HuaMeng TG

The Grand Realm, Show Your Skills

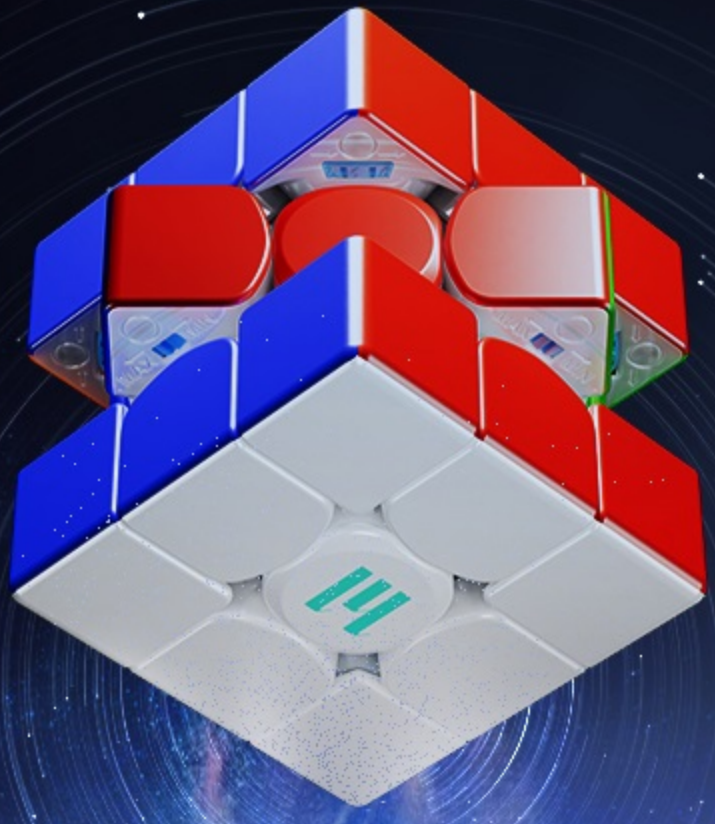

6-Level Core Magnets | 1620 Different Feels |
5-Level Edge Magnet Strength

- China Has a Dream, Creativity Without Limits -

Why Choose HuaMeng TG?

Top Competition-Level Configuration with 1620 Different Feels

6-Level Core
Positioning Force

5-Level Edge
Positioning Strength

MagLev System

9-Level Elasticity
Adjustment

6-Level Tension
Adjustment

Digital Dual
Adjustment System

8 Core Magnets

88 Magnetic Particles

Edge Repulsion

Circular Groove
Anti-Sticky

Integrated
Friction Surface

Internal and External
Anti-Twist Corners

HuaMeng TG

The New Benchmark for Cube Feel

Comes with 1620 Different Feels

Help You Sweep the Field and Realize Your Dream on Stage

1620

Central Digital Dual Adjustment

54 Different Tension Feels

Inspiration , Triggered in an Instant

Adjustment by Hand

9-Level | Central Elasticity

MagLev Version [1]

Central MagLev Technology, Energy Storage, Noise and Resistance Reduction

Spring Version[2]

High-Precision Spring Adjustment with Crisp Mechanical Sound, Immersive Elasticity Adjustment

