Dual Adjustment System, Fully Evolved Visual Multi-Star Dual Adjustment Mechanism

8 Axis Distance / Elasticity Settings Tool-free, Hand-Adjustable Design

Color-Coded Numeric Display for Fast, Clear Tuning

8 Axis Distance Settings

Rotate Counterclockwise
Higher Number
Tighter Axis Distance

8 Elasticity Settings

Rotate Clockwise
Higher Number
Stronger Elasticity

Tornado V3 Premium

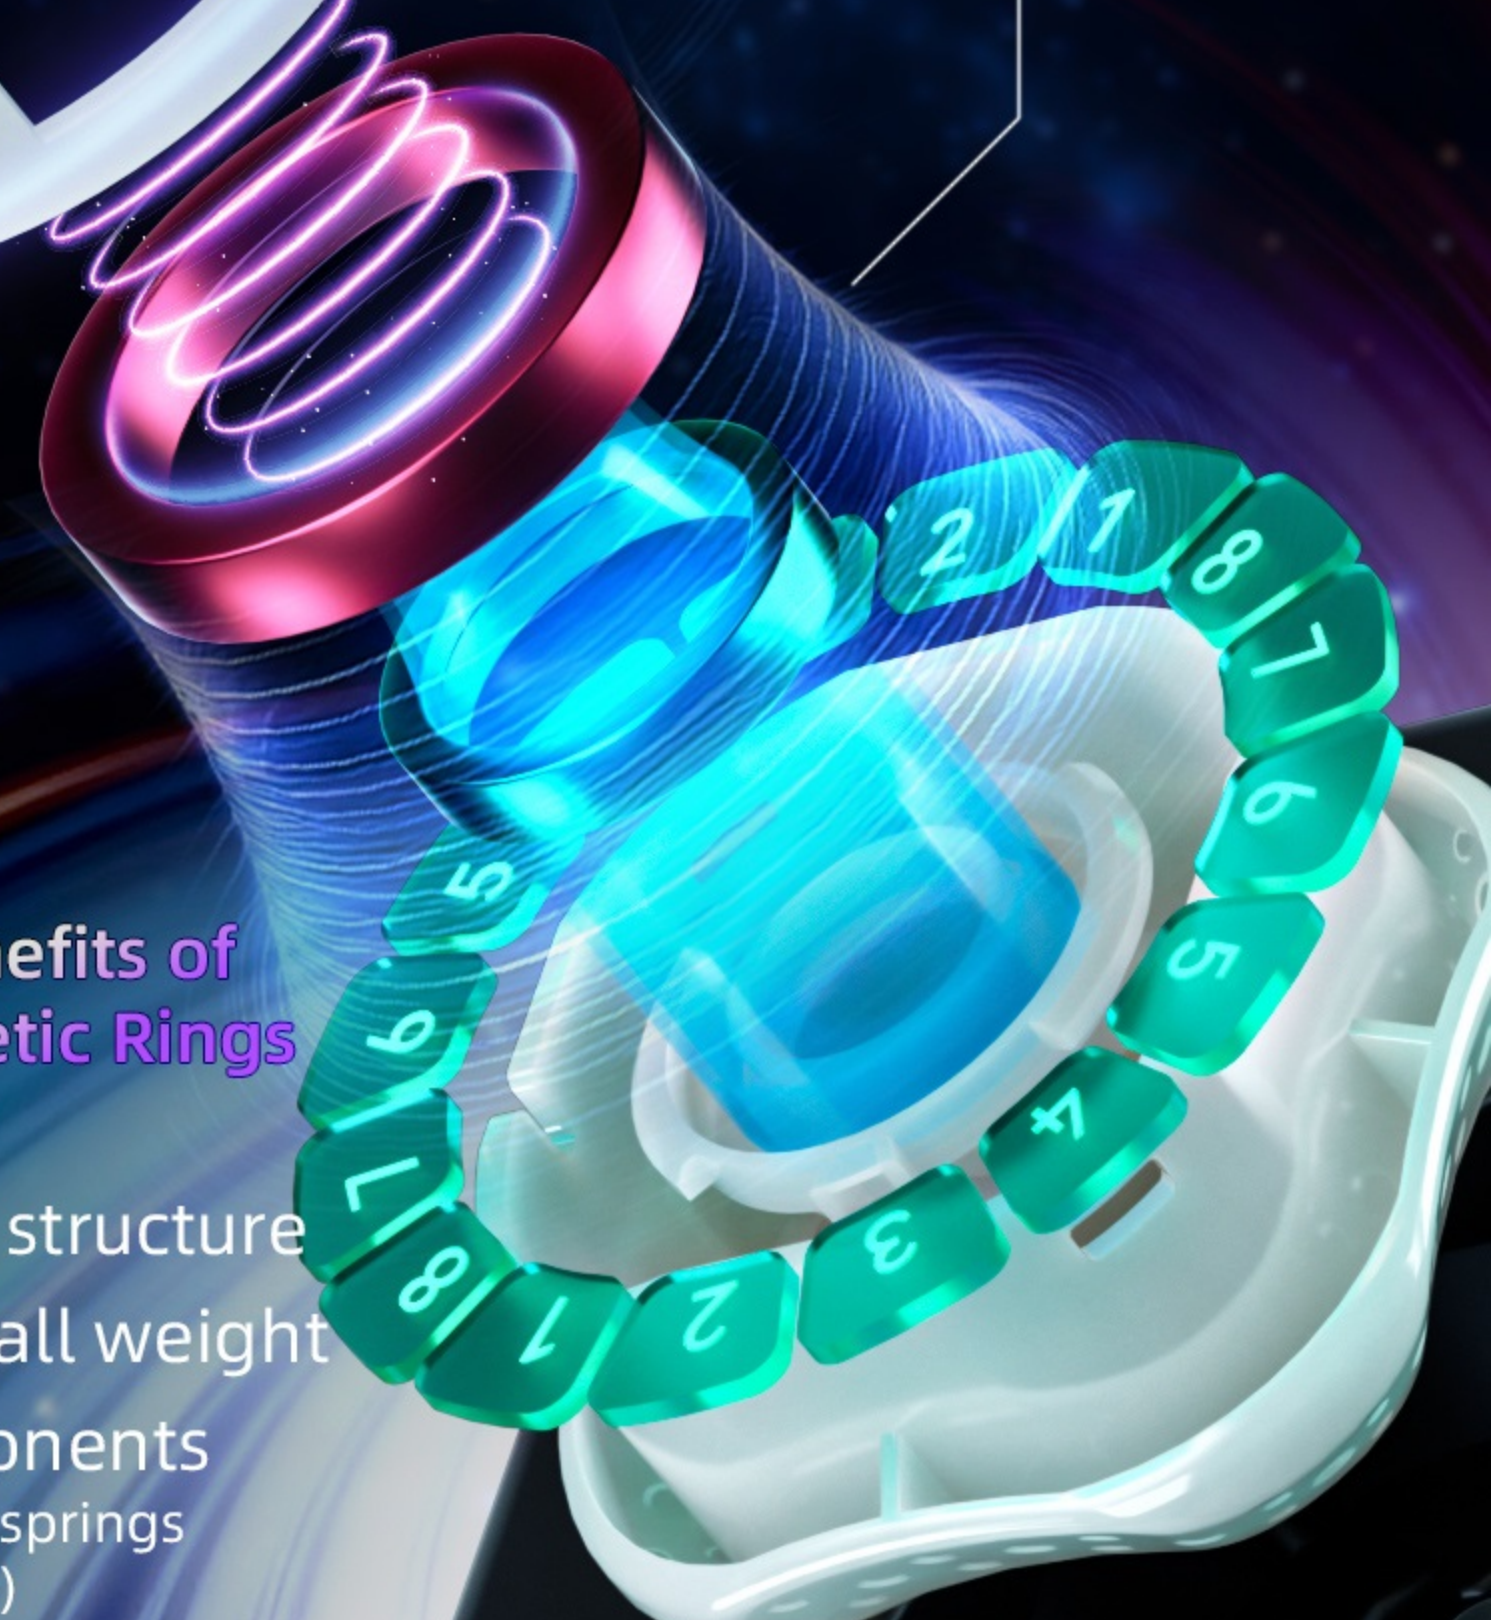

Magnetic Suspension Newly Redesigned Maglev Adjustable System

Ingenious Nested Large & Small Magnetic Rings

