Redefining the New Standard for 6x6 Speedsolving

Experience professional-grade performance at an entry-level price

The first 6×6 that truly feels competition-ready from the start.

Not just about solving — it's about growing every turn
Each twist enhances six core abilities:

Observation

Spatial Imagination

Hands-on Skill

Logical Thinking

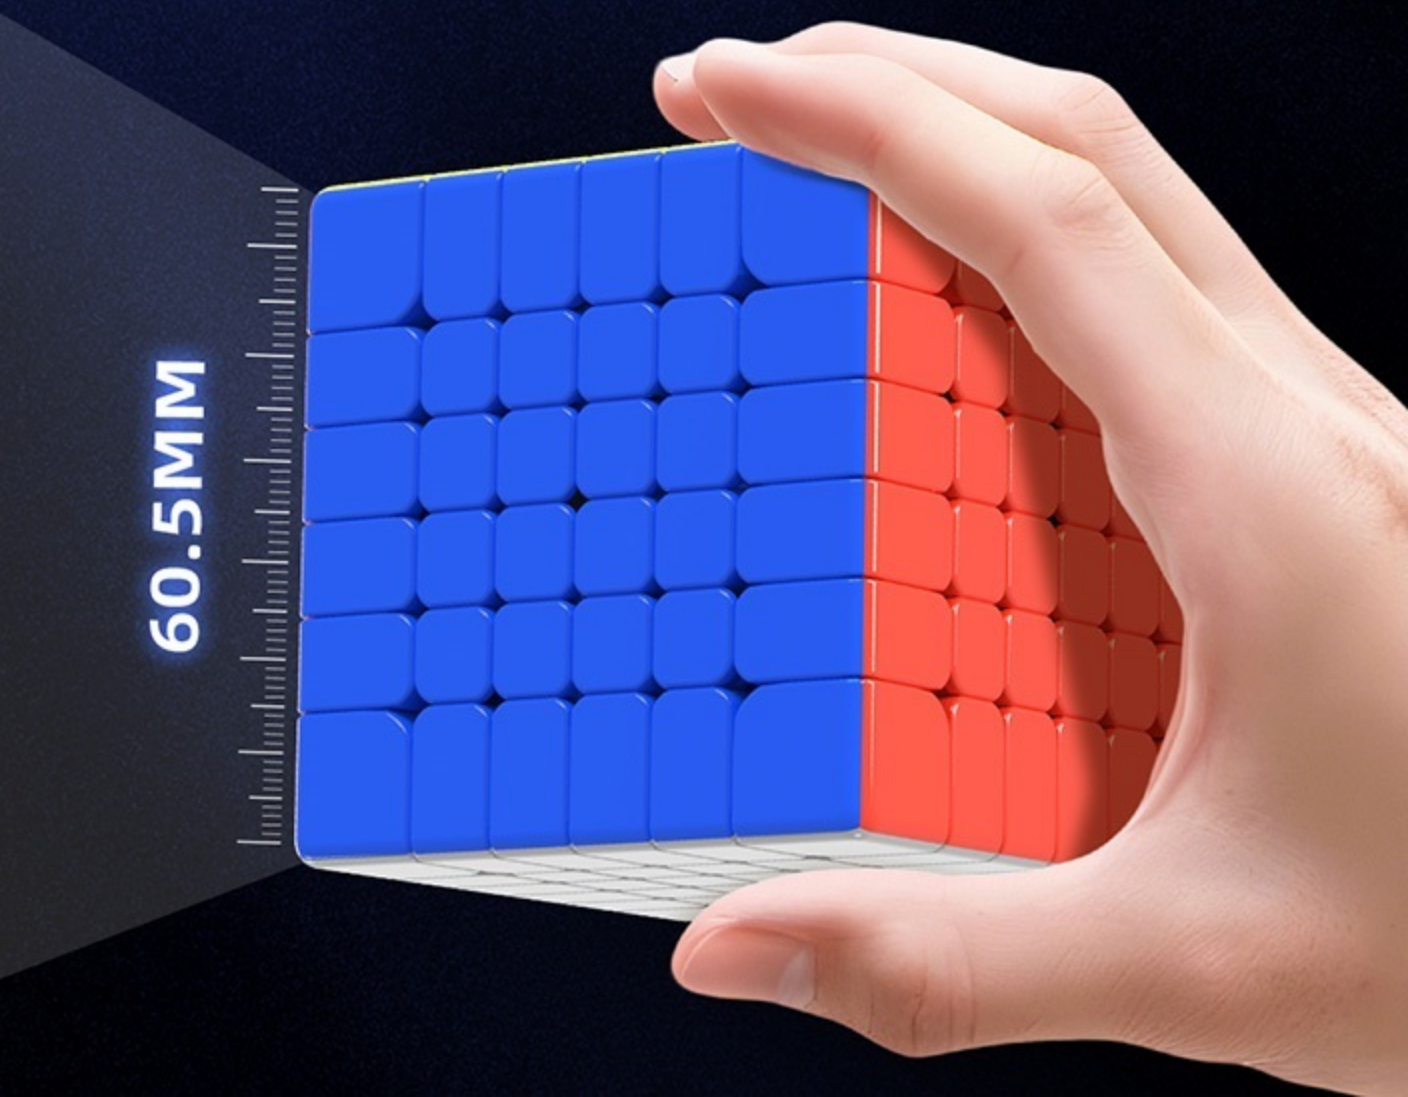

Reasoning

Reactio

Goodbye Bulk, Hello Balance

Compact Size · Lightweight Build · Endless Comfort