6-Level | Tension

Millimeter-Precision Tension Adjustment for a Detailed Tension Experience

New Tension Adjustment Ring Design,

Just Pull andTwist toMatch the Compass for Tension Adjustment

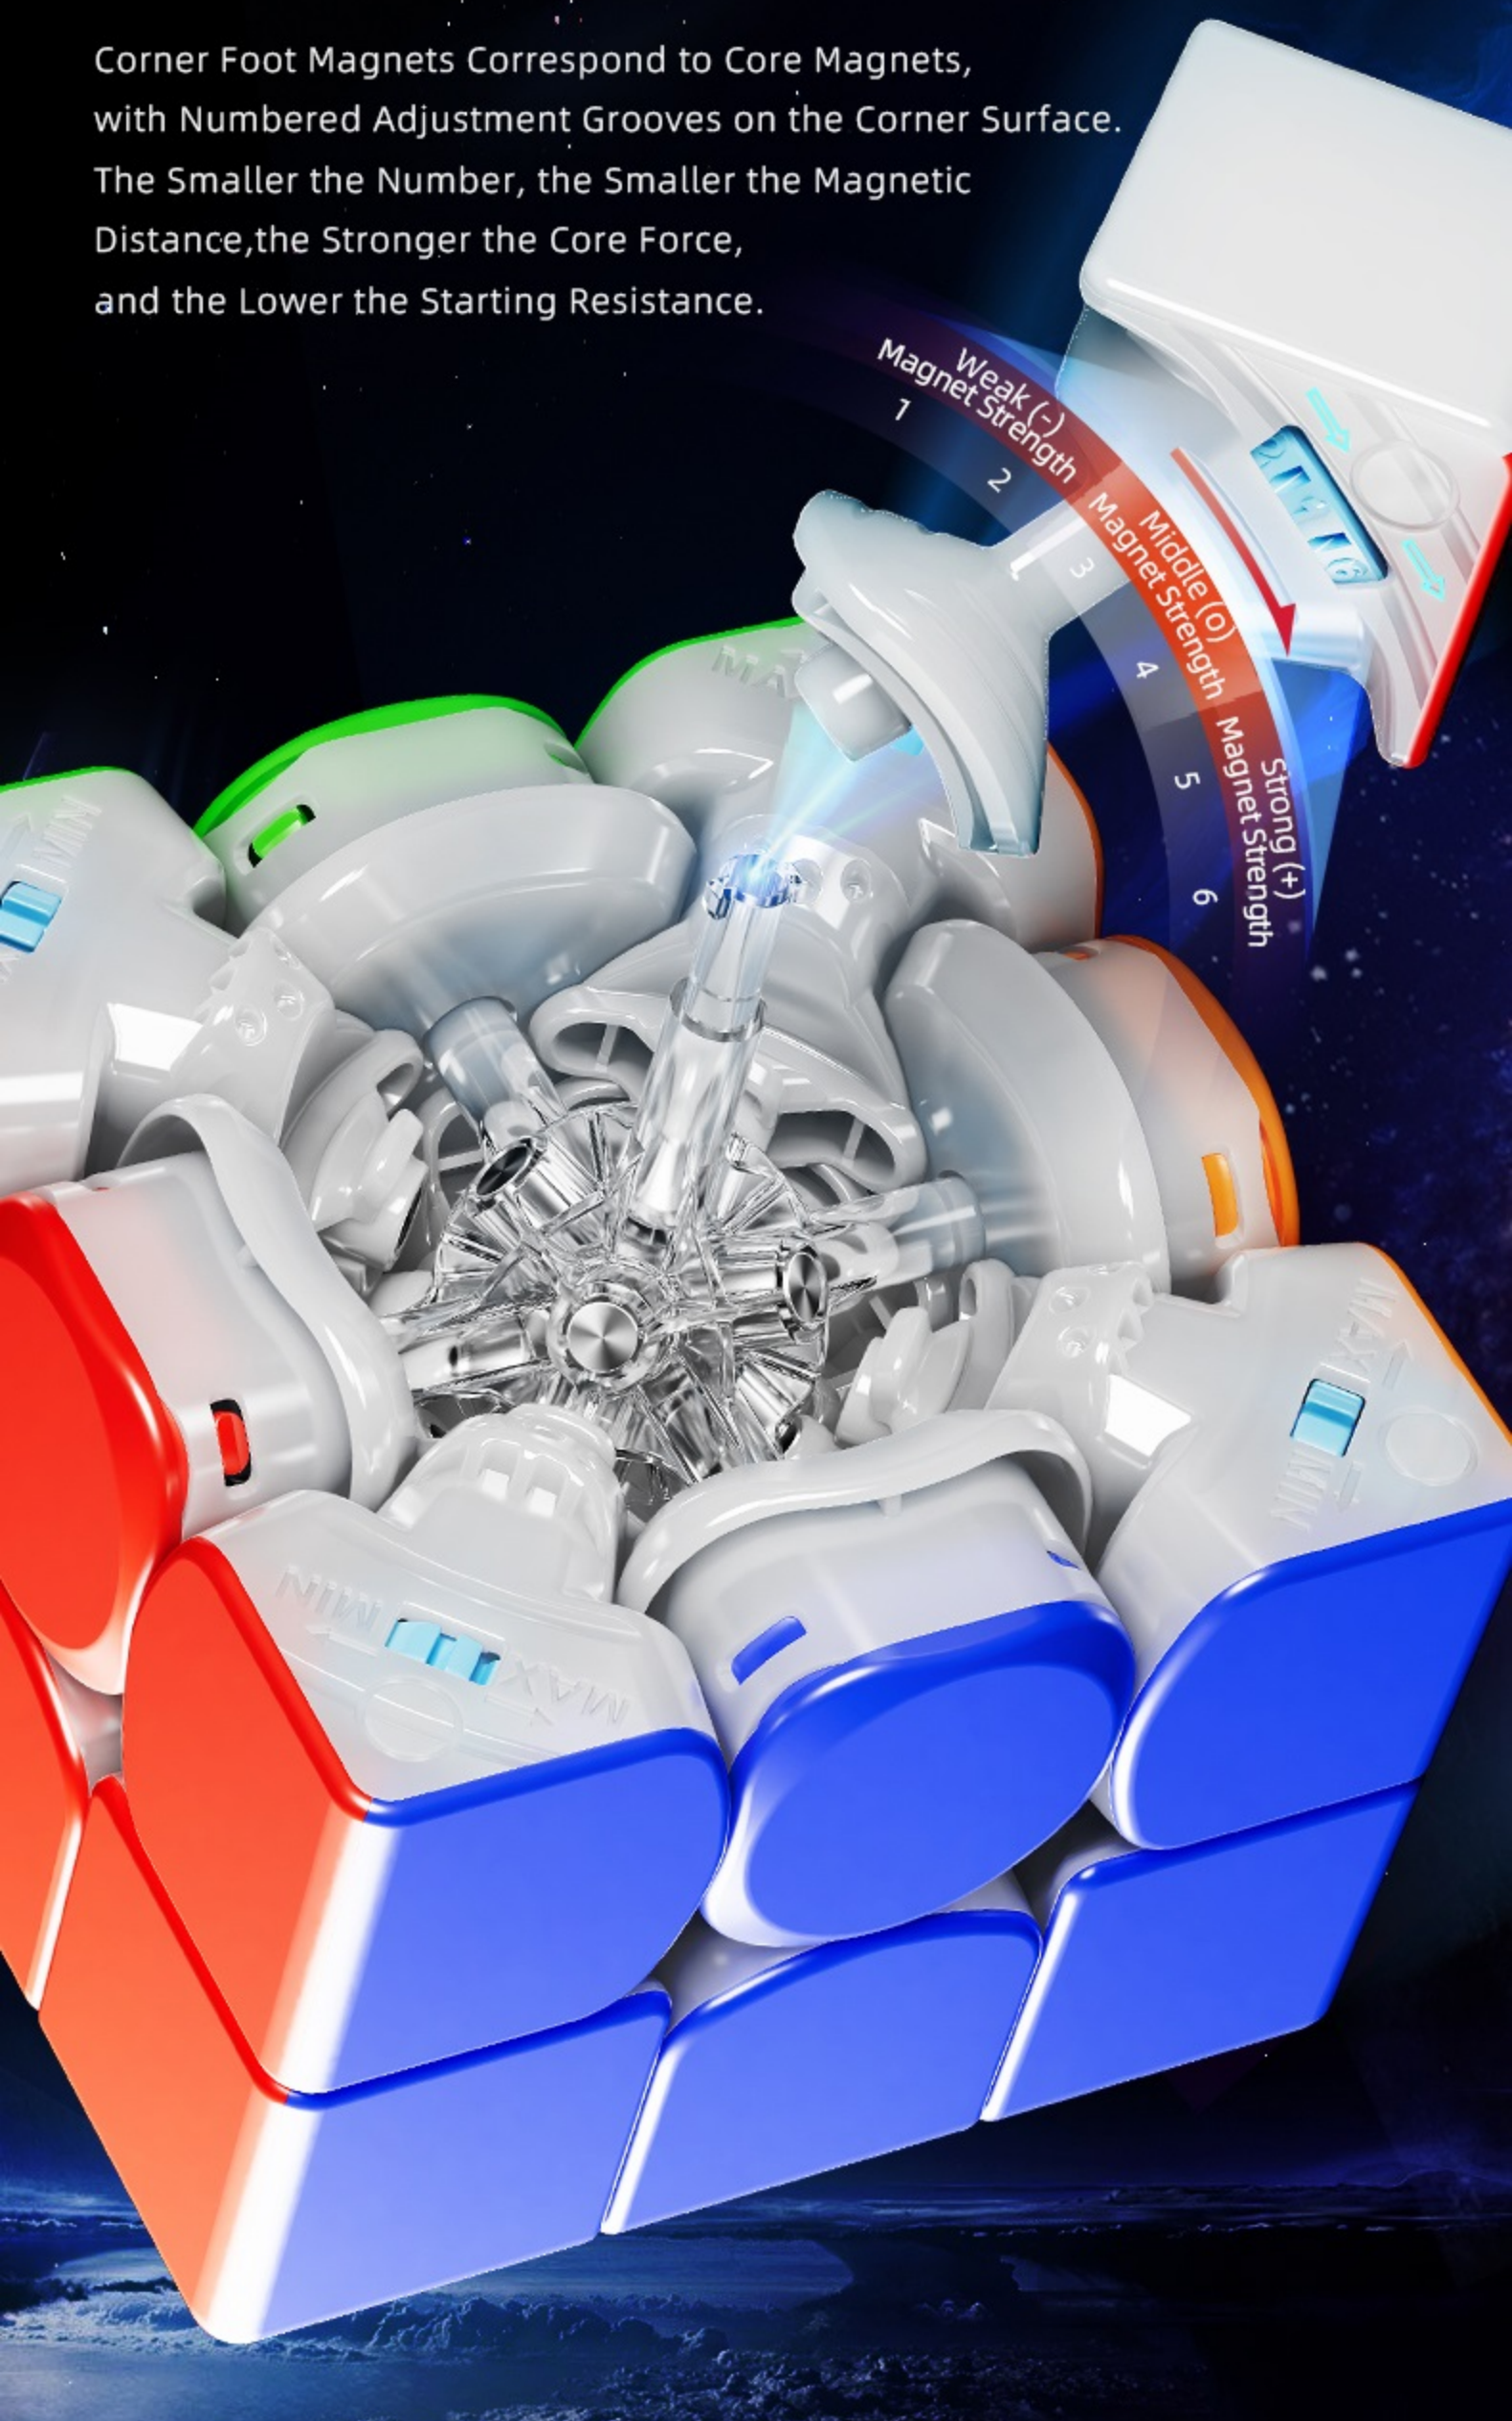

Dual Magnetic Adjustment

30 Types of Magnetic Feels

Bursting Speed at Your Fingertips

6-Level | Core Positioning Force

Corner Foot Magnets Correspond to Core Magnets,
with Numbered Adjustment Grooves on the Corner Surface.
The Smaller the Number, the Smaller the Magnetic
Distance,the Stronger the Core Force,
and the Lower the Starting Resistance.