Uses two opposing magnetic rings to simulate spring force, fully replacing traditional springs

Delivers a softer touch, lower resistance, and smoother, more linear force feedback

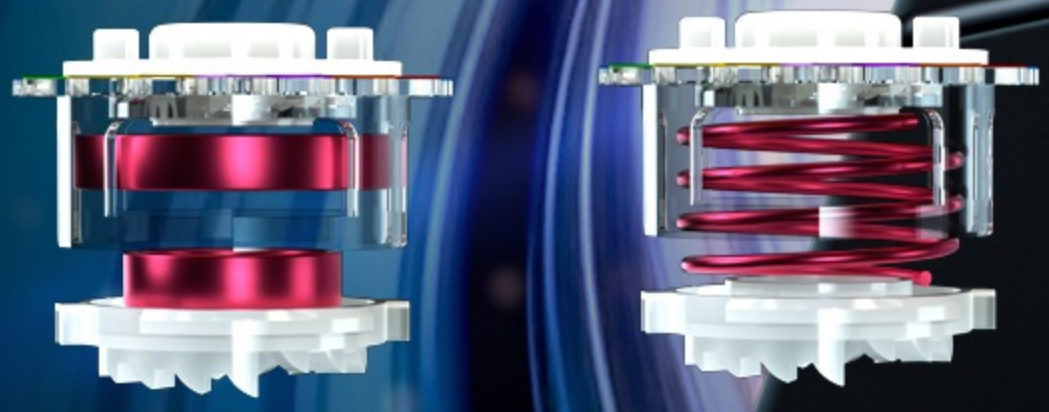

Three Key Benefits of Nested Magnetic Rings

1.Space-saving structure

2.Reduced overall weight

3.Unified components

(PS:Supports both springs or magnetic rings)

Maglev Adjustment Principle

Spring force is adjusted by changing
the distance between the large
and small magnetic rings