A perfectly tuned 60.5 mm design
delivers the ideal hand feel for speedsolvers.

Every gram counts — the lightweight structure keeps your hands fresh even after long sessions.

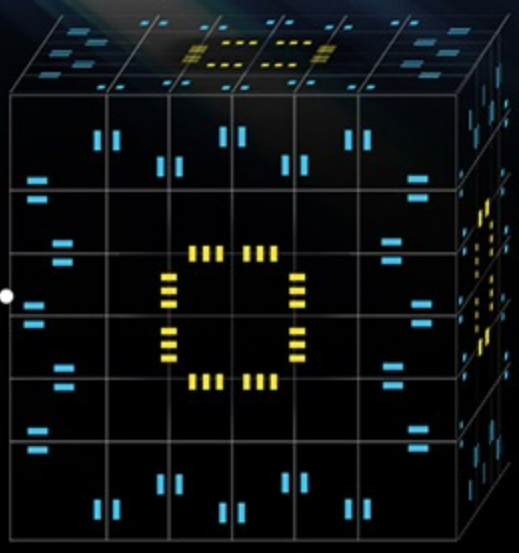

Innovative Dual-Layer Magnetic Positioning System

Stronger alignment, smoother turns, greater control.

The Warrior M 6×6 UV features an advanced dual-layer system

120 magnets in the outer layers and
72 magnets in the inner ones.

