WeiLong WRM V10

# Full Core Revolution

Ball Core Positioning 3.0 | Dual Adjustment Design
| 8-Level MagLev & Tension

Center Dual Adjustment Design

# Know In Your Heart, Bursting with Inspiration

64 Levels of Tension

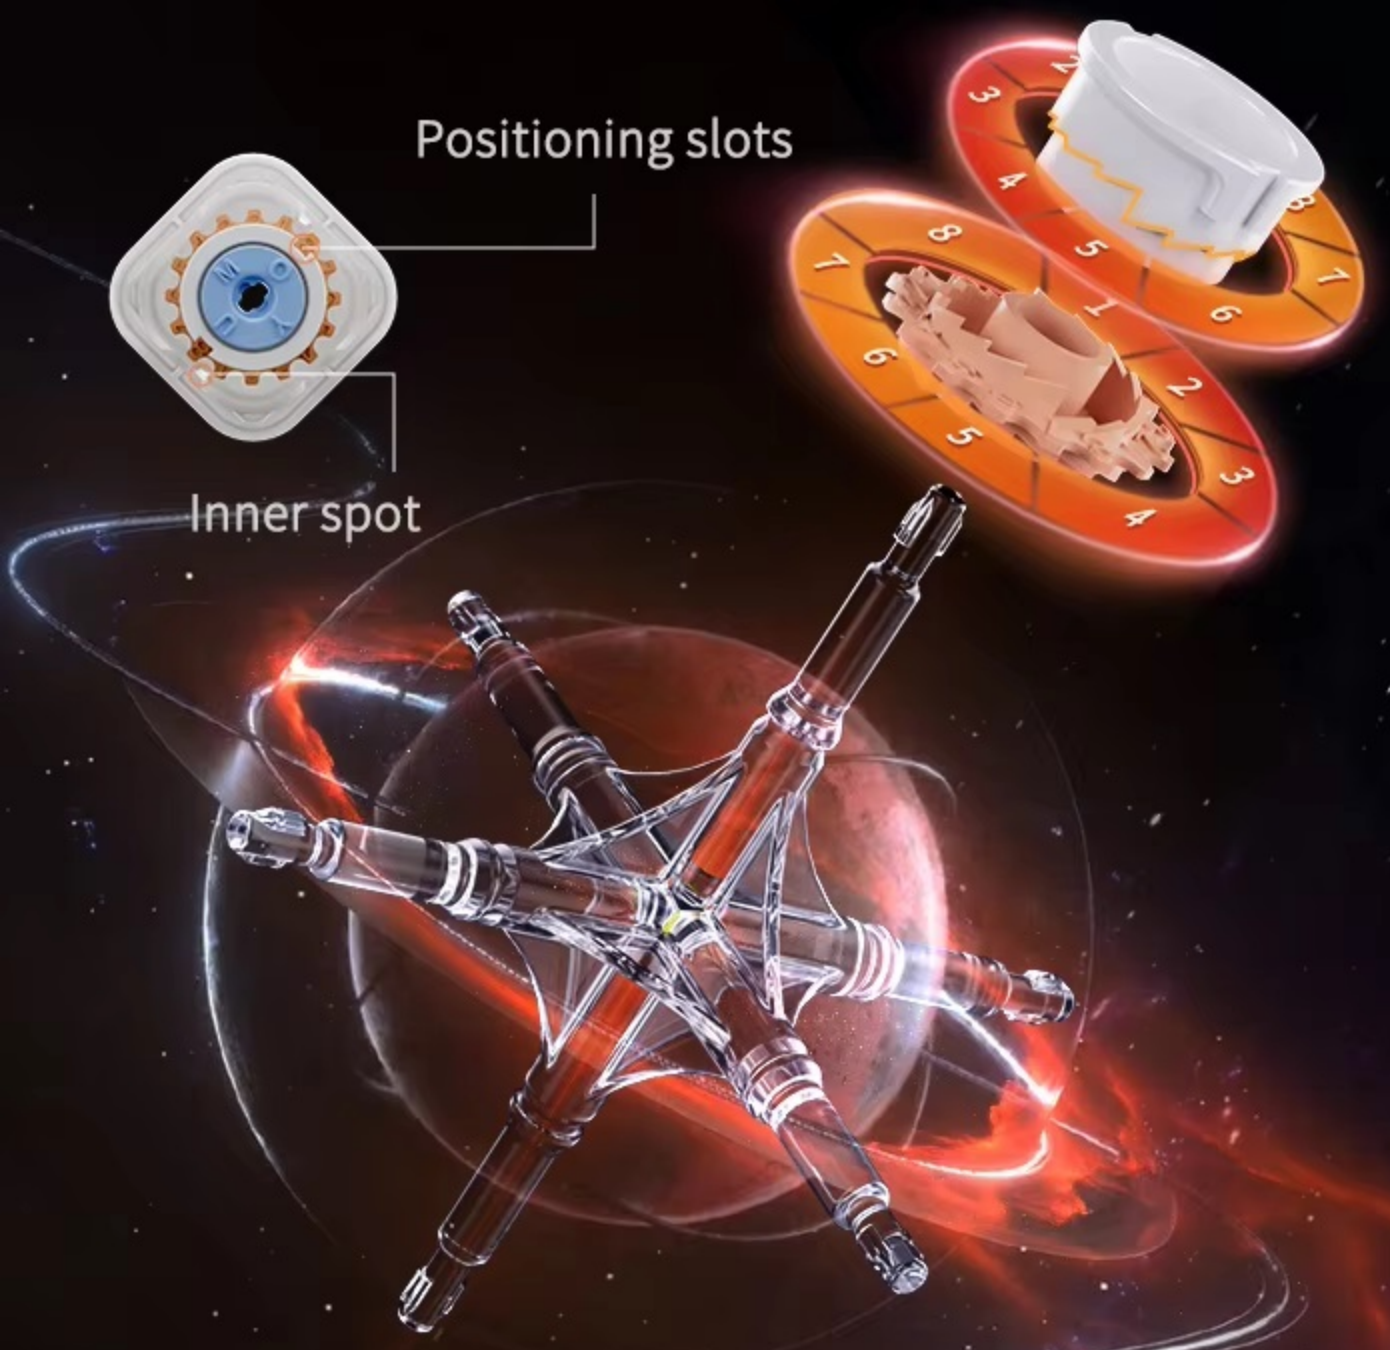

## Clear "Tuning" Options, Perfect Experience

### Digital Tension Adjustment

Clockwise rotate to adjust 8 levels of tension,
corresponding to the level of numbers on the inner spots.

### Digital Elasticity Adjustment

adjust 8 levels of elasticity, with corresponding numbers
for elasticity slots on the positioning slots

6-Pillar Integrated Core

## Mastering with One Core, Stable as Ever

The newly designed integrated core can be called the framework of the cube,
providing not only stable support but also firmly connecting
the dual adjustment center system,
making the cube tighter, tuning more convenient, and speeding more stable.

Cube Wand

# Precise Locking, Like a "God's" Aid

Congratulations! You have discovered the new function of the cube wand!

Ball Core Positioning 3.0