【Schematic diagram】

Tornado V3 Premium

Core Magnet System Precision Refined

Omnidirectional Core Magnetic Positioning Integrated magnet slots within the corner piece feet

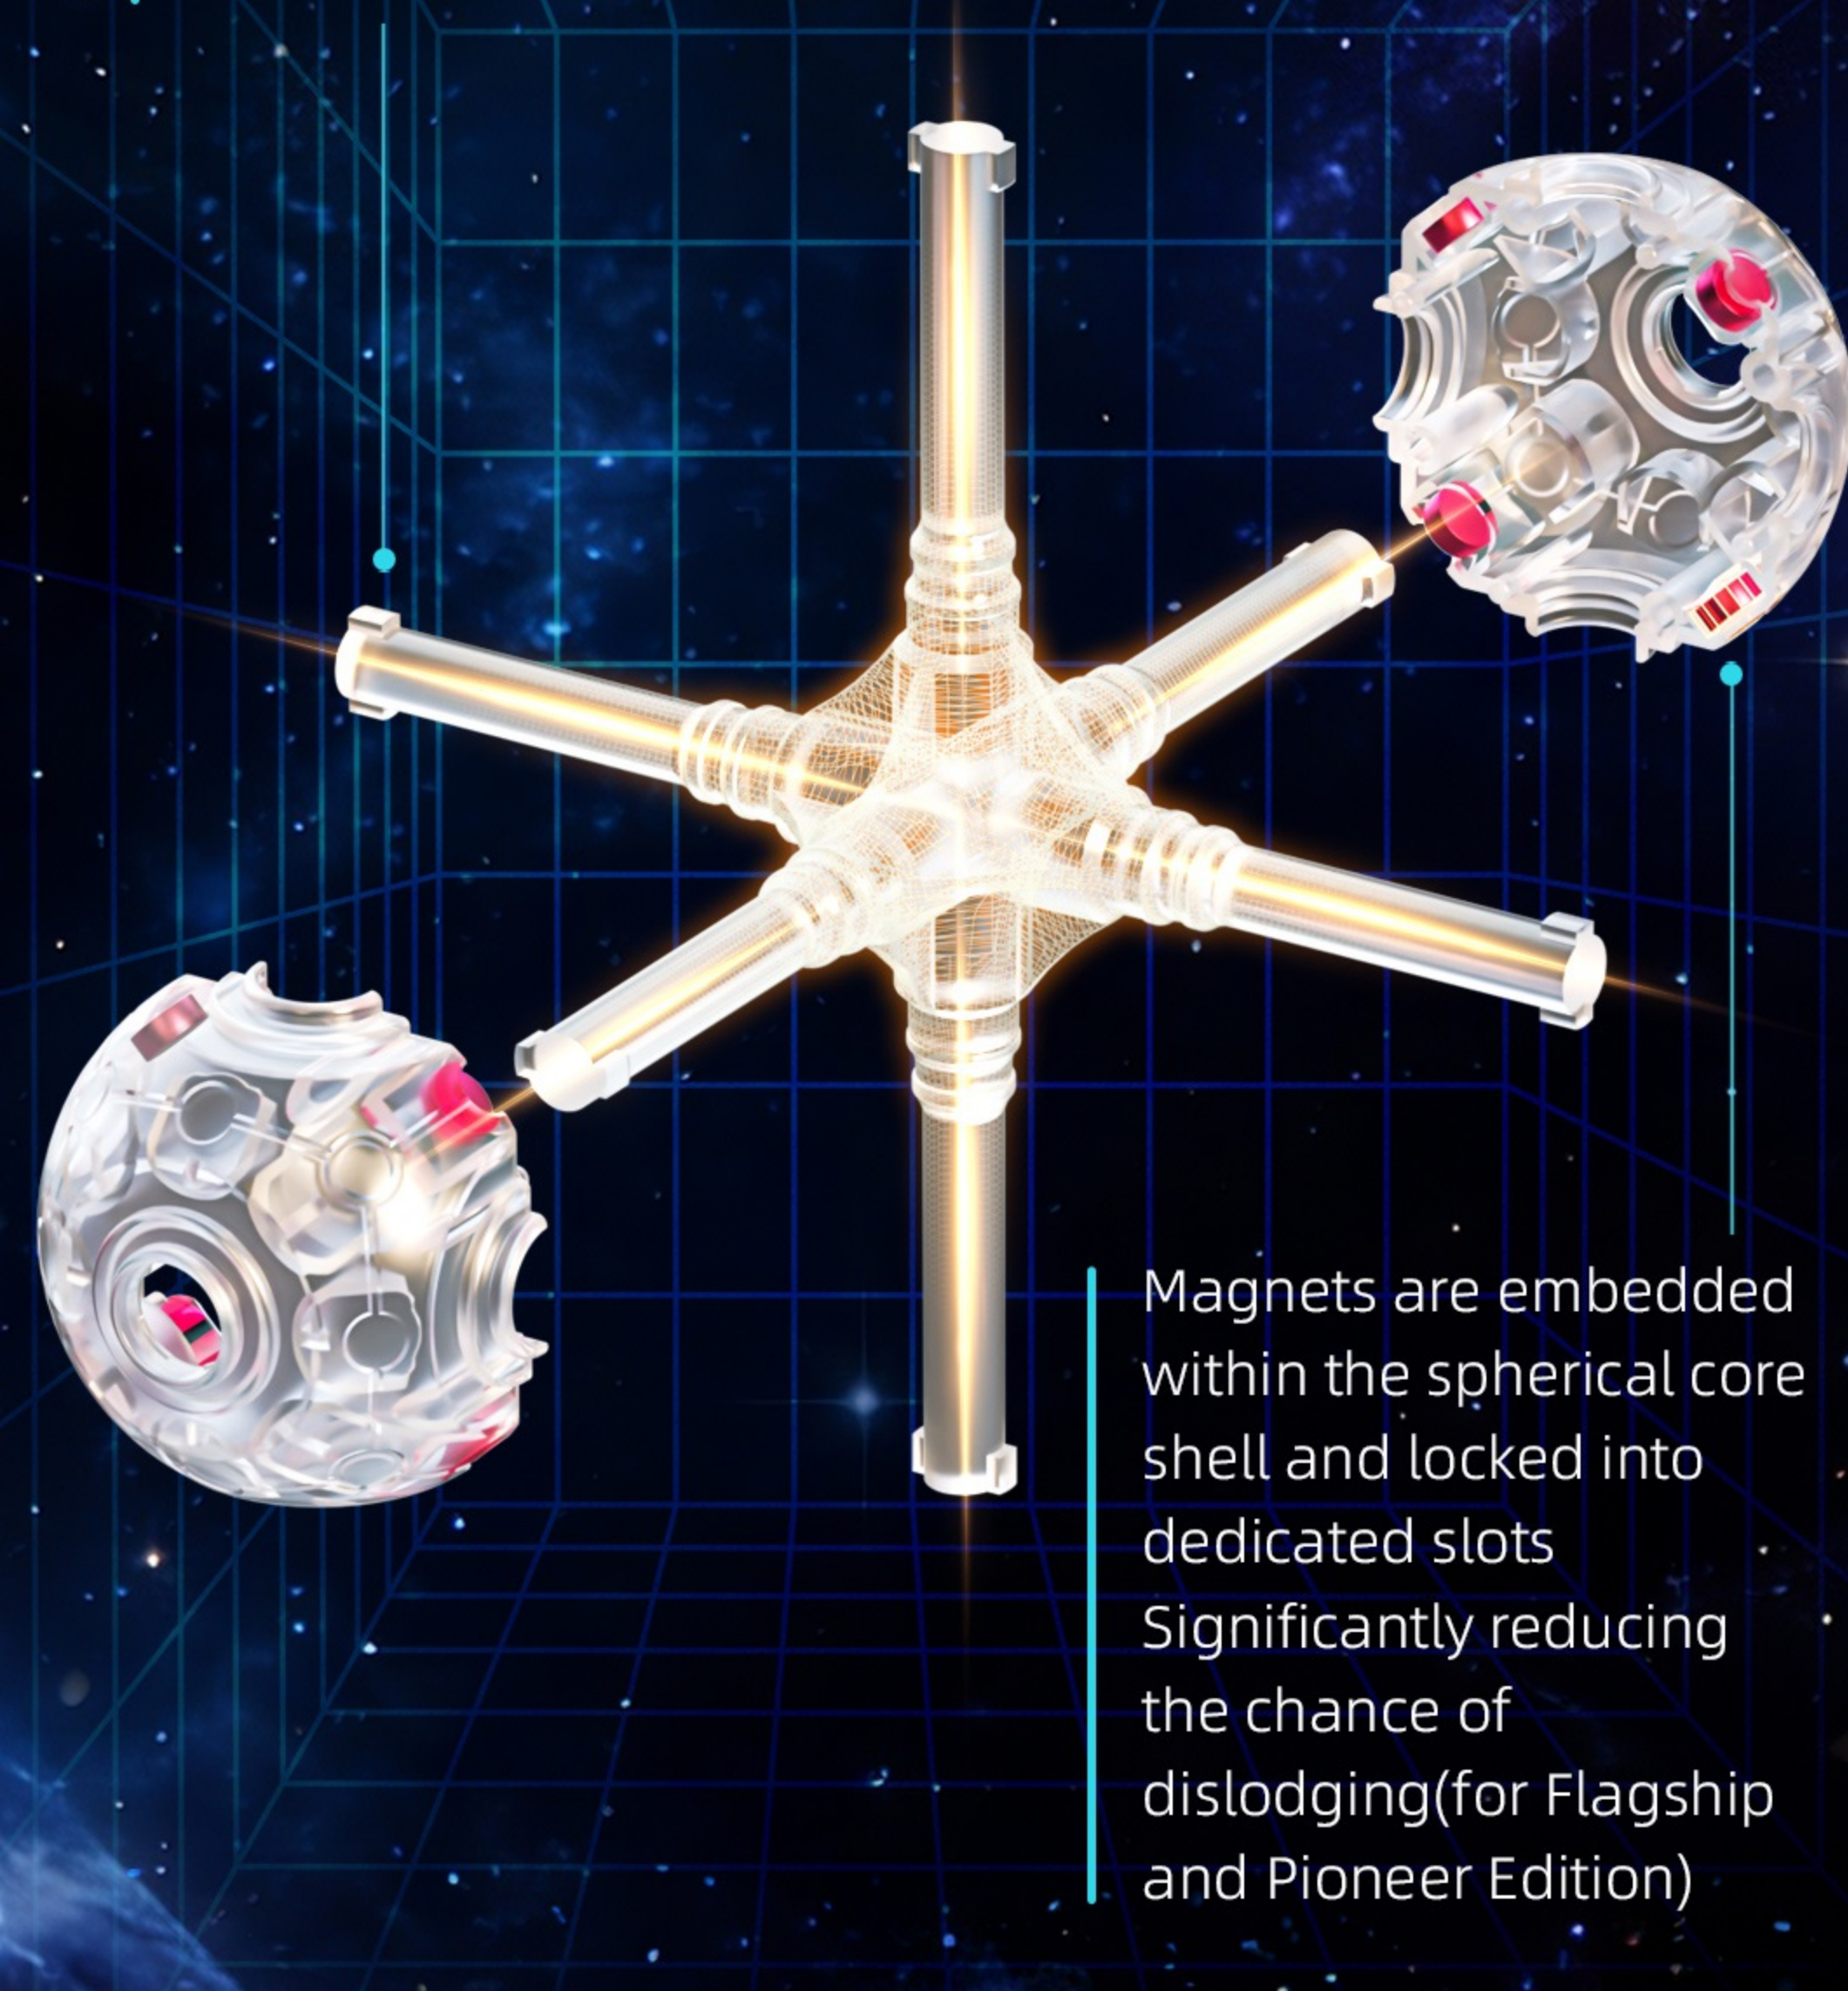

Compared to the V3's external corner-foot accessories, magnets are more secure and less likely to fall out