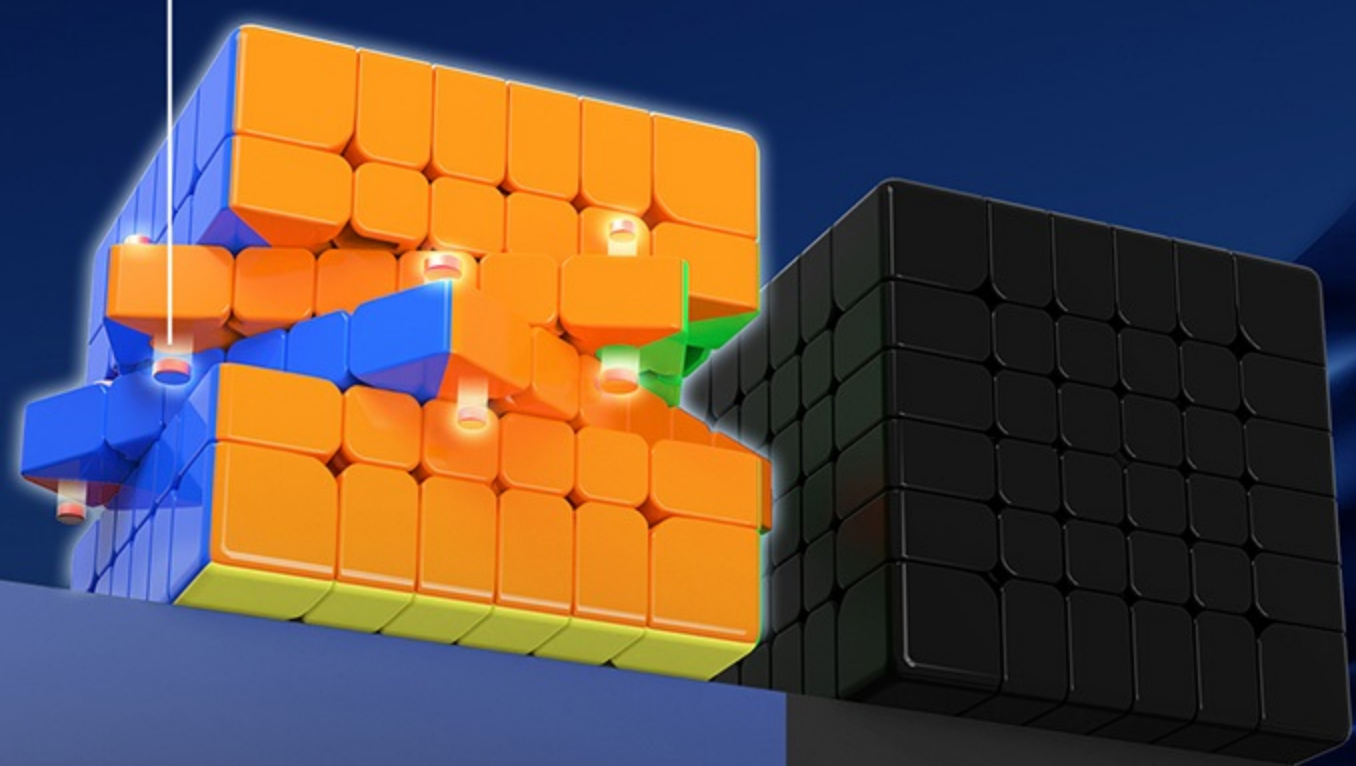

They work in perfect harmony,
giving each move stability,
precision, and speed.

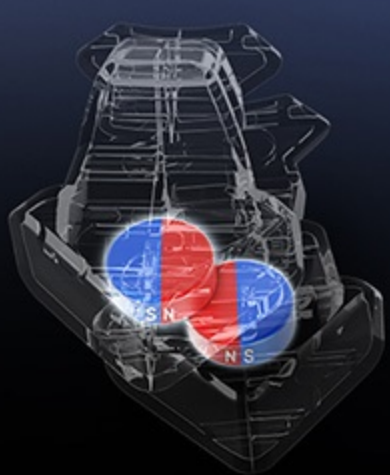

Radial Magnetic Positioning — Smooth, Steady, Superior

The middle layer’ s circular radial magnets ensure effortless alignment without vibration.

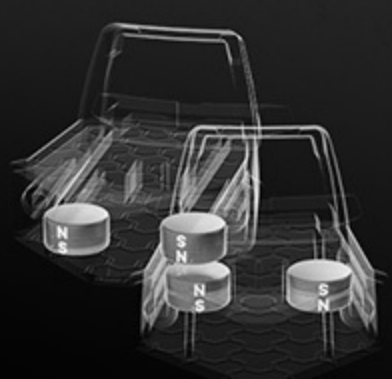

Say goodbye to the jerky feel of traditional dual-magnet designs — this system glides.