# Core Magnetization King Full Core Positioning of Core-Edge-Corner Magnets

Ball Core Positioning integrates with the cube to achieve full core-edge-corner alignments

With 20 core magnets, the core magnetization is maximized

Works so hard, only for the ultimate turning experience

## Ball Core Positioning 3.0

Full Core-Edge-Corner Magnet Positioning

Up to 20 core magnets

VS

## Other Core Designs

Single or Unable to Achieve Full Positioning

Lack of core magnets or few core magnets

Magnetic System

# Hundred-Magnet Assembly Displaying the Style of the Strong

100 magnets assist in positioning, easily dominating the field

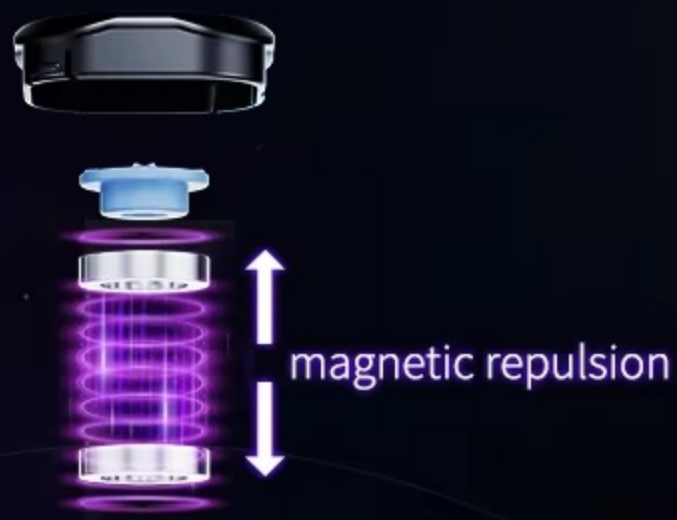

Making every moment of yours a highlight

Magnetic System

# Dual-Drive Magnetism Inherent Racing Genes

The combination of magnetic repulsion and attraction is a dominating force from the start .Suspension reduces friction, returning instantly, showcasing smoothness between pushes and pulls

V-Shaped Cross-section

# Lasting Smoothness
# Visible Inner Beauty

V-shaped cross-section design enhances friction track integrity
Combined with a rounded square center structure,
witnessing more than just speed and passion