Tornado V3 Premium

Enhanced Core Strength
Higher-Strength Integrated Core

Built to further eliminate core breakage and magnet loss

At identical axis distance settings, all six faces maintain equal spring distance.
Delivering a unified, consistent turning feel.

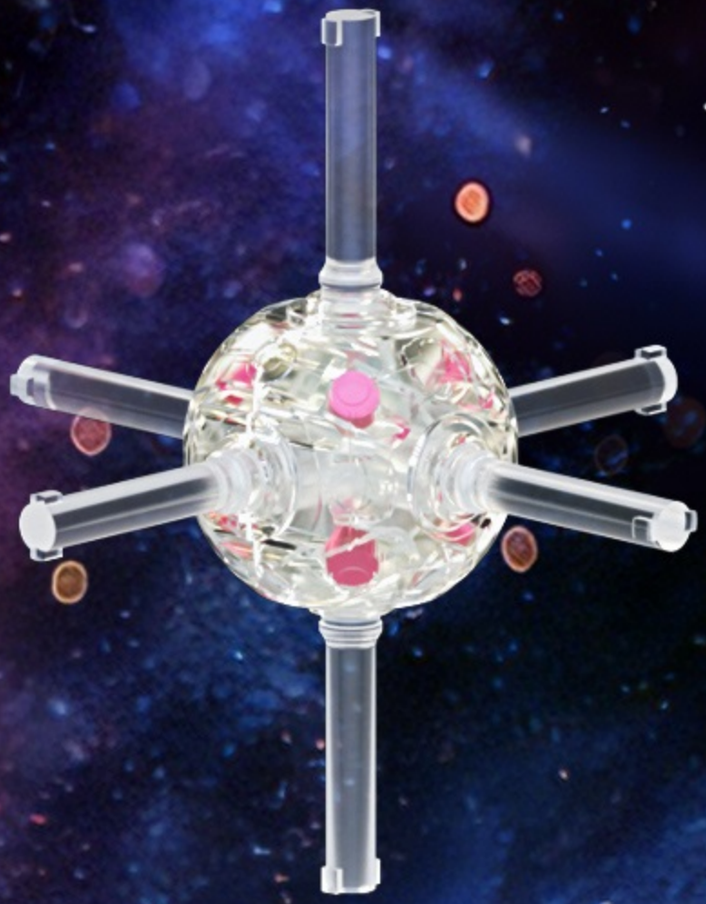

Magnets are embedded within the spherical core shell and locked into dedicated slots
Significantly reducing the chance of dislodging(for Flagship and Pioneer Edition)

Core Evolution Overview

First Generation

Third Generation
(Tornado V3 Premium)