5-Level | Edge Positioning Force

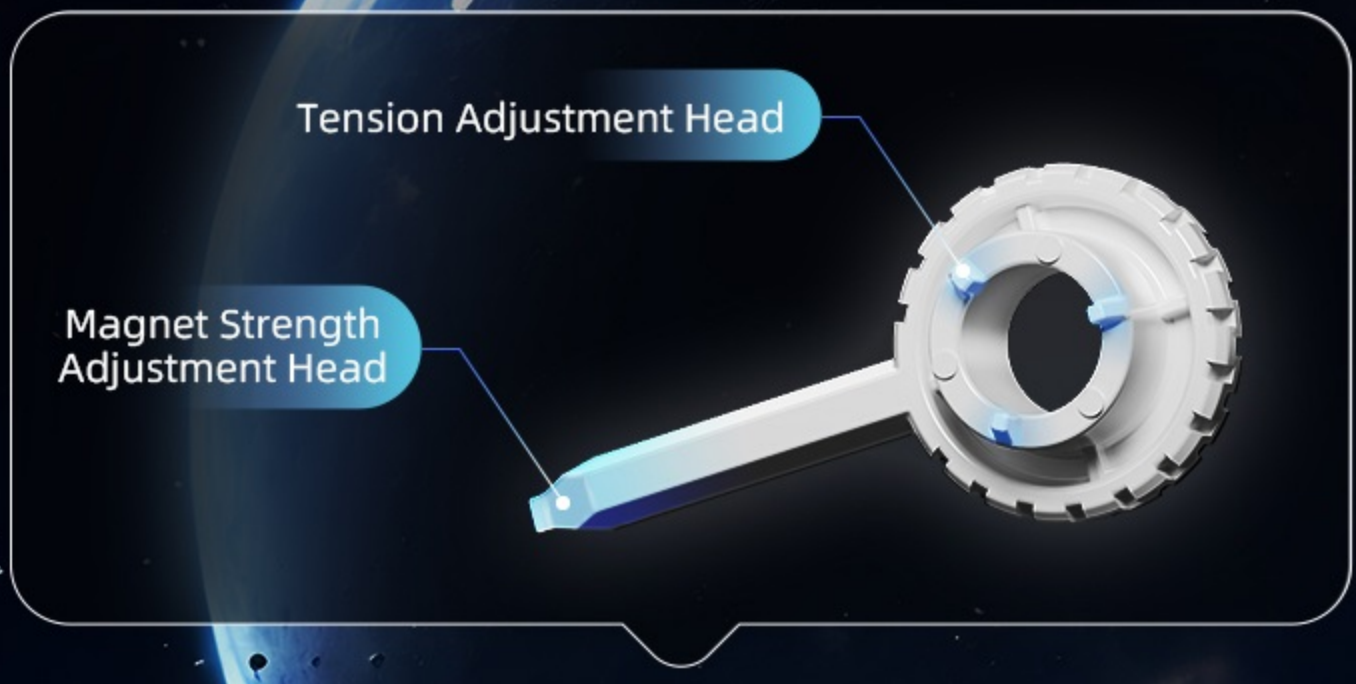

Edge and Corner Magnets Attract Each Other, with Numbered AdjustmentGrooves on the Edge Block Surface
Easily Control the Edge Positioning Feel
and Customize Your Own "Magnetic Tension"

Cube Key

Small Cube Key, Big Possibilities.