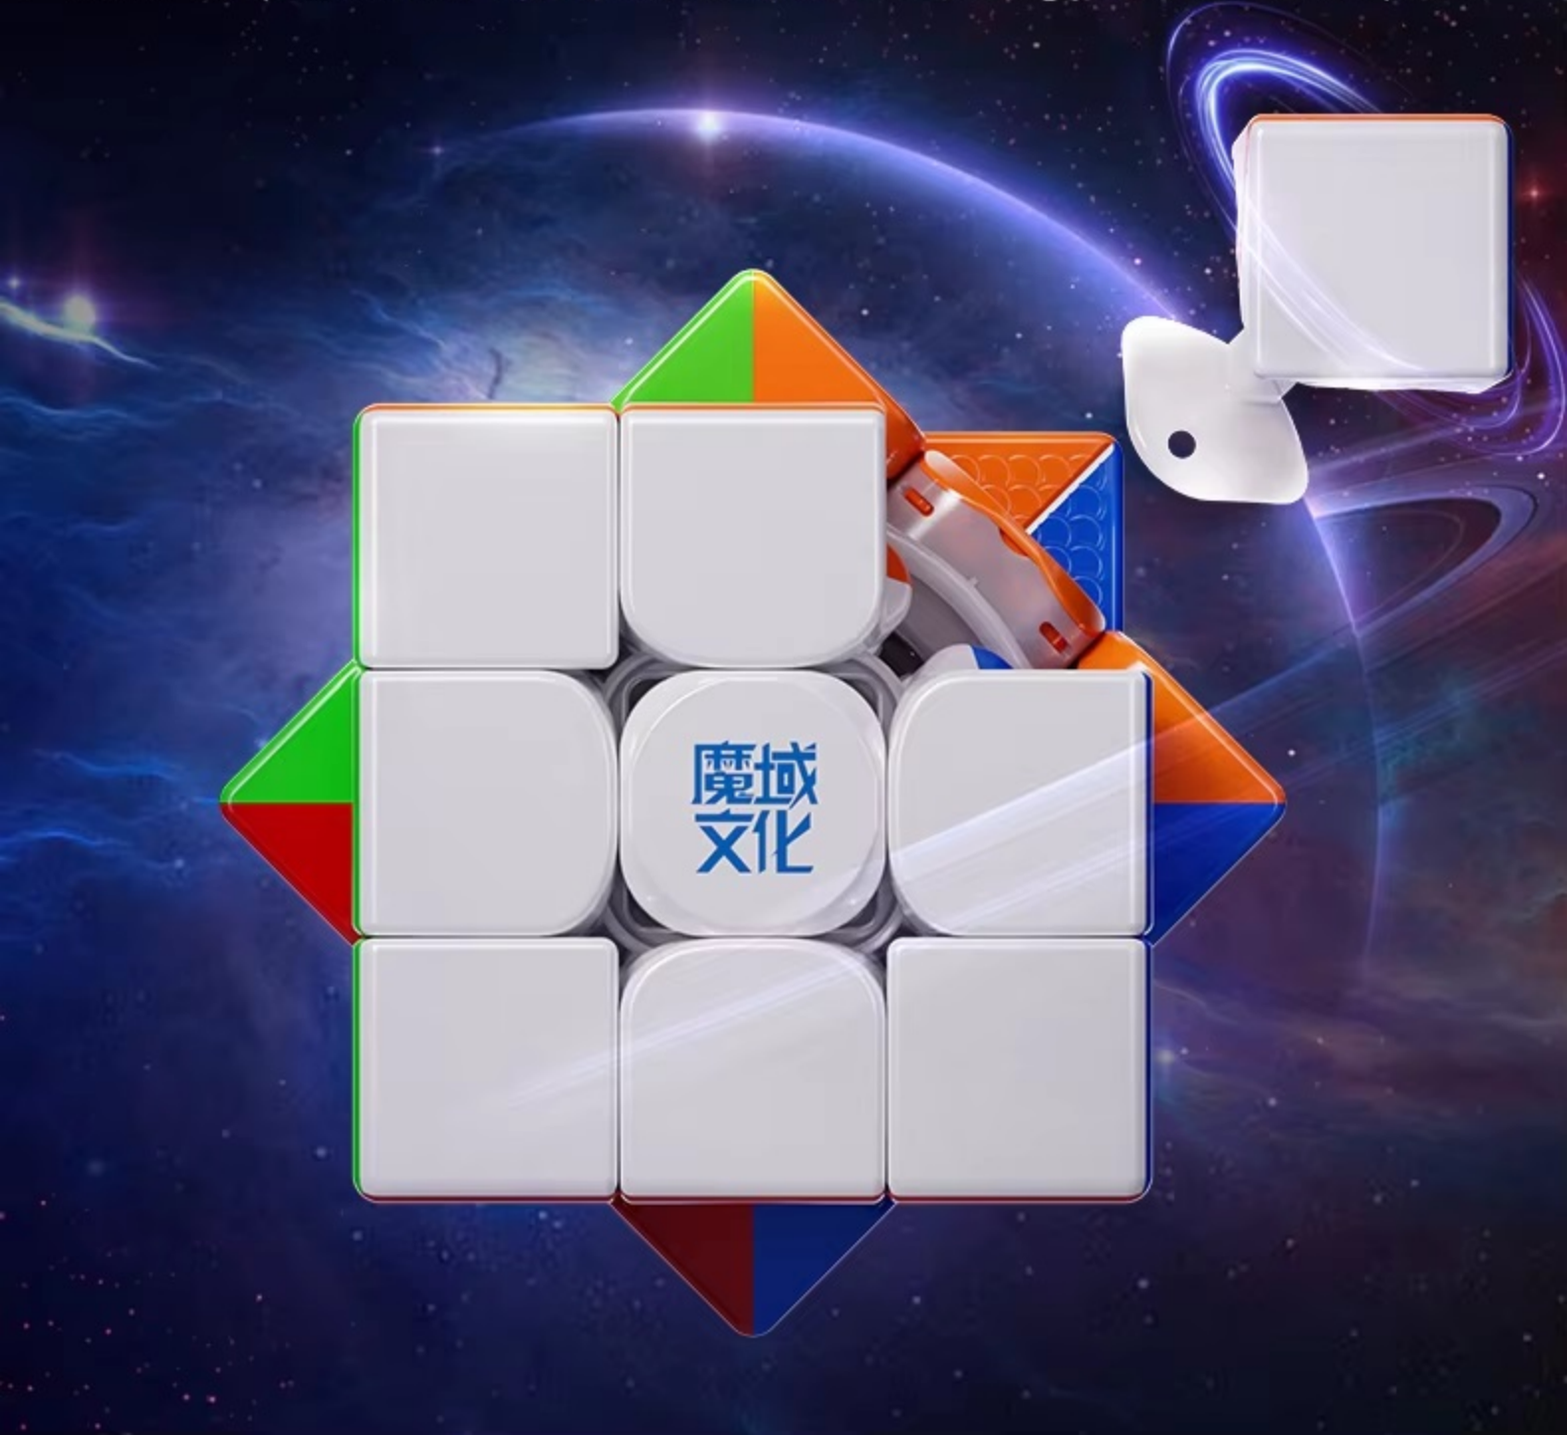

External Right-Angle Anti-Corner Twist

# Anti-Pop Feet
# True Skills, Can't Hide

External right-angle anti-pop feet design effectively prevents popping edges and scattered assemblies

Never drop the chain at critical moments, ensuring you burst with speed

Exterior Craftsmanship

# Two Major Versions

Finer Matte Version  Smoother Magic Cloth Version

# Quality Assurance

Selected Materials for Peace of Mind

CCC National Certification

Official Factory Inspection

一种使用磁铁排斥力的魔方悬浮中心架

(57)摘要