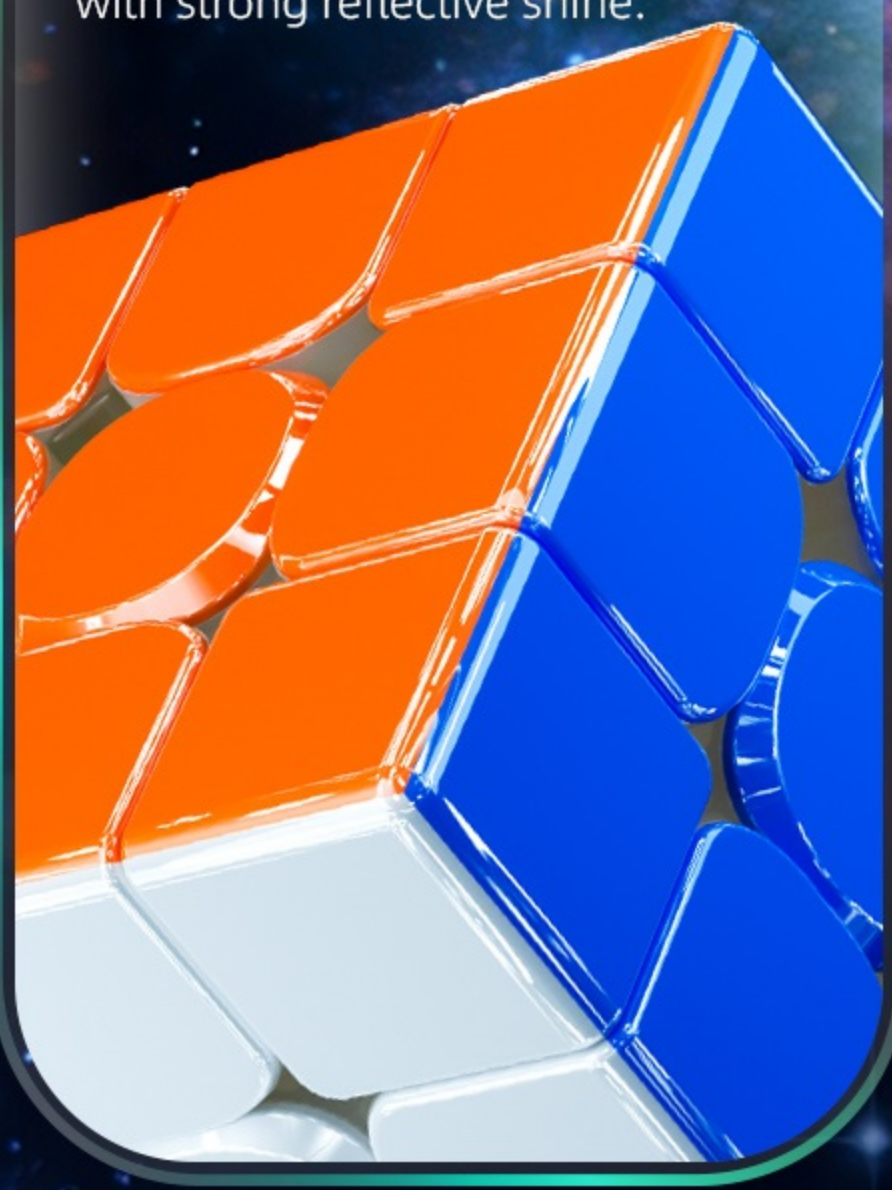

Second Generation

Tornado V3 Premium

Classic Flagship Aesthetics Refined Once Again Not Just Beautiful — Built for Performance

Flagship Edition / Pioneer Edition
UV Coating Surface

High-gloss finish that stays brilliant over time
Scratch-resistant, wear-resistant, with strong reflective shine.