Newly Upgraded Adjustment Tool,
Unlock the Key to Burst Speed Feel

Magnetic Positioning

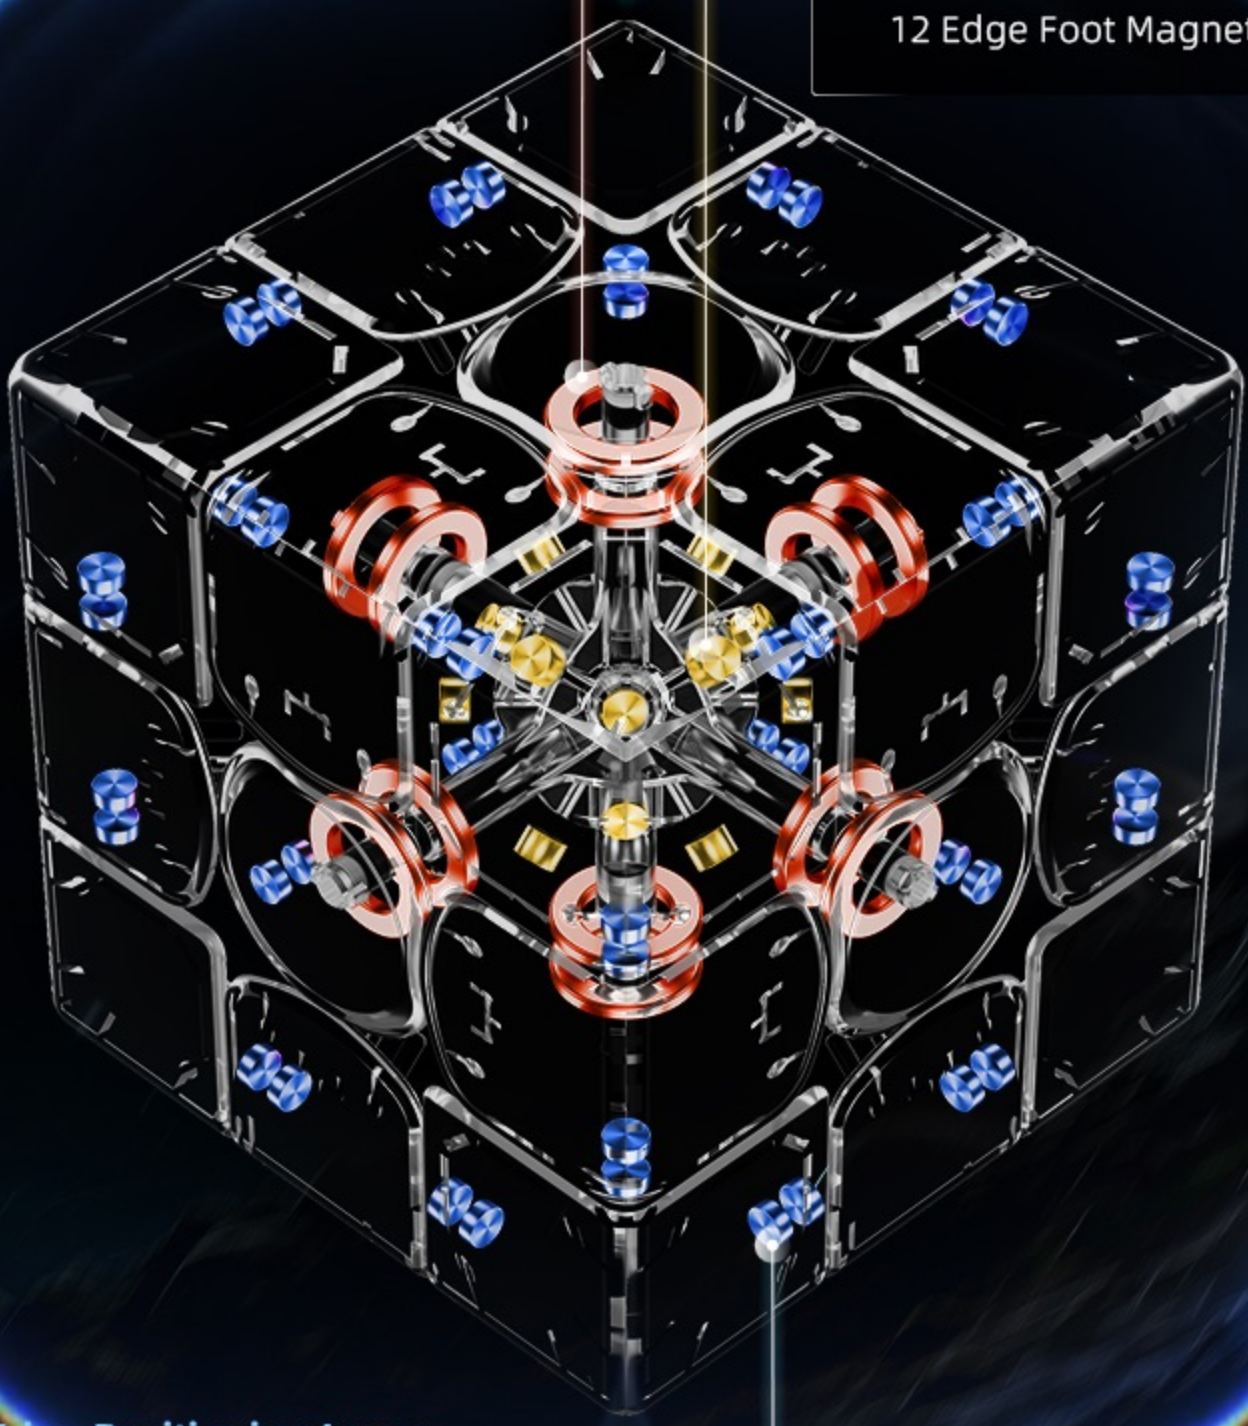

88 Magnetic Particles

Ignite the Racing Frenzy

Scientifically Arranged Multi-Layer Magnetic Positioning
to Create a Perfect Magnetic Feel
Precisely Attached Magnets for No Looseness or
Jamming, Boosting Your Speed Performance

Center Block Magnetic Layer
12 Magnets
12 Magnetic Suspension
Particles on the Center Block

Core Positioning Layer
28 Magnets
8 Core Magnets,
8 Corner Foot Magnets,
12 Edge Foot Magnets

Edge Positioning Layer
48 Magnets
24 Edge Magnets,
24 Corner Magnets

Core Positioning 2.0

Core Resistance Reduction

Explosive Performance, Incredibly Smooth

New Eight-Hole Integrated Core, Crystal Clear,
with Precisely Embedded Magnets
Core Positioning 2.0 Greatly Enhances Core Resistance Reduction,
Providing a Smooth, Unobstructed Feel

Basic Core	Core Positioning 1.0	**Core Positioning 2.0**
Six-Pillar Integrated Classic Core	8 Core Magnets 8 Corner Foot Magnets	8 Core Magnets 8 Corner Foot Magnets 12 Edge Foot Magnets

Edge Repulsion

Play Fearlessly
Achieve Perfect Positioning

A "Divine" Stroke, Turning Repulsion into Assistance,
Creating a Dreamlike Re-alignment Moment
30°Automatic Re-alignment,
Reducing Jamming Due to Incomplete Turns

Internal and External Anti-Twist Corners

Strict Defense Inside and Out

Focus on Speed without Distractions

Internal Triangular Anti-Twist Corners

The Base of the Edge and Corner Pieces Fit Tightly, Forming a Strong Triangular Shield, No Fear of Popping

External Right-Angle Anti-Twist

Sharpened Corner Piece Curves, Preventing Corner Twisting During High-Speed Turns, Ensuring Secure Speed Performance

