MOFANGJIAOSHI

Magnetic Enhancement for Faster Speed

Each corner piece is embedded with a magnet, allowing each layer to attract each other with magnetic force for rapid turning into place.

MOFANGJIAOSHI

Adjustable Elasticity, Tightness under Your Control

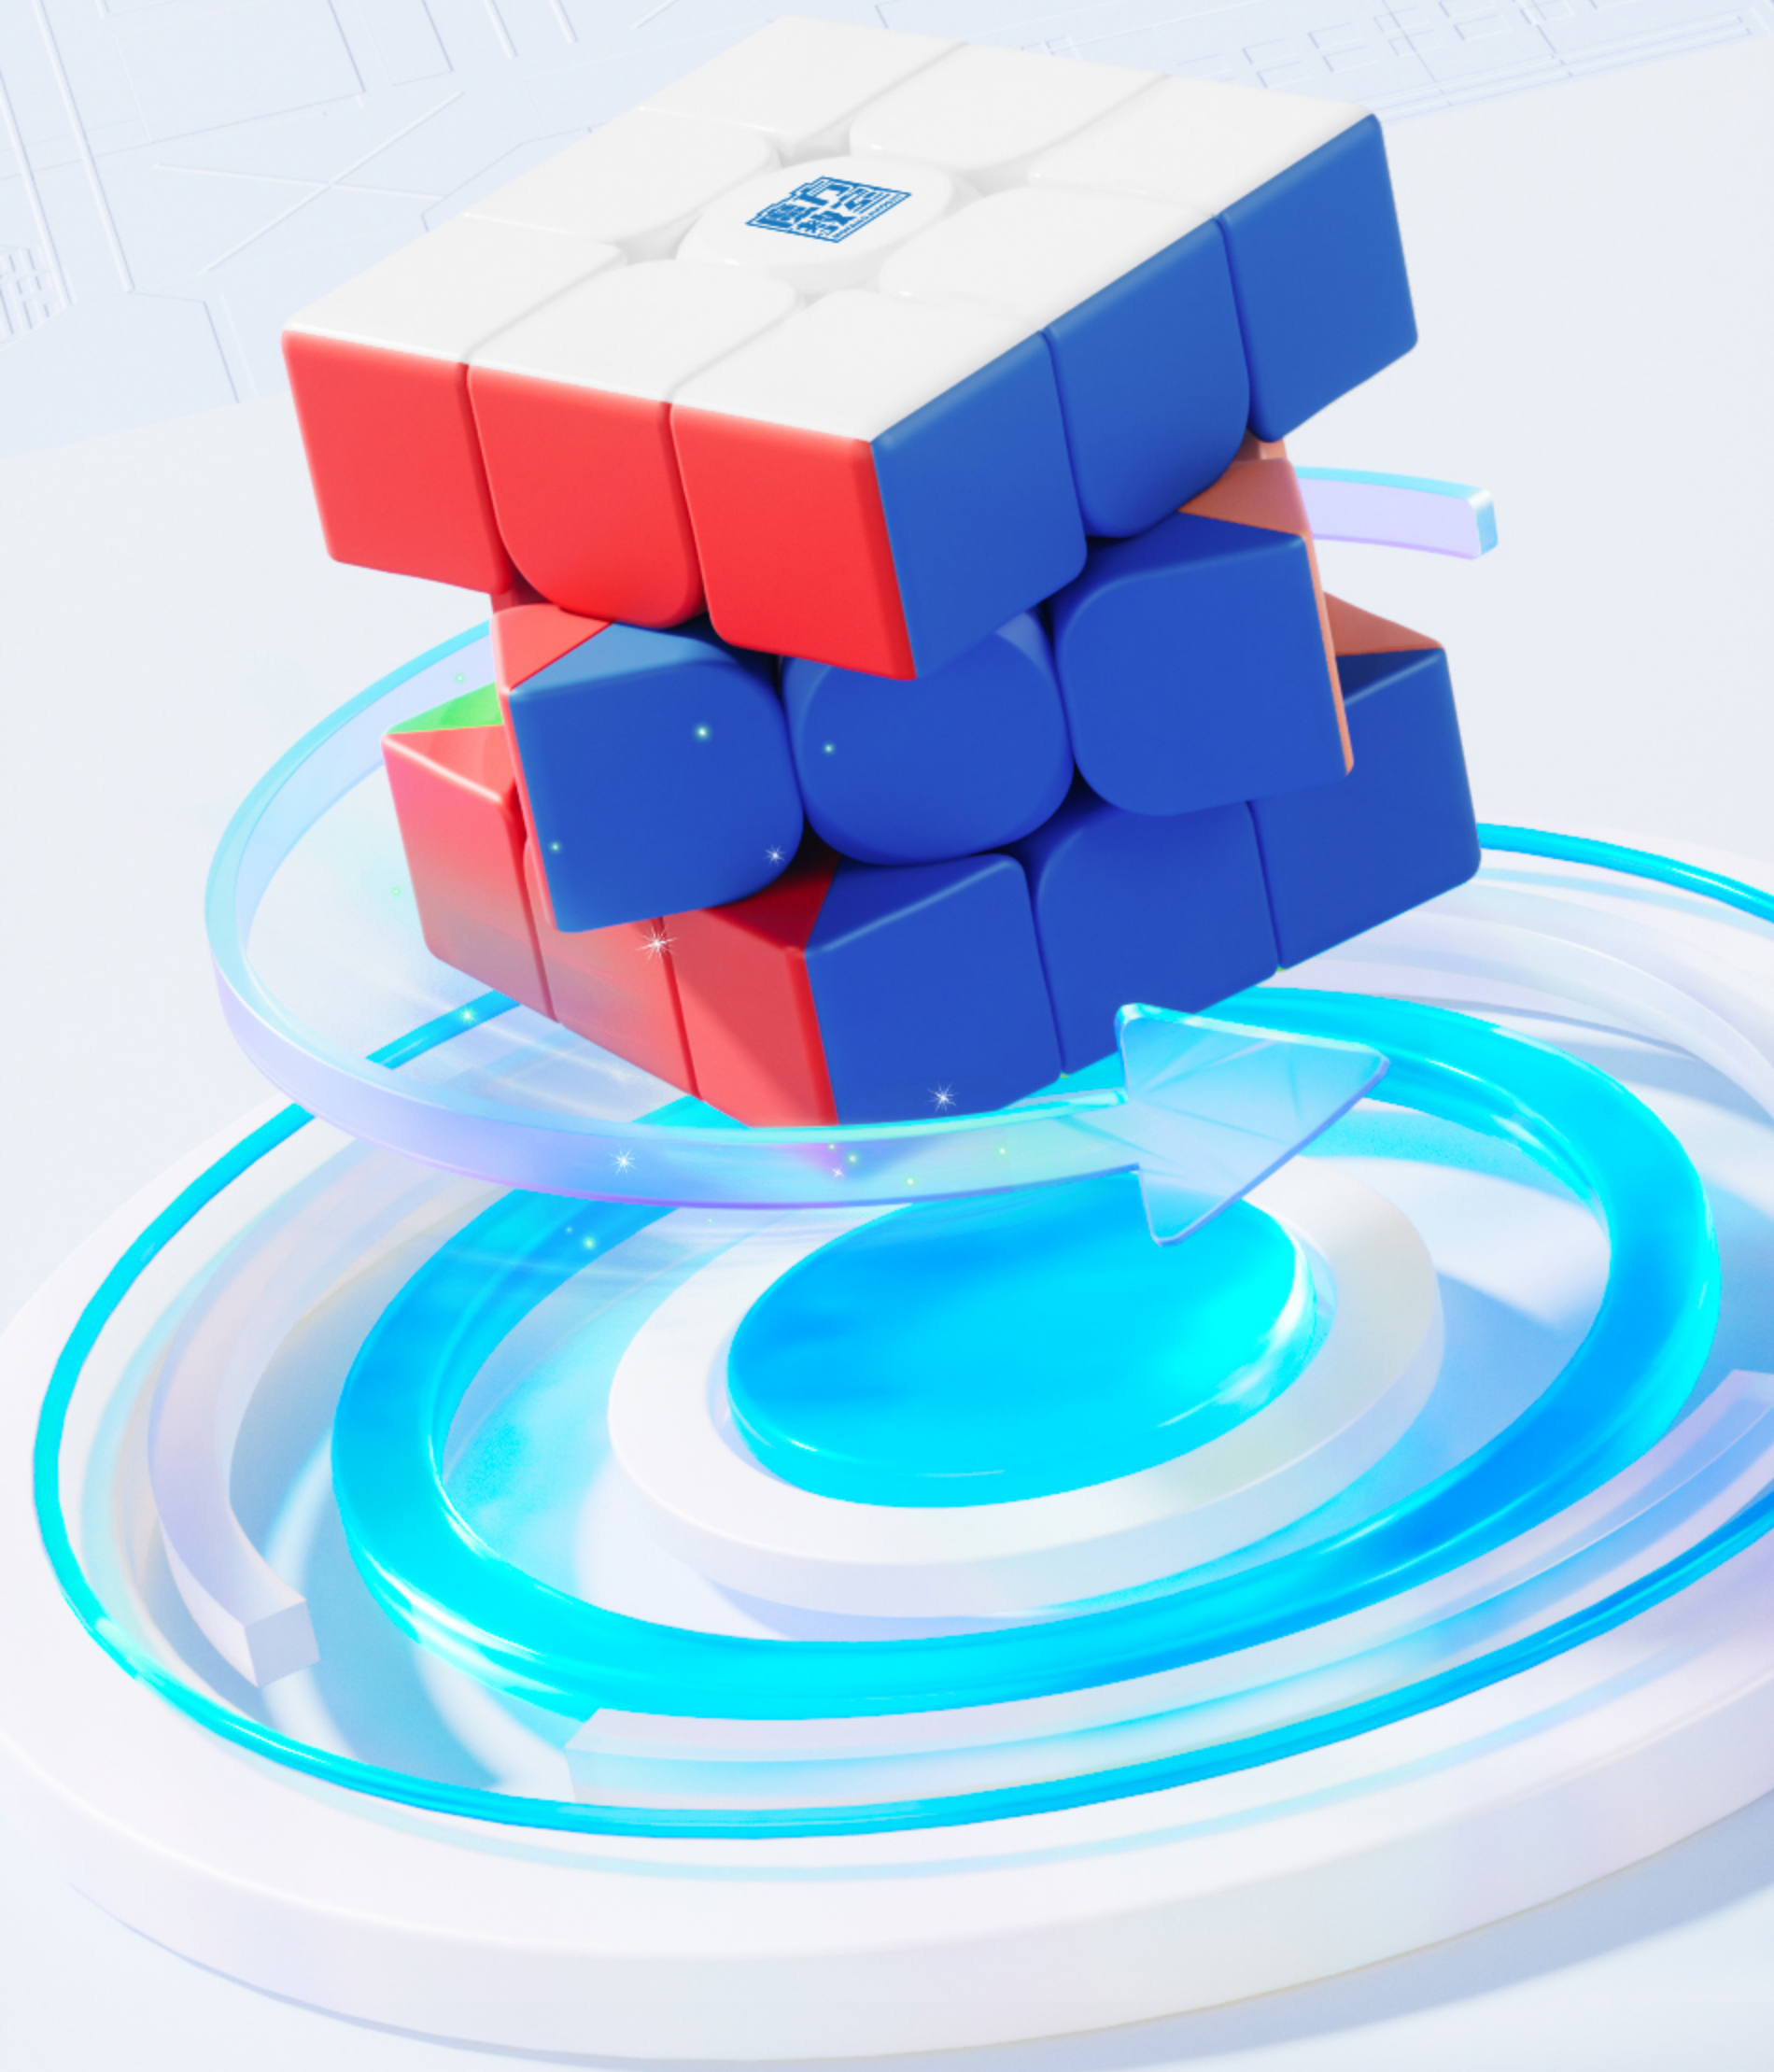

Built-in elasticity adjustment system, use a screwdriver to adjust the overall elasticity of the cube according to your preference.