Standard Edition
Fine Matte Finish Experience

Reduces glare and visible wear

All Editions Feature:
Fully bright six-color integrated split tiles

High color contrast for fast recognition

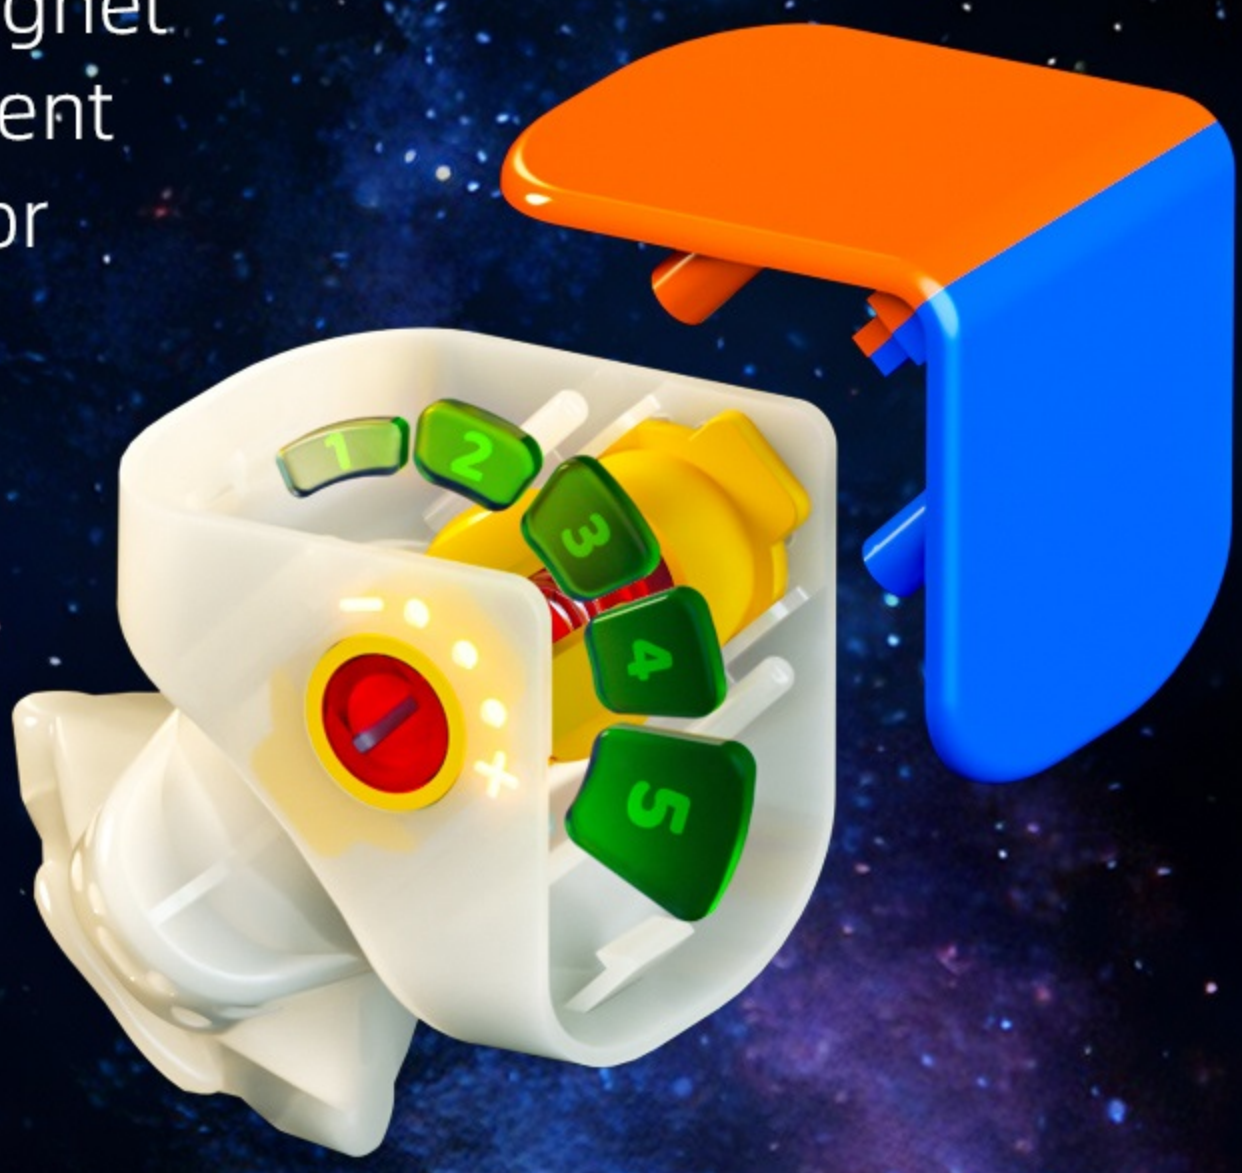

Original-color core with integrated contact surfaces