Craftsmanship

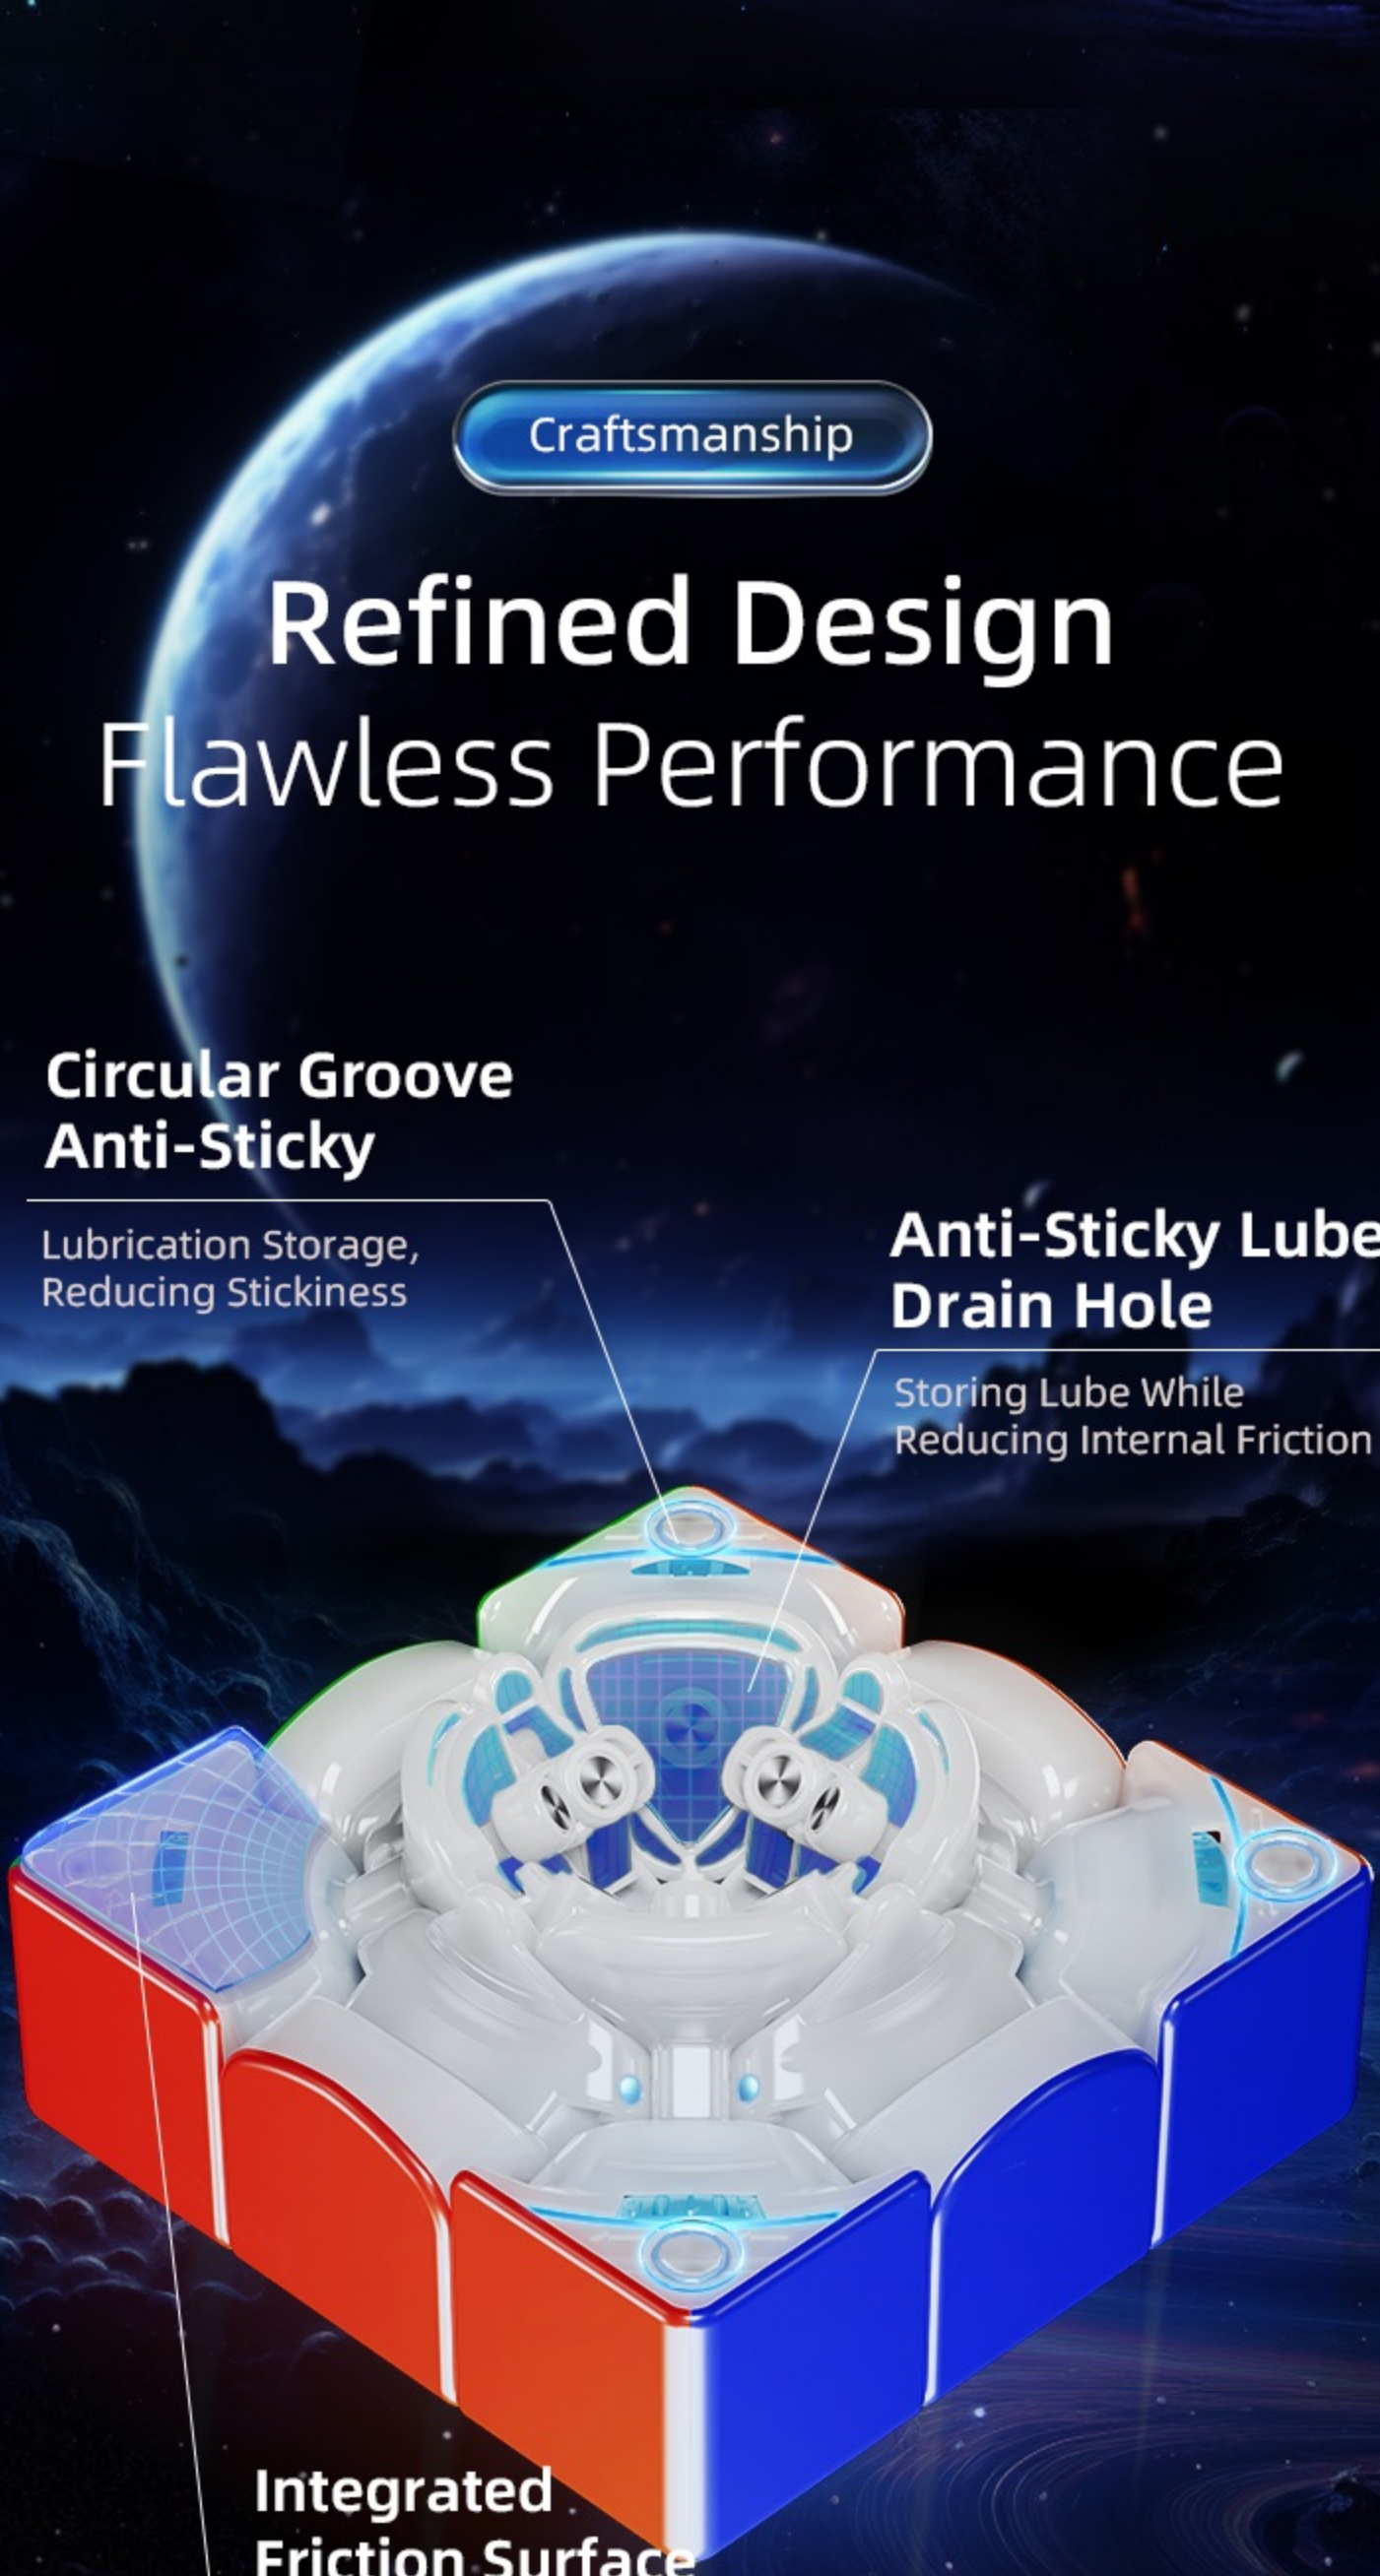

Refined Design
Flawless Performance

Circular Groove Anti-Sticky

Lubrication Storage,
Reducing Stickiness