MOFANGJIAOSHI

Smooth Feel, Born for Speed

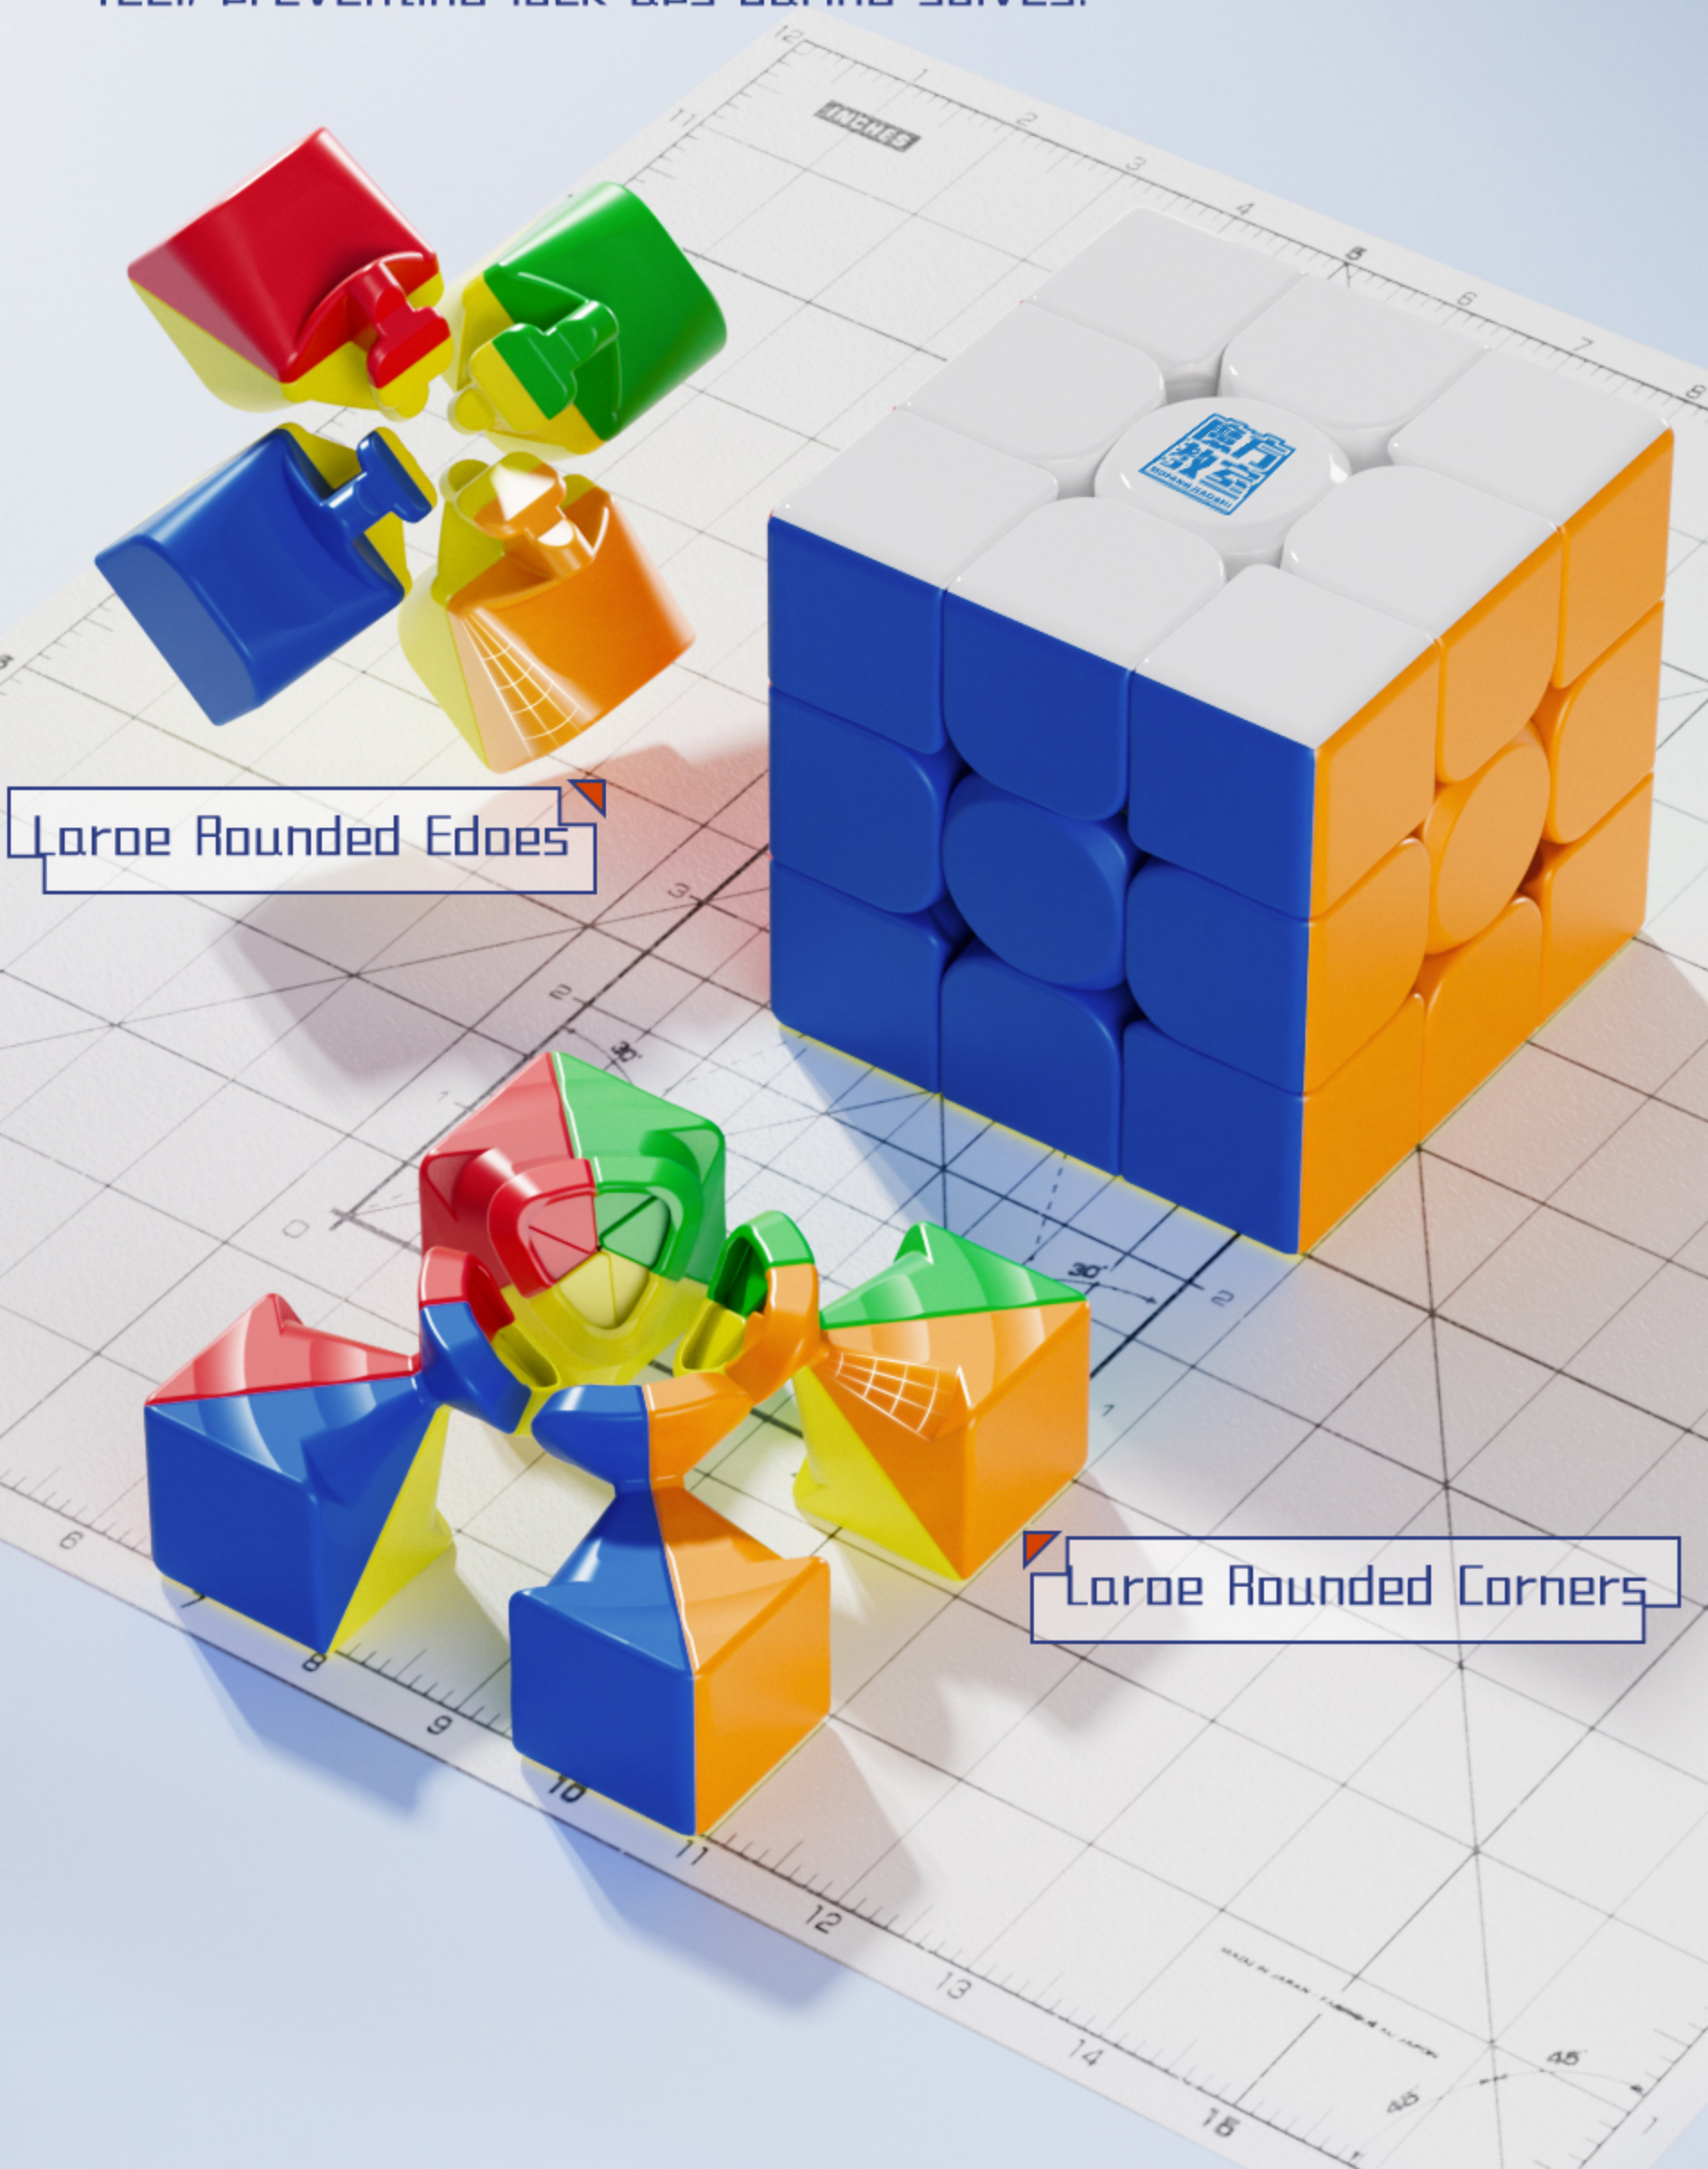

Overall turning is smooth and steady, no sense of lock-up, giving the cube a good hand feel and decent performance.

MOFANGJIAOSHI

Rounded Corner Design to Prevent Lock-ups

All edges, corner pieces, and inner corners are designed with large rounded corners for smooth feel, preventing lock-ups during solves.

MOFANGJIAOSHI

Frosted Appearance for Delicate Touch

The surface is finely frosted, providing a delicate touch.

MOFANGJIAOSHI

Speed Structure with Great Corner-cutting Ability

The inner layer of the cube adopts an integrated friction surface design, with tightly combined edges and corners for great corner-cutting ability.

MOFANGJIAOSHI

For Competitions
Accurate and Precise

Timing accurate to the millisecond, letting you stay highly sensitive to time from start to finish, helping you improve your records.
