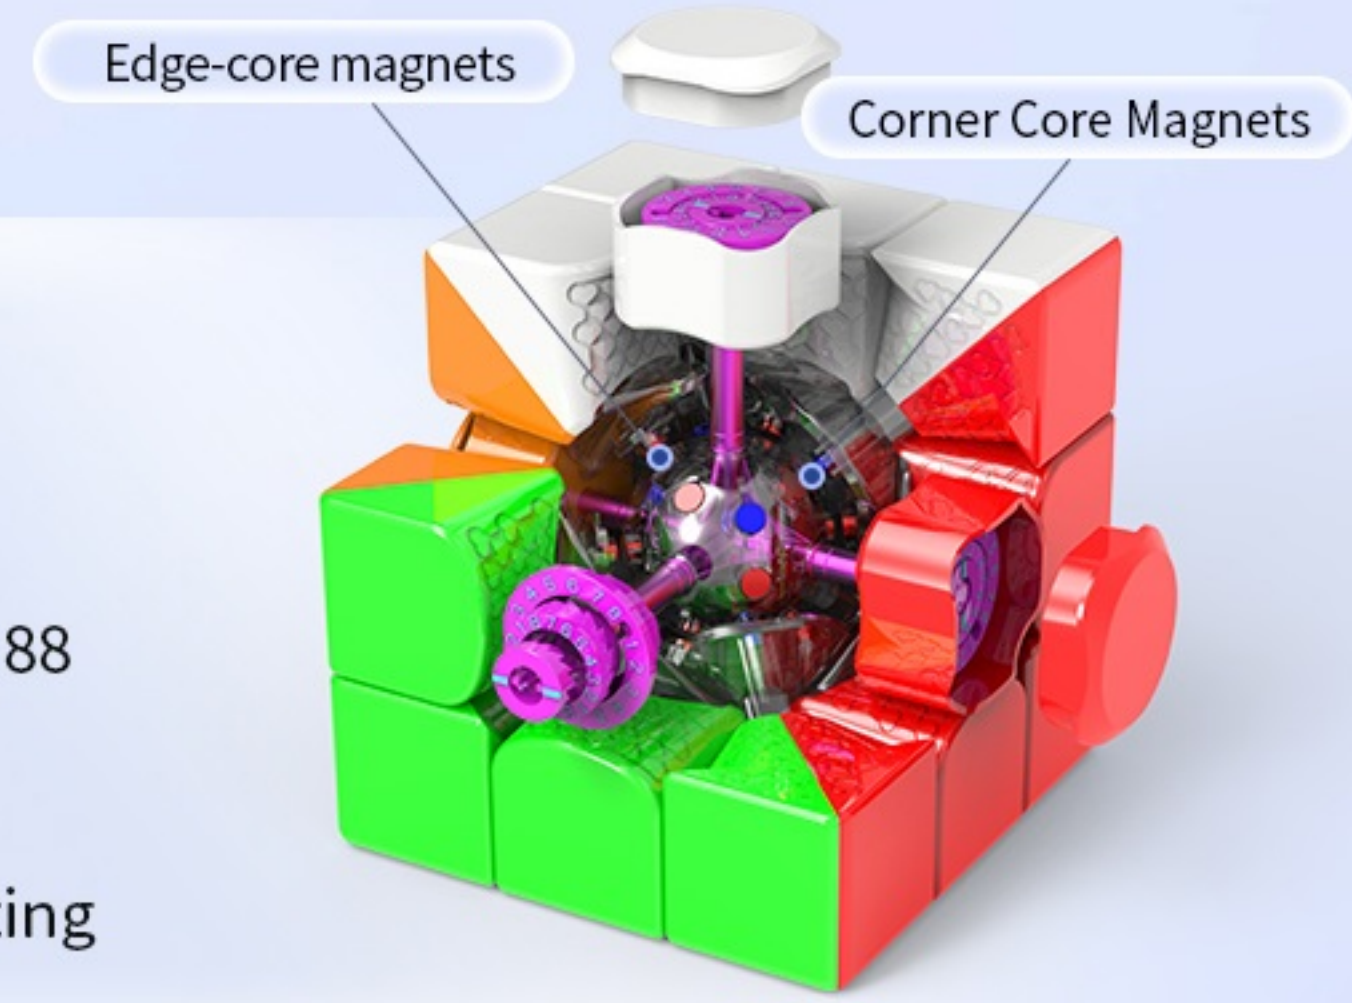

Low Noise

Full lubrication, high precision processing,
bring excellent noise
reduction effect. Just cubing in daily life!
No more worry of noise!

Imformation

Name: Cube

Catalog Number: Cube Standard(HTO01)　Flagship(HTO02)

Pioneer(HTO03)　Ultimate(HT004)

Material：ABS

Product Size：56MMX56MMX56MM

Net Weight：About 71g

Package: Paper Box

Package Size：120MM X 90MM X 69MM

Weight (Packaged)：About 278g

Versions：Versions、Flagship、Pioneer、Ultimate