Anti-Sticky Lube Drain Hole

Storing Lube While
Reducing Internal Friction

Integrated Friction Surface

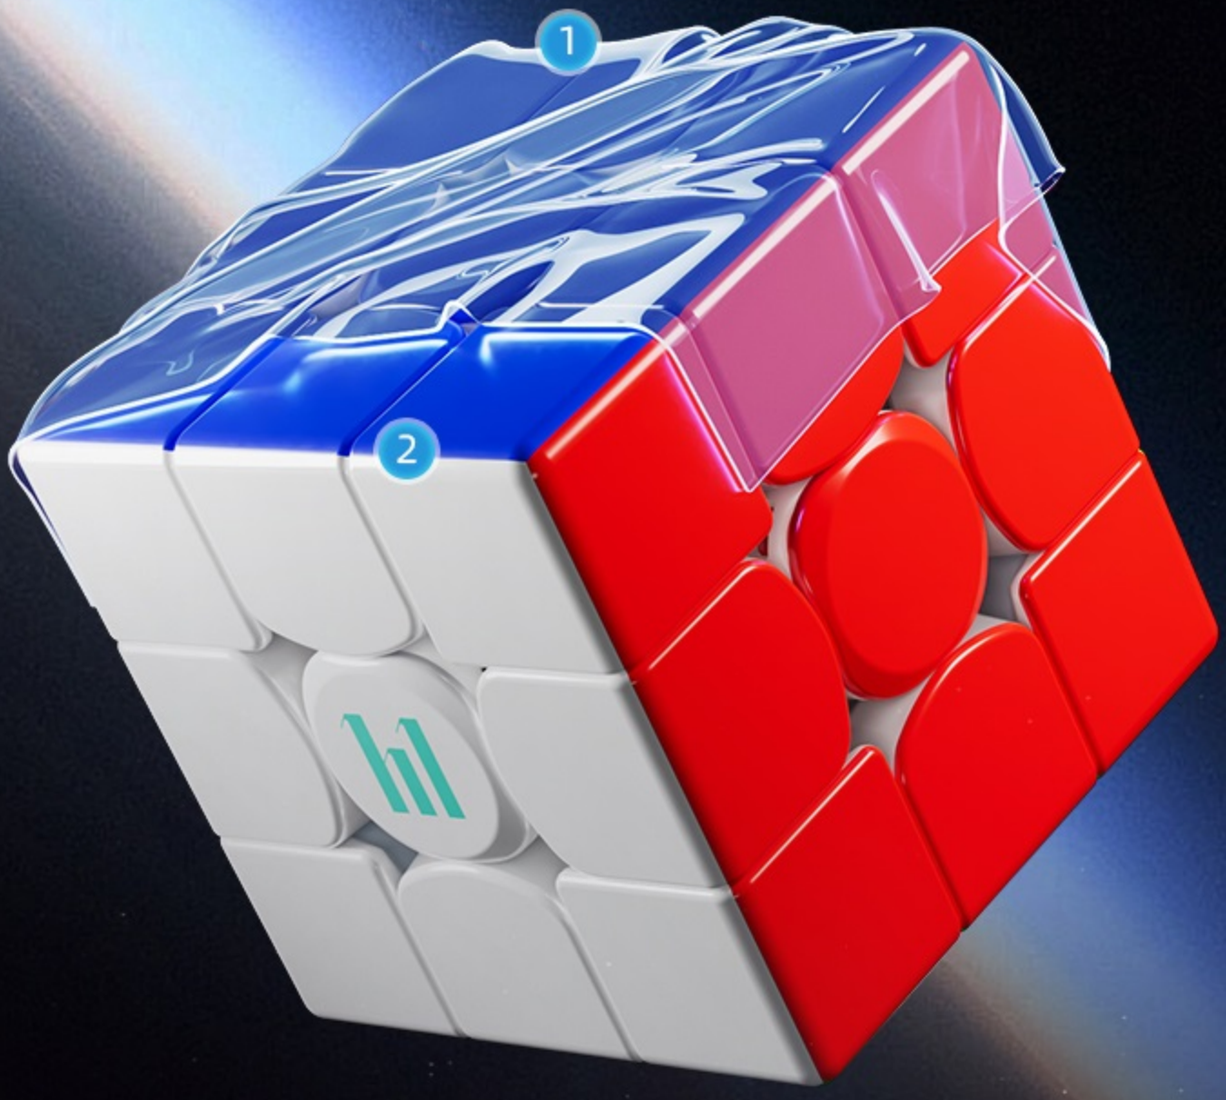

Enhancing Cube Stability

Exterior Craftsmanship

Vibrant Six Colors
Cool and Stunning Debut

① Cool Magic Cloth , Anti-Slip with No Marks

② Textured Matte Finish, Scratch-Resistant and More Durable