本实用新型公开了一种使用磁铁排斥力的魔方悬浮中心架，包括中心轴，所述中心轴上固定设置有若干安装柱，每个所述安装柱上均固定设置有中心块，每个所述中心块内均设有与之对应的悬浮机构，每个所述安装柱上均设有与中心块对应的安装机构，每个中心块远离安装柱的一侧均固定设置有盖板，且所述中心块上开设有与盖板对应的卡槽。本实用新型通过磁铁间的相斥力实现了中心块的悬浮，从而大大降低了魔方使用时的摩擦力和噪音，使得魔方转动时更加顺滑和安静，且磁铁稳定的排斥力让魔方每个中心块受压力均匀，大大提高了魔方使用时的手感。

(54)实用新型名称

一种魔方

(57)摘要

本实用新型公开一种魔方，包括磁力壳、多个第一磁性部件、中心体和角块，磁力壳具有空腔，磁力壳上设置多个连通空腔的连通口，各第一磁性部件设置于磁力壳的内壳上，中心体包括轴心部和多个中心轴，轴心部设置于空腔内，各中心轴均一端连接轴心体，另一端伸出相应的连通口，角块连接于中心体，角块上设置第二磁性部件，第一磁性部件和第二磁性部件磁性吸附，本申请的魔方，第二磁性部件是绕随魔方角块围绕轴心进行转动，第二磁性部件与中心体上的第一磁性部件是相吸关系，可以辅助魔方在转至特定或之方体时进行辅助判定，利位容利用第一磁性部件与第二磁性部件的相吸关系进行一定力度的锁定使魔方不易形变。