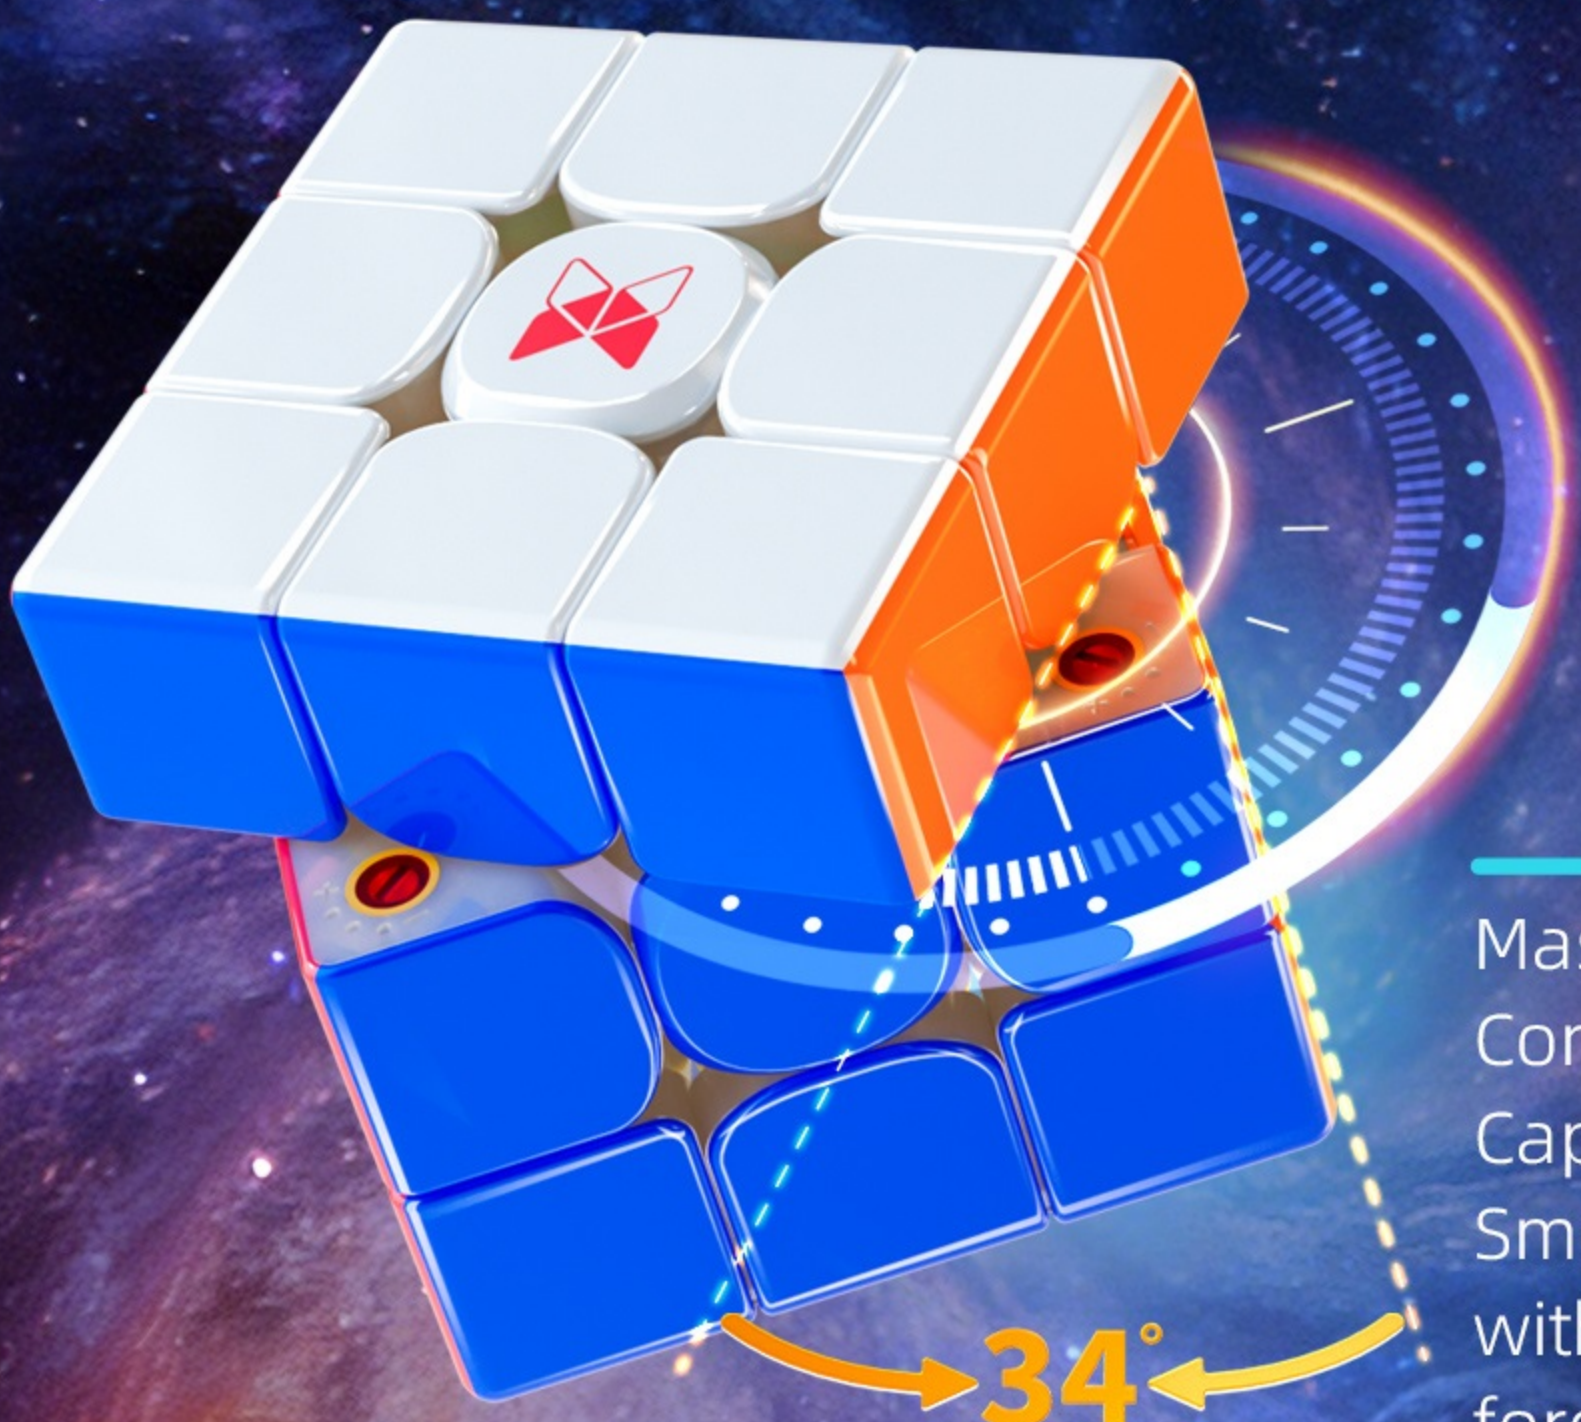

Balanced smoothness with stable, controlled turning

Tornado V3 Premium

More Iconic Designs Proven to Endure

Visual 5-Level Magnet Strength Adjustment
Red & Yellow Color Coding for Instant Visibility

Massive Corner-Cutting Capability
Smooth control with greater forgiveness
